Review Title: Very reliable

Review Description: 2nd loan with them is easy and quick. It's all online customer service support is also great. Never have any issues. The app could use a bit of an update. I don't like how it doesn't show your balance unless you click on pay in full option.

Review Title: Avant has some of the worst customer...

Review Description: Avant has some of the worst customer service that I have ever experienced. They refuse to help and communicate with him even though I have had surgery done on my vocal chords. Their solution was for me to hire someone to go into more debt in order to pay off their debt. By far the worst experience I've had and I do not recommend anyone using this company for a credit card

Review Description: After looking into credit card consolidation I decided my best bet was a small loan. Avant made the process easy. I liked being able to handle the process online. I felt the verification was thorough and safe. My money was deposited quickly. It came with autopay ready to go which is a plus. No use fixing credit cards if you mess up with the loan. Overall would recommend.

Review Title: Englisch not perfekt but happy

Review Description: Geld was in account very quickly, I consolidated a credit card and paid off 2 loans that balanced under \$500, I could've asked for more but this was to kill (most) of my debt, spent 6 years learning American credit, very good to get cards under 30% and be rid of high interest. Having bad credit is a struggle and you're stuck with 30% rates which is very high and punished the poor. I am way more frugal and didn't want a loan but the rates were so good I knew consolidated is what I needed! Please be thankful for the simplicity of a single payment with many options on how to pay. Paying towards principal every month along with payment is very smart also. I hope this helps!

Review Title: I was very disappointed with this...

Review Description: I was very disappointed with this company. I applied through Credit Karma and was told I had an outstanding chance of being approved. I went through the entire process even getting a hard inquiry on my credit report which I was told would not happen until I accepted the loan. I was even sent a promissory note with all of the loan details. Sent in all the requested documents and speaking with a couple of representatives. Only to be told that my loan was denied. A waste of time if you ask me.

Review Title: Learning the ropes

Review Description: I have used card several times and it was great until I got a decline at grocery. Come to find out because I had used my card a lot in a few days AVANT put a hold on it. I had to call and ask why! They then released the hold and all is good. I wish they would have notified me about the hold instead of me asking. I love the phone automation so much faster than talking to someone. I All set aside I really like AVANT!

It NEVER worked again until several days later and then only worked once every couple of days. I would NEVER recommend this card to anyone!!! I'm paying it off and cutting it up. Review Title: I'm a dad of 3

Review Description: I'm a dad of 3. I share custody with my ex. Before my split, I owned a house and my credit was in the high 700's. Plenty of offers for c/c. It made life easier/better. Christmas, birthday vacations , random emergencies could be handled and slowly paid off. The divorce was brutal leaving me, among other things, in financial ruin. It's been over 5 years and I have built a nice life for me and my kids. The only thing that still plagued me was my credit. Credit that my ex destroyed. (I know, I know. Poor me) I'm in a better situation now with a good job. I pay my bills, taxes, etc. yet no company would give me a chance to prove I can be trusted again with a line of credit. Holidays, bdays became much more..limited. Vacations were non existent. And random emergencies were simply not allowed! AVANT is giving me the chance to feel more secure in life. Much more able to truly enjoy the small things that are often overlooked when money is a constant worry.

Review Description: I don't recommend only if you want to destroy your credit score. Declined with 3600 euro salary monthly from 2 jobs after tax. Also having 2 small loans with them, always paid on time (6 months remaining to pay) and no other loans anywhere. One full time job with 2800 euro paid monthly and one parttime 160 weekly. I was called by a person from their company asking me if my salary from the part time job is my monthly salary, they already having the last 6 payslips (3 from full time job and 3 from part time job). You will realize how well informed the gentleman who called me was. (this staff is totally beside the point). Was provided the last 6 payslips from both jobs. Customer care:))), people who check the documents ... :)))

Review Title: Credit Card Bait & Switch

Review Description: TL;DR: Questionable applications opened & poor customer service. Transparency is the issue. I was offered a 2% rewards card if I applied and opened a new account with Avant through Credit Karma. I did as told. I discovered that two applications were opened when I applied in February 2024. This concerned me; so, I emailed Avant support asking if the card I was approved for was still a rewards card. (I hadn't received anything in the mail yet.) I was told to call. I did. I was told that it was in fact the rewards card. I also was told via email that I would receive a separate email verifying the rewards portion. I never did. I tried emailing again and received another 'call support' response. So I did. Then the system was down; no help again. I decided to make an approximate \$15 purchase to see if any rewards would generate. Nothing. I called again today (05March2024) and was told that it wasn't a rewards card and that I can't have two cards. I tried to explain that I only applied for the one. I was given a scripted response. I asked for a supervisor. I was told one wasn't available and to request a callback when one was. I then closed my account. I will not work with a company that cannot provide a straight answer; especially when it appears that two applications were opened at once without my consent. If you never have to ask for support, this card will be ideal. Please improve communication.

Company Name: Avant

Review Title: Massive bait and switch

Review Description: Massive bait and switch. Received approval that showed \$0 under origination fees and \$10,000 as total amount to be deposited in my bank. Then before funding changed fine print that doesn't display well on mobile devices. Changing terms to 10% origination fee or \$999 and only depositing \$9001 into account. This dramatically changed the terms to a loan that was a very very very bad deal and I never would have accepted. People like this should be thrown into prison? I didnt catch until 24 hours after they funded because they funded to the WRONG CHECKING ACCOUNT. Even after confirming through 2 diferent agents on two different calls that is was going to the correct account.

Company Name: Avant

Review Title: Application and Approval was easy

Review Description: This is the third loan I have received from Avant. The loan application was easy. The time between the approval and the issuing of funds was very quickly. The only downside that I found (for me) was the amount I was approved for was not the amount I actually received. They take out fees first. I wish they would just add it at the end. I had calculated exactly what I needed but once they took the fees out I had to come up with a different plan.

Review Description: Avant is the worst Credit Card Company I have ever seen. They have so many Fees. I Close the account and I Paid them off. Every time I pay them off Twice. They would keep charging me Fees. Now they put on my Credit that I owe the \$3.41. Are you kidding me. They are a joke. I am sick of them. I don't advise anyone to fool with Avant. It's so hard to pay them off. I don't ever want to hear of them again. I paid that \$3.41 and told them to KISS MY A**. Every time

Review Description: I applied for this card through Credit Karma on December 11th. I was approved and it is now February 23rd, 2024. After multiple calls and emails still no card. I currently work as a mail carrier and I was told it takes 10 to 15 days to receive mail from Chicago to South Carolina ■ ■. It wouldn't take that long if it came by horse. My credit score was impacted by the inquiry and I don't get the service I was promised. THEY HAVE ALL MY INFORMATION and that's not ok. This has to be some type of fraud or something illegal on behalf of Avant and Credit Karma.

Review Title: Three Strikes and I'm done!

Review Description: Three times I've had a purchase that I was trying to make declined. Greyhound, Harrah hotel and the popcorn place that I ALWAYS purchase from. I forgave Greyhound as the card was new and I understand the company wanting to avoid fraud. The hotel, I called TWICE and verified my identity, but the charge still didn't go through so I had to use a different card. \$6 purchase you couldn't let that go through at the popcorn shop? This card will CLEARLY NOT be my "go to" card. Far too many limitations.

Review Title: I had been paying on my loan for six...

Review Description: I had been paying on my loan for six months. I refinanced the loan. I got the new information about loan how much from what account and it never gave me a due date. I thought the new amount would be deducted the same day that it has been deducted for the previous six months. I went to store and looked like a total fool when my account was 480 dollars in the hole. I looked and seen Avant had moved my due date to the 20th and pulled the money two days earlier. When I called Avant the lady rudely informed me that the due date last month was the 20th and the 20th of this month. Zero Empathy. She ewas an ass and said it would be on the new agreement. I went back through my emails and Avant on December 19th, 2023 sent me an email outlining everything. The current balance, the additional funds, the admin fee, the new total, and the funding date. Nothing about a new due date. I am a simple person, I wish that if you were going to make changes to my automatic payment it would have been pre-approved and not done without my knowledge. Also why would you change the due date that had been previously set for half a year before. Frustrated to be in the hole for two days before payday! I know Avant doesn't give a care, pass on the blame to me, even though I have been making this payment on the 22nd for six prior months. You don't care because you aren't having to not feed your family for two days. Just pissed about this situation

Review Title: Very good company

Review Description: I have used this company before in the past, their app is easy to navigate and shows you what you have left to pay. After a year or so of payments they usually have an offer to refinance your loan at a lower interest rate, my first loan was 27% and once refinance it was 19%. It's a good option to consolidate debt I think, sure it's expensive but for some people it's better than watching their credit card interest bleed them to death over the years like mine was. I would recommend this company to anymore who needs a loan.

Review Title: Made a payment on 1/10/24 for \$200.00...

Review Description: Made a payment on 1/10/24 for \$200.00 to go towards my Feb 24 payment because I was going out of town on business, got back and found a email that my Feb payment was late and that a late fee was added. I then made another \$100.00 payment (online) and called customer (lousy) service. As soon as someone picked up the phone the first thing I heard was my MIRANDA RIGHTS that this is attempt to collect a debt...(wait - what debt?) told them I had made the payment on 1/10 and another one on 2/14. They said the payment on 1/10 went to my balance and they have no record of the 2/14 payment (yet) though my back said it was already pending. explained the problem and said there is nothing they could do about the 1/10 payment because it had been made (24 HRS) to soon...WAIT WHAT?. and the the late charge will stand and that there is nothing they could do about it. Asked to talk to a supervisor, only to placed on hold for over 25 min and nothing. I have emailed them multiple times and after 2 days nothing. Told to cancel the card and would just pay if off, but that I would NOT pay either the late charge nor the annual fee since the card would not be used in the coming year. If you have a problem with them, customer service is NO help at all and emailing them is just as bad. Supplement.... After nearly 3 weeks...Avant finally responded, all it is - is a canned response, no thoughts and still they want you to reach out to them...like I have multiple times already, and all I get is just lip service and no action. Hey AVANT...here's an idea...get off you computer and act like a human and maybe, I don't know...maybe call the customer. you sure expect the customer to do it and do your job.

Review Description: I would've given 5 stars but I didn't like that the agents kept calling me asking the same repetitive questions every other day instead of reading the notes, it was frustrating because the process could've been much quicker! Company Name: Avant

Review Title: Straightforward

Review Description: Quick application. Took a little while to get the card in the mail. The mobile app is a bit funky. I can't see my rewards. Statements don't download off the app, but they work on the website. It is weird that it doesn't show the business name on pending charges, just the amount of the authorization. I received a rather low limit and high APR, but it's still a generous rewards program. It's also genuinely generous of a limit compared to another card I was approved for with similar rewards. I filed BK a year ago so I have slimey dogwater of a credit report right now and still was approved.

Review Title: During the application process I was...

Review Description: During the application process I was required to submit my banking account information login to them through a third party. Absolutely NOT! Now my application is unfinished and my credit score negatively impacted for no reason. Avant says applying won't affect your credit score. False. I received a hard inquiry and my score dropped five points. Avant's reply states a soft inquiry won't affect my score. Sure. But I got a hard inquiry because you denied my application because I refused to give a third party my bank account sign in information. That was never listed as a requirement. I would never in this day and age provide my online banking access to a credit card company or any company. This is completely unacceptable business practices, Avant is predatory and dishonest. I should have trusted the negative reviews. Even Avant's reply is deceptive. I received a hard inquiry. Yet notice their reply starts off with a completely useless fact that doesn't apply to this situation, obviously in an attempt to negate my factual experience. I just double checked, and there is a hard inquiry... Please contact credit bureau and remove the inquiry Avant.

Apon calling this lady from Customer Service said she had to repeat to me all the FAILED attempts to make a purchase whicjh has to take at least 10 minutes as there were 100 failed purchases & then She unlocked the the card that was BLOCKED. Do you see why I said no E-mail & No Text. Why didn't anyone try to get a message to me telling me the card was blocked from making a purchase. WHY was it blocked & why didn't anyone send me a message. I say you Failed miserably.

Review Description: Be aware that Avant will pre approve you and give you loan amounts and APR rates. That means nothing, they will just give you enticing APR and generous loan amounts so you can apply. Then the nightmare begins, they will run a hard credit check and ask you for pay stubs, bank accounts and W2 form....then after all that it's when they will give you the real APR and loan amount. As always banks playing games and misleading, gotta love banks. Never mind they take a 10% fee from loan upfront, this is some business!

Review Title: I applied for a personal loan

Review Description: I applied for a personal loan, there was alot of back and forth on documents to be loaded. I told them that the "Plaid" would not work, they told me to submit a voided check....which I did. I got an email the next day to say that I needed to sinc my bank account and the next day another one. I called to check in on this and they told me they have everything and that they would send me approval or denial in 2-3 business days. On the 7th business day I got and email that said that my account was now expired. I called to ask them about it and they said that my loan inquiry was closed and to apply again. I told them you told me you already had anything. The lady thanked me and then told me to apply again. I ask is it worth my time if I can not link my bank account. At that time, she told me that step is optional and that I would need to apply again.... I am not happy with how this was handled and I am now not sure if I should apply again or just give up!

Review Title: If you have a PO Box mailing address don't get this card!

Review Description: If you have a PO Box mailing address, do not get this card. I was instantly approved for a credit card after applying on Credit Karma. When filling out the account information, I put down my permanent address. I was expecting to be able to add a different PO Box mailing address later on, as I live in a town that only uses PO Boxes and does not offer street deliveries for mail. I sent an email to ask for my mailing address to be updated. I was told this is against the policy they have for addresses (PO Boxes are not allowed to be set as an address on your account). I sent another email explaining I just wanted to update my mailing address, not my physical address. I was told to call in to speak with someone. I called in and was told having the credit card mailed to my PO Box is not possible. I asked to speak to a manager at least three times; I was ignored and was told repeatedly what I wanted was not possible. I finally gave up and told them to close my account. They proceeded to close my account, and I asked again to speak to a manager. After an almost 10-minute hold, I am informed the manager is "on a call" and they can leave a message. I had my account with this company for a grand total of one day! Not worth the headache.

Review Title: Title: Beware of AvantCard: Unresponsive Customer Service and Hidden Fees

Review Description: I recently applied for the AvantCard, hoping to build my credit. However, the experience turned into a nightmare from the very beginning. After receiving the card, I attempted to activate it, but it wouldn't work. Despite multiple attempts through the online portal and calls to customer service, the issue remained unresolved. Customer service was unhelpful and unresponsive. After waiting on hold for extended periods, I finally reached a representative who failed to activate the card and couldn't explain the problem. Frustrated and unable to use the card, I decided to cancel it. To my shock and dismay, the representative informed me that I was still responsible for the annual fee, even though the card never worked. They refused to waive the fee or offer any form of compensation for the inconvenience and time wasted. When I requested to speak to a manager, I was astonishingly told that they didn't have one available. This lack of accountability and escalation options further highlighted the company's unprofessionalism and disregard for customer concerns. Avoid AvantCard at all costs! Their non-functional card, poor customer service, hidden fees, and lack of accountability make them a terrible choice for anyone seeking a credit card. Be wary of their misleading offers and save yourself the frustration and financial hassle I experienced.

Review Title: Do yourself a favor and stay away

Review Description: It takes up to 10 days for anything to post to your account. You cannot see any transactions for a month. So good luck catching fraud. I called to check my balance before I made a transaction and it's not accurate. I called to see why my account was showing negative and no one could tell me any transactions or see anything on my account to even help me. The first representative told me they don't post the over balance to the credit bureau and that it wasn't going to hurt my credit. Same morning they reported to the credit bureau and I lost a ton of points. I called back to see what happened and they still can't see anything on my account. I asked them to remove it from my report. The lady says she needs to get a supervisor but none are available. Then asks when someone can call me back . I said today asap. And then the lady says remember you can log into your account online to check on your information - but you literally can't and that was part of the reason I called. Literally the worst credit card I've ever had. I wouldn't recommend to anyone. For a company that's supposedly giving credit cards to help build credit it seems highly negligent to not allow the card holder accurate and up to date information on their account and balances. Up to 10 days to post to your account - really!? I recommend people to stay away from this company.

Review Title: This review to express my...poor customer service

Review Description: This review to express my dissatisfaction, with the customer service provided by Avant Money. My recent experience in trying to pay off a loan has been incredibly frustrating. I feel it's important to share my concerns. I started the loan repayment process seven weeks ago. Despite my efforts I'm still waiting for a confirmation letter in the mail confirming that the loan has been fully paid off. This delay is not just inconvenient. Also has implications for my mortgage application, which is now being unnecessarily delayed. I've called Avant Money times over the seven weeks to inquire about the status of the letter. Unfortunately, every time I call they inform me that the letter is "on its way." The lack of a resolution and constant delays in receiving the documentation are causing me a lot of distress and inconvenience. In an attempt to escalate this matter I requested a callback, from a manager. To my disappointment they informed me that it would take 48 hours for this process. Unfortunately, I still haven't received any callback yet further prolonging the resolution of this issue and adding to my frustration. The customer service team, at Avant Money is incredibly inefficient and unresponsive which is completely unacceptable. This does not affect my commitments but also specifically impacts my mortgage application. I strongly urge Avant Money to address this problem and find a solution to the delays in providing the paperwork. This experience has not damaged my perception of Avant Money. Has also raised concerns about the dependability and effectiveness of their customer service procedures. I sincerely hope that my feedback prompts an examination of your customer service practices ensuring that others do not encounter difficulties, in the future.

Review Title: Approved for less than half of pre approval amount.

Review Description: So credit karma said Avant had outstanding approval odds for \$10k loan, decided I wanted to consolidate my CC debt and hopefully lower my apr so I applied. Avant did their "pre approval" and actually came back slightly higher than CK did. Went ahead with the process. Took a few hours but I got approved....for less than half of what my pre approval was for...which did nothing for me. Oddly enough my income at the CK state was lower than my actual income...now I have a hard pull for no benefit.

Review Title: Haven't had any issues with this card. Would like a higher credit line! On-time statement balances paid in full for over a year!

Review Description: Haven't had any issues with this card. Wish it didn't have the \$39 annual fee, and it could be removed. I'm getting offers for the same card now on Credit Karma for 2% cashback, instead of 1% cashback that I'm getting now, and supposedly with a higher credit line that I have now, no annual fee, 2% cashback, but the APR is much higher. I've had the card for well over a year have had a few credit line increases, but still think my credit line should be much higher than it is, especially since I see what people are getting as a credit line, compared to what I have now after holding the card and paying my statement balances in full every month for well over a year. Started at \$300 and it's now at \$1000 as of the other day. Feel card should have a credit line of at least \$1500 - \$2000. Plus, I have a great track record with WebBank! Overall it's a great card and have recommended it to family & friends who now have the card too. Always have had a great experience, just too low of credit line.

Review Description: I attempted to update my mailing address to my P.O. Box and was advised by CSR as well as a Avant supervisor that it was not possible. The supervisor was so rude and refused to escalate the issue to her supervisor. I have all of my credit cards as well as bank accounts going to my P.O. Box for mailing purposes. I'm not sure why it is different for Avant or why they have such poor customer service skills. The supervisor I spoke with should be fired for speaking to a new customer the way that she did. I do not recommend this company. Avant you really should do better.

Review Title: Highly impressed with AVANT

Review Description: I've had an AVANT credit card for a couple of years, and have had great experience with that relationship. I've had a large balance on all my credit cards which I have been trying desperately to knock down, with little success. I received an offer from AVANT for a personal loan to pay my credit card debt. Although the interest rate is high, it allowed me to pay off all my credit cards and lowered my monthly payments by \$400. That gives me much-needed breathing room and I can now pay more than the minimum payment on that loan to pay it off more quickly. All in all, I am very pleased with my association with AVANT.

Review Title: I tried to get a loan from this...

Review Description: I tried to get a loan from this company. For almost a week, her employees called me at any time they wanted, although I asked to call me at 1pm so that it would not be while I was working in the office. During the call, I can hear almost nothing, since in the background of the conversation of their employee, other conversations and other noises are constantly heard, obviously their company does not know anything about noise reduction. Every day they asked me for more and more information, they even called on Saturday and Sunday. On Sunday during the call, I asked how I could cancel this application, after which the agent still asked questions, she agreed that the additional information she requested was not needed, and said that I would need to check the status of my case in my cabinet and see if it was needed more documents. On Sunday evening I saw that more documents were needed, and on Monday I saw that my application was cancelled. When I called the company and asked why my application was canceled and how to resume it, the agent told me that I canceled my application and if I wanted, I could fill out a new form and that since 7 days had not yet passed, my application would be renewed. When I did this, I received a message that they could not provide me with a loan at this time. Terrible experience with this company!

Review Title: I applied for the card was approved

Review Description: I applied for the card was approved. The problem is you have to use a residential address to receive the card. Which I have numerous credit cards. I only receive mail at a post office because our town is so little we don't have mailboxes at our house. So before I would call the credit card company and have it shipped to my P.O. Box. Well avant- said they can't do that. And they said I can send it to another address but have to send documents to do this. This \$300 credit card is not worth my time. So I told the rep to delete the application because it's not worth it.

Review Description: I've had multiple fraudulent charges on this card since activation and customer service claims they cannot remove the charges, only Fraud Dept can and Fraud Dept claims they can only close the card, not remove charges, Customer Service has to. I spent over 2 hours and 8 transfers the other day with no results. I blocked the card from the website myself after calling in 4x to do this. This company is a nightmare. Review Title: STOP DON'T DO IT

Review Description: Avant has decided without warning or reason (no fraud, late payments, and plenty of money) to do my card from working. Yes, that means I'm at checkout and my card is declined for no reason without warning. How embarrassing! This has happened more than once, twice, even three times. No explanation why, just we'll turn your card back on so you can use it. Meanwhile they have no problem charging that high interest rate. What a sham of a company. AVOID THIS CARD!!! They have no concern for their costumes only their bottom line and their public image.

Review Title: Finally I was approved

Review Description: I have been trying to get approved for a loan to co solidate my debt and kept getting turned down due to negative items that have been on my credit report for years. I was giving up and came across Avant. I applied and within minutes I was approved and the funds were available in my account within two days. No hidden fees, no surprise, no scams. Yes the interest rate is a little on the high side but the purpose of the loan is to lower my credit card usage ratio so that my credit score can increase and then I will refinance the loan with a HELOC. Thank you Advant I will definitely refer you and use you again in the future.

Review Title: My 2-Statement, 5-Payment Review - All Good Here!

Review Description: I was approved for \$2000 through a Credit Karma offer with their score of about 660. There were different choices at different times, such as 0%, 1%, 2% and 3% back, since I visit that site frequently. When I saw the 3% populate this last time, I registered for their soft-pull on credit, then finalized it shortly after that approval. The card arrived promptly and I believe I had some issue activating online, so I used the phone and prompts to do that. I registered my account online and monitor my purchases and payments there. I made multiple purchases nearly immediately at places such as stores and online shopping, even a membership to a social website, as well as my annual phone bill (yep, I pay 1 year in advance); a wide variety of purchases. In 2 statements, I've made 14 purchases and made 5 payments. I am set up for reoccurring automatic payments, but I don't wait that long. Once you make a payment, if it is over the minimum due for the month, your reoccurring payment is not deducted, because the system knows you have already made that minimum payment, if the minimum is what you are set up to pay. More simply, it does not double dip if you already paid. If you set it to pay your balance, I need not explain that. The only negative I can think of is that they show your purchases and payments as "pending" for at least a day, so you have to do the math yourself to determine your real balance. I'm used to a credit union where transactions are immediate. Pending means you did it, so I don't get that. I have not experienced any problems at all with Avant, and I get 3% back. I'm not addressing others' problems I've read about, because I haven't had those. They email me about my account, when it is due and when I make a payment. I have replaced my debit card with this card, and I just pay it off as I would have done if I had used a debit card. That is why I make so many payments, and I wanted to make sure they take multiple payments, which they do. Sometimes I come home from the store and make a payment for what I just bought. This basically cuts my sales tax nearly in half, as long as I pay it off every month. I make at least one payment a week. I'm used to not having a credit card, so that part is a habit to keep. I'll never raise my score if I carry balances on a card, and neither will you. Don't ruin your credit again by using this or any card as a luxury. Don't buy things you couldn't otherwise pay cash for. Don't tell yourself, "It's only \$19.95", just don't. Don't limit your payments to the minimum; pay the entire balance and get used to it. If you must pay a minimum (I get that), pay more no matter how much more. There's nothing better than looking at your account online and seeing the balance is \$0 with a payment due of nothing.

Review Title: Amazing Loan company!

Review Description: Amazing company! Very fast and reliable. Have used them 2 times and both fully online. I had to pull 1st loan to repair my car. A year later which is now, I applied for more money to consolidate all my debts. Applied on the 5th (thurs) of the month, online, received approval on 6th (Fri) of the month by email, also letting me know I would receive funds on the (Tues) 10th but noticed I received the money in my bank actually on Saturday, the 7th penning, then posted on the 10th. 9th Monday was a holiday. I remember my first loan was pretty fast too. So basically if I didn't spot over the weekend I'd say from the time you apply it can be 1-4 days. I think my first loan funded by 2nd day and that's because I had very little debts. Anyway I was drowning in monthly minimums so this was the best experience because now I just have 1 bill and was able to choose if I wanted long term minimum or short term. Highly recommend them if you need a loan! Excellent experience. I've never had to speak to a customer service rep. I selected autopay and now I'm all set. The 1st bill will be due exactly one month after your fund date, so mine is the 10th every month. Hope this was helpful, I was shopping around before I applied for my second Loan but felt other companies take too long to approve you online. If you want a quick turn around which is what I wanted, this company is great!

Review Title: Not off on great start

Review Description: I recently opened an avant card. So far, I hate it in comparison to all of my other cards. After using the card I called to get my bill/payment information to see when my 1st bill would be due, and was told to call back during business hours. I could not obtain payment info or make a payment outside of their business hours. A few weeks later while paying bills, I realized I was now a few days late on my 1st payment.. I immediately made the payment and asked for a 1 time late payment waive explaining the reason. The representative put in the request and told me I would hear back later with a decision. Days later I received an e-mail letting me know the late fee waive was denied and to call a 1-800 number if I had further questions. I called the 1-800 # and the representative said he couldn't help with any questions concerning this and directed me to email a separate contact. The run around and hassle to even ask a question has been ridiculous compared to any other card I own.

Review Title: Customer Service Sucks

Review Description: After a few years with this company, no past due payments, and finally paying it off, I was cancelled because I was no longer using the card. That caused my Credit Score to drop. The reason I didn't use it was because I live in a city where there is no mail service in the city. Everyone has a PO Box. The first card was sent to that PO Box but the 2nd card never arrived. Now they tell me Avant can't send a card to my PO Box. UPDATE: There reply is an example of their "service". They have my phone number, so they should call. I "called" their phone number and was told they couldn't help me. Hence, the review. Now, they want me to call them again... so I can be told the same thing all over.

Review Title: They Don't Treat Coustomers With Respect

Review Description: I have been a customer for over a year. I have discovered that this Avant is only concerned with money and does not care one bit about there quality of service or customers. I receive one pay check a month and only asked that my pay date coincide with my pay day. Avant refused to move my pay date. During the almost two years I have been a customer I have NEVER failed to make a payment on time. I only wanted to move my pay date to ensure that funds would be in my account. Avant showed me no Courtesy, Loyalty or Respect. I will close my account and take my business somewhere else.

Review Title: Lack of company integrity.

Review Description: This is a brand new account. My first payment is due September 25th, 2023. I downloaded the app, set up autopay and scheduled my first payment to post today. After I scheduled the payment a notification came up that said I still need to make my payment due on September 25th. The \$300 dollar payment I scheduled today was for my September 25th due date. So I called customer service. AVANT CUSTOMER SERVICE IS A JOKE. I spoke to Auje. It was impossible to make any headway. She just read her printed script no matter what question I ask. She could not provide an answer because she had no clue what she was doing. This is such a reflection on the integrity of a company who has so little regard for the customer that they put little to no effort into ensuring that their employees have the skill set and are equipped with the appropriate knowledge of the product or service they represent to allow them to do their job with even minimal competence. This in no way can be the responsibility of the employee who gets the brunt of our frustration and dissatisfaction, but proof of blatantly self serving leadership. I am the customer. I deserve to be assured of the company's competence, to have trust in and respect for the company I do business with. Mega fail on the part of Avant

They ask for another street address so i reiterated the post office won't deliver no matter what street you put. So i told them to cancel... she couldn't do that either

Review Title: I've never been more embarrassed in my...

Review Description: I've never been more embarrassed in my life. I was short to pay for a procedure I was having done, so instead of canceling, I planned on using my new avant credit card. Imagine how embarrassing it was when my card was declined, and I didn't cube prepared with another way to pay. After an hour of phone calls and trying to get a cash advance which will send up costing me more, I finally ended up having my husband call me with one of his credit card numbers to pay. It was finally determined that I couldn't use my card because the person I was paying uses the square app for her business. That revelation played with the fact that I can't add your card to my Google wallet mean that this card will probably never be used. As soon as I can find another card to replace it, and before I pay any more fees, that's what I'll be canceling this one.

Review Title: Don't bother

Review Description: Don't bother. I tried to use my card to pay my licensed, bonded, and insured contractor who uses square to process invoices. Card declined. Called customer service and they told me square transactions are not supported. Plenty of retailers and businesses use square to process payments. I googled and found that lots of others have had issues with where they can use the card. Many reported its very limited. It's relatively easy to get someone on the phone after your card declines, so i guess thats a good thing but the support speech sounds very scripted and leads me to believe they receive these types of calls often. I wouldnt bother with this card. I wish i knew better before i accepted the offer. Probably going to close this account.

Review Description: Save yourself time and aggravation. My wallet was stolen and it has taken 3 mos with multiple tries to change my address and order a new card. These customer service people ask the same personal information over and over and over and over (just like this) to the point its sickening. Not only do they transfer you to another person it seems no one there is able to think or do any basic brain functions. Lord help you if you ever have to deal with them. Oh and btw they were supposed to charge me \$39 a year and now its \$59. So not worth it for a \$300 credit line with no opportunity to increase your limit. Review Title: \$2000 Limit Dropped to \$300 Overnight

Review Description: I had a \$2000 credit limit. Charged items totaling \$1400 and ALWAYS paid on time, never late, and the interest was close to 30%. Returned a couple of expensive items a couple of months after purchase totaling \$1100. Overnight my credit limit dropped to \$300!! They DID NOT send me an email or anything telling me this. I went to use the card and it was denied by the retailer. Looked at the app to see the limit dropped to \$300. Called and they gave no excuse, said I'd receive a letter. When the letter FINALLY arrived it said the reason for the decrease was "Credit Card Activity". Apparently, you can't get any refunds without them getting back at you. Since then I quit using the card and paid them off. I will never use that card again! They're not getting \$1 interest from me ever again! Avant = Horrible Credit Card! Don't get one.

Review Title: I would not recommend this company

Review Description: I wrote a review on August 5th about my experience with Avant. They replied saying how sorry they were and asked me to call them because they wanted a chance to make things right. I called them and the rep that answered the line had no knowledge of any reply they had sent to me and went further on to say to just disregard the response, because they don't really intend for people to act on the responses when they reply to reviews left by customers, they just reply so it looks good for the company. I asked for a supervisor and of course, none was available. Again, I say this company is a SCAM. They have a lot of hidden and made up fees and never acknowledge their mistakes. They are liars and I would not encourage anyone to do business with them. I have also contacted the BBB and the news, so hopefully their unlawful practices will be brought to the light soon and the company will be shut down.

Review Title: Advertised "no hard inquiry"...

Review Description: Advertised "no hard inquiry" pre-approval was not. Follow-up review based on creditor's reply: The stated order of events clearly did not transpire as the creditor portrays. The fine line between soft and hard credit report inquiries was not obvious nor clear. Had I been offered this option I would have been aware of it. Curiously enough, I was directed to Avant through Credit Karma and the follow-up emails from CK indicated they were unaware that my 'pre-approval' application was ever completed. There was a disconnect as to whether I had ever initiated an application let alone completed one. I stand by my original review and believe Avant is aware of the cloudiness of their 'pre-approval' process. It's a shame they feel they need to resort to this type of marketing in order to attract new clients.

Review Title: I set up a payment plan with Avant to...

Review Description: I set up a payment plan with Avant to catch up on my payments as I have health issues. The plan was selected by the Avant customer service rep. They told me this was what I would have to pay and I would be caught up which I agreed to. I was told my card would stay open and in good standing as well. They also told me there would be interest charges but was not advised that I would also be charged late fees. I was charged for late fees in June, July and August because it was considered late and I didn't pay enough to cover the past due. How is that when the customer service rep was the one who told me what payment plan would catch me up? I tried calling to get the late fees waived as it was \$39/month. The customer service rep was rude and tried yelling at me, was cutting me off and put me on hold for more than 5 mins at a time. Nothing got resolved. I was told they would "file" a claim for me to get the late fee "refunded" if approved and today I received an email that it was denied. This is definitely unlawful practice and as I mentioned I was never once warned about late fees. The dates the payments were automatically withdrawn were the dates an Avant rep picked for me stating it would help me get caught up. I asked to speak to a manager and not one manager came on the phone. I'd like to speak to someone who can assist and is professional enough to get these late fees cleared up.

Review Title: Reported balance on first statement

Review Description: I don't appreciate you reporting that I've used more than half of my credit limit to the credit bureau when I haven't even been given a due date and time to pay. I don't carry balances, the money I used was in my checking account, therefore I could have used my bank account to pay for the services, that I used the card for. I used the card, because that's what it's for. Normally banks report your unpaid balances after both the due date and next statement when you've paid your balance, not the very first statement. If I haven't been given a due date, how can I even pay it when. You made it seem to credit bureaus I carry a balance, and I don't. This lowered my score 12 points!!! Moral of the story wait til your first statement comes out, and you have a due date, before you use this card for any purchases.

Review Title: THEY CHARGE INTEREST UP FRONT - NO WAY OUT OF IT

Review Description: Make sure to read the fine print. They charge the interest all up front and there's no way to get out of it. They will not answer questions about this over email, they will tell you that you can pay early to avoid interest but that's not true. You will still be responsible for it. If you want to get a direct answer you have to call and I spoke to someone super rude. Do not get a loan through them.

Review Description: Just got this card about a month ago; so far so good! Started with a \$3000 credit limit; and to date, it has been extremely easy to make payments using the app; and have had absolutely no issues when using the card! I read most of the reviews very thoroughly before deciding on this card, and some were great reviews like this one I'm leaving, while others were not so great reviews with the mentions of nightmare experiences. But again, as for me, my experience, I thus far has been great, and it is regarded as one of my most value cards! But will definitely keep trustpilot informed should anything change! Thanks again AVANT!

Review Title: This is by far the worst company to do...

Review Description: This is by far the worst company to do business with. Be warned that if you do you will have no end to fees even when you pay in full . They call it trailing interest fees! Then you have to talk to someone who is a racist and hates american people real nice ■. They lie about you paying you paying your balance in full. They complained that they don't take responsibility for their employees mistakes and they have to get approval just to remove a fee that they made the mistake of doing. I have paid in full owes training fees and they just accumulate ans this company doesn't get that it's the principle not the amount of money which was very insignificant. Thank you very much. I will never recommend a company like yours for anyone not even my worse enemy! Mastercard, capital one all the way . No racism and dilemmas and very friendly plus I don't work for them and get commission just my experience;) . Hope this will help anyone out in the future

Review Title: I still haven't received my refund for overpayment to Avant...

Review Description: This was the second loan I have taken from Avant. The second time was much better than the first time because Avant had made a couple of key changes that made repayment easier. My problem with Avant is that I overpaid my loan by \$325 when I paid the loan off and I still have not received my refund two weeks later. They told me it could take up to three weeks to have the overpayment deposited into my account. I have a hard time believing this when they make deposits daily. UPDATE!!!!!! I did receive an email today from Avant. It was the same thing they have been telling me that I will receive my refund in 2 - 3 weeks. They really should pay what they owe in a reasonable amount of time. You sure can't pay them late.

Review Title: So far, so good!

Review Description: So far so good. While the rate and cost of this card is high, it is driven towards challenged credit situations with the ability to raise your credit score. Simple and straightforward app allows you to see your transactions and pay your bill quickly. If you have to speak with people, they are polite and knowledgeable about this card. If you need this type of credit card, I feel this a better option for you than most credit cards going after the same target market.

Review Title: Garbage customer service

Review Description: I have a basic credit card with Avant. I have a charge that I am currently in the process of disputing as possible fraudulent. I called and spoke to Tom in the fraud department on the 18th of June as was told someone would be in touch during the upcoming week to discuss the charge and start the process of investigating and a refund. We it is now Monday the of the week after I was to be called and still haven't be contacted. I just called again and got customer service who 100% refused to transfer me to the fraud department because no one has yet been assigned my case. So if you are looking for customer service if needed this is definitely not the company for you. I now have to sit here and wait for them to contact me about my fraudulent charge without the option or ability to even ask a question to the department that hopefully will be handling this unfortunate situation!!!!

As I stated before WORST COMPANY EVER! This is the WORST COMPANY EVER!!!! We made one charge on the account & we didn't get our merchandise. So we disputed the charge. This was 12/2021! Still nothing! Every month we would call & explain everything over & over. No one calls back, no response to emails & so on. I don't know how the Federal agencies haven't fined them or gave them a violation for this. So as I said WORST CO EVER!!!

Review Title: Customer Service is a Nightmare

Review Description: I was pre-approved for a loan and lady who helped me with my application over the phone was very kind walking me through it. She stated that decisions on pre-approved accounts are instant but it would take at most 24 hours. I am now on day 5 of trying to get this "pre-approved" loan done but they keep making me go through hurdles. I presented all bank states, pay stubs, offer letter, and they pulled my credit with a hard inquiry. But they still can't decide if I should have it so I should talk to the IRS about my income being tracked for 2023. This isn't possible by the way but they insisted that I call the IRS now for prove me wrong. Well it's a holiday weekend so no one is available until Tuesday. They proceeded to state that I won't have a decision then until next Friday at the earliest and berated me on the phone about not knowing how this works. Ridiculous waste of a hard credit hit for a loan I cancelled due to their bait & switch tactics.

You wanted her info name, birthday etc so I was unable to make the payment. I couldn't remember the year she was born. I did not understand why after verifying my identity you couldn't take a payment from me. My niece is not a co owner on my accounts.

Review Title: Terrible website and support that only gives canned responses.

Review Description: Terrible website design. Terrible support. Can't verify on a PC without using a webcam (which not everyone has). Can't verify using mobile Chrome. After you do verify, their system will send you an email ~18 hours later reminding you to verify - but when you click the link, it says that you're all set. When you contact support, they won't read your ticket and will just throw a canned response at you that likely doesn't have anything to do with your question.

Review Title: Trustworthy and Helpful From Start To Finish

Review Description: I felt so comfortable using Avant for my financial needs. Everything was made easy. All fees were presented upfront and the fact that I could choose a repayment plan that best suited me, and not Avant, was especially great. I used a debt consolidation loan that has not only improved my credit score, but will also allow me to save money by being able to pay off credit cards that had varying interest rates. This means that my loan from Avant will be paid off quicker than balances on my individual credit cards. Definitely recommend!

Review Description: The reviews said it was easy to get a loan only a couple days. Mine was a little more difficult. I'm on disability and widow's, I get payed twice a month. I was on the phone for over an hour two times trying to explain my income. The last person I spoke with. I had to go over my benefits with her. I had to read it to her and tell her what page it was on. They want your last bank statement, all the pages even if there blank. Even tho it took me a week everyone was very nice. If they tell you they have everything they need just check back with them to make sure. I'm happy I recived the loan, I payed my car off and a couple credit cards an now I have one manageable payment. Thank you Avant

I've used it successfully for a purchase, haven't tried the payment system yet, and they're already begging me to review their service. Maybe wait until a customer's been with you for a few months before asking for general feedback, since any problem showing up faster than that is the purview of customer service, not "yelp." Probably just a scam to force me to make a Trustpilot account, and sell my data.

Review Description: I applied for this card to help build my credit. I have no late payments and always pay my bills before the due date. I was approved for a 3k limit with a credit score of 624 at the time. Good rule of thumb; keep your spending under 30% of your limit, pay off all balances monthly. So far, I'm thrilled with Avant and can't wait to see how we grow together as I continue to build my credit towards excellence. Thanks, Avant LLC.

Review Title: My Quick & Easy Avant Story

Review Description: The entire process from start to finish was super easy and fast! After logging onto the site, I answered a few questions and gave a couple of employment details. In less than 2 minutes, I received multiple financing & monthly payment options from 3-5 companies. Once I selected Avant, I answered a few more questions and was immediately approved for my loan! The money was deposited into my account 2-3 days later.

Review Title: Avant is a straight up company

Review Description: Avant is a straight up company. I got an alert from credit karma saying I qualified for a personal loan at low interest and I acted on it. I really didn't think too much about it when I submitted my ridiculously simple application on their app... didn't think something so simple would work...I mean...this is a \$10,000 unsecured loan we're talking about, but surprisingly the money was in my bank 2 days later...they said 3 days but I got it in 2. All my credit cards are all high interest so I just paid them off with this small loan at 16.99%. My monthly credit card expense was cut by half and my credit score shot right up!! Seriously...you can't beat it with a stick.

Review Title: Tried to get a Loan and was treated like a BUM

Review Description: If I could I would've given this Company NO STARS! I applied for a 2000.00 loan through Avant because it was the 1st options out of 3 on Credit Karma with my credit score being Trans 698 and Equ 700 and Exp 689. EVERY!! document that was required was sent in with the help of 1 of the C.Service Rep.. at the end of the day I was told There was NOTHING else needed from me. But check with my Dash board from time to time just in case. I did that. Nothing was asked if me to submit.I would be notify within 24hrs a decision of Approval or denied. Well i had confidence that I would get approved being Credit Karma BASED these Loan Agencies by my Credit score. Well I called the next day for a follow up and spoke to a Khaleel and by the way she spoke to me I KNEW she had it out for me. I hate to say it but I was treated like she didn't like the color of my skin. So yes you guessed it I was unfortunately not able to receive the funds lol. So you mean to tell me I can get a card through APPLE.. a Bank that's great but denied through Avant and their bank of choice. WOW! it said that I have 60 days to submit a form asking what was the decision made to Why I was denied. Yes I WANT THAT FORM. I just want to see what was the reason why I was denied. Be careful with this company.AND Credit Karma at this point I think they are running some kind of scam to get ppls information. Glad I pay the extra fraud cost on all my credits cause ppl like AVANT just CAN NOT BE TRUSTED!

Review Title: Avant is a fraud

Review Description: Received a letter that my loan was not approved. I never applied for a loan. I called and ask how did they get my information. They said I have to talk to the fraud dept. emailed the so called fraud dept everything. Got absolutely nothing back. What a fraud they are. There is no fraud dept. nothing but a scam this company is. Freely using my information without my consent. There should be a class action lawsuit against this company for being a fraud and scammer.

What I will say is that both times we applied for the loans getting the documentation to them seemed to be an issue. I would send the documents and get a call the next day about one thing or another being wrong (usually they said they couldn't read the document). Once they could make everything out it was an quick and easy process.

Review Title: Stay far AWAY

Review Description: Out of about 10 credit cards and store cards this card it by far the WORST! If I could leave zero stars I would, let's star with costumer service, it is the absolute worst they refuse to make sense out of anything they do and refuse to make it right and will literally laugh on the phone. I had available credit that was disappearing without any transactions showing or pending. There payment cut off time is absolutely ridiculous and they will not except payments on the due date they will make you pay the next day just so they can charge a late fee. This is by far the worst card that I have ever had, the WORST company I have ever had to deal with! RUN

Review Description: This company are scammers. On March 30 I made a payment for my April account. These scammers still went into my account to take a payment that was already paid. I gave them a call to refund my money back. They sent me a email saying my refund is not approved and didn't give no reason as to why they refusing to give my money back. Anyone that wants to do business with these crooks please do your due diligence and research for something better. They don't care because if they did they would of gave me my money or a explanation why. I will never do business with these people again.

Review Title: Disasters experience

Review Description: Disasters experience, here I will speak the good and the bad , Initially applied got approved (quick and easy application) Initial credit limit at start was 1K, 2-3 months in of using them they lower my credit limit to \$750 without a reason , I didn't complain just kept using it , 2 month further in they they raised me to back to 1k with no notice , after 7-8 months of being with Avant and never missing a payment , I Decided to ask them for a raise and they declined me and the reason they gave was "Recent limit changes" which is quite pathetic. After this point I called Avant customer service i paid my balance in full and requested my account to be closed (here comes the funny part) they Accept my payment in (Full) and after they Cleared the payment , they then proceed to ask me what's the reason I'm closing the account and after I gave them the reason they didn't even make an attempt to waive my annual fee for me to stay, which I wasn't going to but this speaks highly of this company Further more they overcharged me in the process of closing my account and now i must wait 2-3 weeks for their mistake . This company served me as a gateway for a better card American Express last time you will ever hear from me.

Review Description: Called to get a letter of current balance to apply for a mortgage loan. My mortgage lender stated I just needed to make a small payment to the acct., not pay to \$0. Fun fact about AVANT the will refuse to send the letter unless it's paid down to \$0. The minute I pay this to \$0 I am canceling this card! That is ridiculous to not be able to obtain that all other credit cards provide that with no issue. I kept my composure the entire call and stated how I felt that was not professional and not being handled properly and was told " I will not continue this call with your negative feed back"

Review Title: I would have given a full 5 stars but...

Review Description: I would have given a full 5 stars, but the process for approving my loan took much longer than it should have in my opinion, mainly caused by repetitious steps and a bit of a language barrier! I was asked the same set of questions, and answered the same set of questions three different times over about a week long period! And after each set of questions I was asked, I was led to believe that my funds would be deposited into my bank account either later that day, or by the next day. It happened 3 different times and I was told to expect funds at least by the next day, three different times! It was like starting over each time I called, checking to see what the holdup was? The customer service team was very pleasant, but there was unnecessary aggravation there as well, due to very thick accents from an off-shore customer service team! As I said before, they were very nice, but they are trained to repeat literally every word that a customer says to them, after each sentence. It's so annoying and makes communication take twice as long, which is an unnecessary waste of time & causes much aggravation! I actually started thinking that they had lost my original loan application or something because I had to verbally reapply every time I called. I almost canceled and went with another bank because of this, but the last time I called, they assured me that I'd be receiving funds by the next morning, which I did, so no harm done. However there was definitely more aggravation than there had to be. I received a fair rate (for 2023) on my unsecured bill consolidation loan considering the interest rates and market conditions of today! Which is of course insanely high, but it is what it is in 2023.

Review Title: This company is the worst

Review Description: This company is the worst. I had a deposit account with them, which no longer exists. When the bank closed so did my checking account. Prior to the bank closing, I reported a charge to my account that was over a thousand dollars that were not made by me. The bank investigated and closed the case stating they thought I made the charge. I contact the establishment this charge was made and they agreed that since the charge was clearly not made by me that they would like to return the money but would have needed to return it to the account that was used, which was this now closed account. A week later I received an email from Avant stating that they received the money and would be sending me a check in the mail. This was 3 months ago. I call weekly and am told that they don't have a partnership with some other bank and cant send me a check until they have one. I can't believe this! After never even investigating charges I dispute, they are now holding my money. Is this even legal? I am having a hard time paying for my insulin and this bank has over a thousand dollars of my money. How is this possible?

Review Description: One of the worse cards I've ever had. Then after I pay it in full (over \$1700) and close the account they add on an additional fee (almost a week later) that they refuse to remove even though my card is closed. I've had other cards do that before, but a simple phone call and they realize the problem and remove it. Not this company! So beware even if you pay off your account and close it they will find a way to still charge you for another month.

Review Description: BEWARE! Applied through CREDIT KARMA and was approved for a \$2000.00 credit limit on Feb 22, 2023. (Added this date because my 'date of experience' keeps changing on this review) After they got my verified phone number and all of my PERSONAL INFORMATION, I could not get them to send me my verification code to complete my application through email. I got a voice mail from them once and STILL cannot get them to send me a code to finish my application. I got a conformation email from them for applying so I know they have the right email. VERY SUSPICIOUS! Be careful.

Review Title: I had the AVANT card

Review Description: I had the AVANT card. They "made a mistake" (they later said) and halved my credit limit so I closed my account. The next month I sent them the entire balance owed. The next month I get a bill for \$3.63 for interest on the balance because they do daily balance to charge interest and there was 11 days between the beginning of the new cycle and when they received payment. They refused to wave it and I told them that was petty after sending them almost \$400 the previous month and that I refuse to pay. The next month they send me a bill for the interest and then a late fee. I just started getting back to fair credit again after a similar fight with BLAZE (which I reviewed here) and they're trashing my score over \$7. This company is petty and charges interest even after the account is closed. They could have waved the interest and; thus, not charge me a late fee but they want to ruin people over chump change.

Review Title: The customer service was horrible

Review Description: The customer service was horrible! All I needed was a new card sent out because I never received the previous one and I kept being placed on hold and was transferred to a new representative more than once who would then ask me the same questions before my call was disconnected when I was being transferred again. They also gave me a hard time about requesting a new card because it had been 27 days since they sent out a previous card and not 30 and said that I could possibly still receive the card. I told them NO! Just send me a new card! It took 6 people to finally get a new card sent out to me! RIDICULOUS!

Review Title: This company is an absolute joke

Review Description: This company is an absolute joke. False advertising at its finest and probably the worst customer service I've ever experienced. I'm not sure why every worker barely speaks any English and literally reads off the exact same script word for word instead of giving an actual educated answer or doing SOMETHING to help the customer. "Qualify same day and get financed within 1-3 business days". It's been 5 and my application has still not been processed despite contacting over FIVE customer service Agents. Each reading some scripted response instead of actually doing their job. Was told repeatedly "we don't need anything further" "your application is still being looked over"- yet getting daily emails asking for the SAME documents to be sent over and over again. Not only does this company lie and advertise falsely- they're full of incompetent employees as well. You'd think I was trying to get the money from each representatives pay check the way they've basically have refused to help. I have never witness such a dysfunctional loan company! Wouldn't recommend using them if they were the only people that ever qualified you. HORRIBLE experience and still ongoing, still without reason, still without talking to someone with a brain, and STILL have yet to have a manager call me.

Company Name: Avant

Review Title: I would give ZERO stars if I could

Review Description: I would give ZERO stars if I could. What is the point of having this card if you can't use it? Every attempted transaction is deemed to be FRAUD, when it's not. On February 11, I tried to use this card at a place where I am a regular. I was publicly embarrassed to have it declined. So I used another card to pay my tab. The next day, I tried to use it at an online delivery app. Declined again. I got an email asking me to call to verify that I made the listed charges. I called, spent forever on hold, and the call got cut off. Called again and finally got the issue solved and my card unfrozen. I thought that was the end of it. Nope. On Monday, February 20, I tried to use it again with the same delivery app. Declined. Tried again at a different retailer to see if maybe the delivery app was the problem, but declined AGAIN. Now they want me to call AGAIN to fix it. I understand wanting to protect customers from fraud, but this is BEYOND RIDICULOUS. I have to waste hours calling you every time I want to use this card? No. Not gonna happen. Fix the system on your end, don't waste my time making me fix problems that were not my fault. I've been a good customer, always make my payments on time, I don't deserve to be treated like a criminal. And don't bother with your canned response telling me to call again. The answer is NO. How do I know that this won't be the end of it? You have issues on your end, fix it and maybe I will remain a customer. As it is now, i will pay this thing down and then it's good riddance. You can't treat honest customers this way and expect them to remain customers.

Review Title: Unauthorized changes to credit card...

Review Description: Unauthorized changes to credit card account I have had this Avant card for less than a year and without my knowledge or consent, they made the decision to raise the credit limit which 1) had an impact on my credit score and 2) made it appear as if I was shopping for additional credit WHICH I WAS NOT. When I called the company to inquire why I was never notified that the credit limit either was going to be increased or had been increased, the first customer "service" representative could only read some scripted answer which did not address the question. Then he transferred me to a RUDE and CONDESCENDING "supervisor" who read the same script and hung up on me. I am paying off the \$280 I owe these people and never using this card again. They are horrible people to do business with. Response to AVANT response: You didn't bother to even read the review. The unauthorized CHANGE (not CHARGE - pay attention) was made to the account with notification either before it took place or after. I found out from a credit bureau. Nowhere in my review did I mention fraud. Nowhere. READ THE ACTUAL REVIEW BEFORE RESPONDING.

Review Title: intentionally put on hold to miss payment time deadline

Review Description: Put me on hold intentionally putting me past the 5pm deadline. Customer svc. refused to say if they would or would not charge me a fee. Customer service also refused to say if they would or would not damage my credit. They cared very little even if I closed my account in concern for their lack of clarity. Then they couldn't give me a final payoff to close the account. I have never worked with a credit card company that cared so little for their clients or if you even remained a customer. There only Comment was they refused to reopen my account, but I don't want to work with a company that has zero regard for their clients.

Review Title: Money was deposited quickly

Review Description: Reply to Avant : i am sorry as well but i was given a 7.5 % and by email avant said to accept the new interest rate of 26% AFTER Avant done hit my credit report with the 7.5%. Not right to give one interest rate after a credit review then have a much much higher rate before the money was released. Just saying if it happens to anyone else I'd like to know about it. Money was deposited quickly, and approval was smooth. After my credit file review I was offered a low rate in the beginning which was the major factor in my decision to take the offer. Once Avant proceeded they stated they was unable to give me the lower rate, that they would offer me a higher interest with apologies. Well they done hit my credit with the first offer so I took what they offered in hopes to move the loan soon.

Review Title: Not trusted. Don't give your personal info

Review Description: I wouldn't recommend this company. I applied for a small loan, and during my application process, I uploaded all requested documents the same day on the portal. After uploading the documents, I received a green boxing stating "completed". Everyday after I would either receive an email that said "please call AVANT" or upload a document in which I had already upload. This went on for 6 days, each day I would call and speak to different representatives, informing them all that I had completed those task. They would confirm with me that was accurate and told me "we will process your application and approval could can taken place within the same 24hrs." This was my same scenario every day for 6 days. On day 7, I received an email stating that my application had expired and I would have to re-apply. In disbelief I contacted Avant and the representative pretty much read my email to me, before I could even speak to tell her why I was calling. I informed her I would like to know why they dropped they ball? Why did they send the same emails to me daily with task I had already completed. When I asked for a supervisor, I was told they were on the phone with someone else and the representative would schedule a call back for the supervisor to call me... That call back never happened. Please don't waste your time with this company, please don't give them your personal information and then receive a soft or hard pull on your credit. They acted as amateurs or a scamming company. I would've gave them zero stars if I could have.

Review Title: Run Away!

Review Description: Promised just a soft pull to see if I was qualified. Stated that it would be a quick process. Uploaded all the required documents and they stated that I was fine and needed no other info. The next day a rep called asking for the same info... this happened 4 more times over a span of two weeks. I then get an email asking to call in order for my app to be processed. I call and he asked for all of my tax documents, which was odd because there is no where to upload that information to the dashboard... it was not a requirement. With all that being said, I never got a chance to upload because immediately after they said my application expired and I would have to do it again. Waste of time and it hurt my credit.

With my less than stellar credit, I found myself turned down by a few places for what I considered a not very risky loan. Review Description: This company is very unprofessional and seems far from legit. I spoke to a representative and he told me that even after I closed my account I had over \$300 in late fees with interest. He then transferred me and then it kept hanging up, everytime I tried to get another representative. Don't ever use them. They have no sympathy for their mistakes.

Review Title: Avant is awesome!

Review Description: After filing for bankruptcy in 2018, I didn't think of taking out another loan. Avant accepted me and gave me a chance to perform. They have flexible terms. I picked three years at 21% finance charge. The process was quick and easy. Within a few days I received my funds. I will definitely do business with them again in the future!

Company Name: Avant

Review Title: Predators

Review Description: This company is not just shady, they are predatory. I closed an account with them in Aug/Sept of 2022 and paid my remaining balance at that time. It appeared everything was done professionally and without hassle. Fast forward to Jan 2023...I received an email telling me my statement was ready. I was confused, but checked it out. When I discovered a supposedly unpaid balance as well as two late fees and interest I was angry and disappointed. The 38 minute phonecall didn't resolve anything so now I must wait 48 hours for a supervisor to respond. I will keep posting updates here, but I am certain it will be challenging to get a fair resolution. AVANT is a horrific company that takes advantage of customers at every opportunity. I look forward to never doing business with them again. 1/9/23 no call from Avant and no, I will not call the number they posted on the cut/paste reply just to be left on hold indefinitely.

Review Title: This is a terrible card and these...

Review Description: This is a terrible card and these reviews only solidify my comment. They have no automated teller, you have to call and pay bill during their business hours which is not very accommodating, I paid all my bills but put this one aside to pay on their time causing me to forget to pay it. This month realizing what I did paid both months, I spoke to a person about taking the notice to the credit borough off he said no, why not ? My perfect payment on my cards for the last 7 years has been blemished but this card. I cut the card up and will never use it again after paid off. Don't get this card it a hassle to pay it, the service is terrible.

Review Title: Don't be tricked and they don't really care...

Review Description: I opened my card in July 2022 and like others was given a \$2k credit limit. I had an okay credit score of 650 and make \$130k a year and was doing great rebuilding my credit. This company arbitrarily decides it should lower my credit to \$750 from \$2k after a "review of my credit". I called and inquired and customer service they had no reason and that department who makes the decision can't take calls. Do you believe this?? I close my account right then and there. I had a \$427 balance on what was a \$2k credit line and now a \$750. My debt to loan ratio was killed. The next month my credit score drops to 602. This company screwed me over. Fast forward to 5 days before Christmas and I receive this email: _____ We recently advised you of a credit line decrease on your account that was based in whole or in part on a low behavior score. After reviewing your account and investigating our reasons for the decrease, we have determined that your credit line should not have been decreased. If you closed your account as a result of this matter, we cannot reopen your account. For any questions, please don't hesitate to contact us at 1-855-752-7012. Sincerely, Avant Card Team Avant branded credit products are issued by WebBank. 24/7 Customer Support Phone: 855-752-7012 _____ This company just admitted to screwing me over and said that since I decided to close my account because they screwed me over you can kiss off. Great business ethics and way to treat the customer. Beware of Avant and tread lightly

Review Title: Scam

Review Description: Scam, i applied through Credit Karma was preapproved and went through submitting documents. they requested another set of documents to verify my income and after two days my application "EXPIRED" saying that it was not reviewed in time. They ask me to reapply but then when i did they are giving me new terms, higher APR and higher interest rates and longer term to pay for the loan. they say that it will no do another credit pull on me but yeah. why can you offer the same terms that i choose initially. They are putting people in a situation that they dont have a choice but to bite on the higher APR and interest rates because of their ow fault of not reviewing the application in time which looks like intentional for the application to expire.

Review Title: STAY AWAY - THE WORST COMPANY EVER !

Review Description: I received a Credit card from Avant (WEBBANK) and had a \$3000 credit limit. I used the card 1 time and charged a whole \$30. I paid it off in full, then I was notified my Credit limit was dropped to \$300 for adverse actions on my account??? I called customer service - they were absolutely Useless - they could not help, so I cancelled my card. I just received an email letting me know that reducing my credit line was an error on their part, but since I cancelled my card with them, there is nothing they can do. It took them 2 months to figure out they screwed up ???? The worst experience I have ever had with a credit card company. They should never be allowed to deal with finances. I am sure they will respond and say " oh we are so sorry, please call customer service and we will help " - I can assure you, their customer service is 100% USELESS STAY FAR AWAY FROM THIS COMPANY. UPDATE. As I predicted, Avant responded with the same canned message they use here for everyone who has had a horrible experience. I also did call them back and guess what, they said they cannot help. This company is a joke

Review Title: Processing Timelines

Review Description: There is no streamlined process. The website states it could take 2-3 business days for the approval process, but that is just a blanket statement. I called the customer support line and felt as though I was a burden for asking a simple question. If I'm already outside of this window how much longer should I wait. That would help alleviate me calling at all. The customer dash board shows no changes which doesn't give me validation that my application is in any que. Maybe a number que would help with this issue. I understand it is the holidays and you may be working long hours, but don't make people feel as if they are not valued. We all have our burdens to bare.

Review Title: Great personal loan company

Review Description: Date of experience: December 13, 2022

Company Name: Avant

Review Title: Repeat customer

Review Description: I had a loan a few years ago from Avant and paid it off. When I was looking to consolidate my debt, I went to Avant first. I was concerned I wouldn't be approved because I recently transitioned to self employment after my company shut down. But there was no issue. I especially like that you can pay it off early without any penalty. To be honest, that is the biggest selling point for me.

Review Title: I was given \$1500 credit when I opened...

Review Description: I was given \$1500 credit when I opened my account. I made a hotel reservation for my group of \$1200, since everyone paid their share by next billing period, I paid it all at once. Next thing I know my credit has been slashed in half to \$750. Call customer service only to be told to wait for a letter in the mail. Letter explanation does not apply to me. Call customer service and they say they cannot help me. Poor service and a scam is what this cc is.

Review Title: Advant has been great for me to pay...

Review Description: Advant has been great for me to pay things off, house repairs, etc. without having to get in a credit consolidation. I had a score of 619 and was approved immediately and even was approved for more than I thought. I also had a choice pick how many months I wanted to pay the loan. I have used several times in the past 8 years and feel I can count on them! Your payment does come out of your account each month which is convenient not to worry about having to remember to make a payment!

Review Title: I would definitely recommend.....

Review Description: I applied online and was immediately told the amount I could get approved for. I also had the option of how I wanted to pay the loan back (12 months, 24, months, or 36 month). The process was easy and it took no time at all to complete the application. I had to answer a few questions, verify my identity and I was approved. The money was put in my checking account within 2 business days. I also like the fact that there is no penalty if you pay your loan off early. I would definitely recommend Avant!!!

Review Title: This company is the worst

Review Description: This company is the worst. I was prequalified for a personal loan up to \$12000. I have excellent credit score. Just trusted their pre-qualification offer and applied for that. Surprisingly, the loan was denied. They just wanted to put a hard inquiry on my account. Absolutely deceiving customers with their loan process.

Company Name: Avant

Review Title: Multiple issues

Review Description: I had this card for 2 years. I consolidated my debt and closed about 5 of my CC accounts. I called customer service to close my account and pay it in full. I asked the CS rep what the full balance was and if my payoff covered it. I was told yes I'm good and the account will be closed. 30 days later I get a 30 day late on my credit report. I call and they said oh we will push this up the chain to get it resolved. In 30 days I get a 60 day late. I call again and basically get it's not our problem you got charged for trailing interest. I reviewed the previous conversation with the manager and she says I'll open an investigation. We'll today I got a 90 day late and basically told they aren't going to do anything about it and it's my problem. I have not had any issues with the other 4 accounts I closed. They were paid in full, closed and done! RUN from this card. Avant is a terrible company to work with.

Review Title: Not a fast application process and a very negative experience!

Review Description: Not a fast application process, it took 10 days to get a rejection (after I told them I wanted an answer the next day or I was going with another company). I applied after a recommendation from Credit Karma. I supplied every document they asked for, some more than once. I carefully explained how each income worked, but everytime I called, I got a different agent and had to explain again. The company did not like that I had 2 different banks and one of my part time jobs paid in paper checks. I can't tell you how many times I was hung up on when I would call to check on my application. They would NOT accept the second job as a second income without being able to prove where I deposited the checks. My credit is fair but trending upward, every payment on time and remarks are all positive on my credit report. Isn't the point of applying for a consolidation personal loan to consider what the clients are trying to do...get out of debt with the least amount of interest charges and lowering your DTI?! Just say no, and go elsewhere.

Company Name: Avant

Review Title: Do not deal with this company!!

Review Description: Do not deal with this company!!! It is a trap! You pay your balance in full and then they charge you .10 on next statement (which was never received) and then when you get hit with a late charge and call to find out what it's for because you paid off in full plus closed account they inform you of the .10 charge. Now you pay balance again and they inform you there may still be money owed next month. How???

Company Name: Avant

Review Title: This company gave me a credit line of...

Review Description: This company gave me a credit line of 1500 and because I had to use up to 1000 they dropped my limit by 500 the following month..how did they know that I wouldn't have paid off the balance before they went ahead and lowered it ..they didn't give me a chance to do that ..why give me a certain amount to use and then drop me for using it you might have seen it all paid ..I don't suggest this card to anyone in fact I only had the card for 3 months ..they obviously don't give you a chance to show your credit worthiness..so when the limit drops I effected my total limit on my report..wow thanks ..I won't be using this card ever again now that I have paid it off.. be weary of how they drop your limit the first time that go a little high on your limit after all isn't that what a credit card is for..well maybe not with this company.. garbage of a company!!!

Review Title: Highly Recommend

Review Description: Customer service was wonderful. The loan application was easy and funds were deposited in my bank account the next day. My own bank refused me a loan even though I had just paid off a \$4,000 loan after 4 years, never missing a payment. I will be paying less in monthly payments to Avant! If you have a need for this type of loan I thank God they are there just for that purpose. I highly recommend them!

Review Title: Trusted and my name is enough

Review Description: I found myself in need of a small personal loan and didn't have a lot of time to wait for long applications and paperwork. I do believe Avant screens applicants well and partners with reputable platforms like Credit Karma and I was so grateful that they approved my loan within one evening. I feel trusted and it makes a world of difference because that's all I needed; someone to trust that my name is worth giving me a chance to have a loan extended to me. Thank you.

Review Description: I have had 5 successful loans thru Avant and never missed a payment, even paying off 2 of them early. I have lately qualified and been given an offer. I accepted and provided all necessary documents only to be declined 2 times now. There is no loyalty with this company and there is no legible reasonable response from Customer service that has been outsourced outside the United States. Do not waste your time with this company.

Review Description: Avant- credit card ■ company is asking me if I committed fraud on my own credit card when I stop use and claimed fraud after visiting Las Vegas , Nevada. I just got done paying \$1500 towards my balance . ? This was kind of funny considering the fraudulent activity was less than couple hundred overall. Makes no sense rt? This company overall has no heart or any level of intelligence. Unfortunately the future is a bunch of robots. They wouldn't remove one late fee when I had Covid. They make it a priority to protect themselves over prioritizing customer service. This is just my experience with the company. They're rude and very unfriendly. Go with American Express ■

Review Title: Quick, Simple, and to the point

Review Description: I was scrolling thru Credit Karma, and they always send me ways to improve my credit, which I normally just ignore. Well, Avant.com stuck out to me with their low interest rates, and ease to get funded to consolodate my credit card debt. I easily applied for this loan late on a Sunday night, and had all the funds in my bank account on Tuesday morning! On top of that, there was NOT a loan origination fee. WOW! Plus, I Never had to go through the hassle of paystubs, past tax returns, samples of blood, (HAHA, JK!), and endless phone calls to get approved and funded. I would recommend AVANT to all my friends and family in the same need for a personal loan w/ decent rates.

Review Title: SCAM

Review Description: SCAM! FRAUD! I paid my account in full on 10/4/22. Payment Posted in my bank account 10/5/22. Avant received the payment and it posted, the account was closed down 10/6/22. Avant sent me an email confirming the account was closed down at my request. Without my knowledge! Avant did not close my account and on 10/17/22. Avant charged me \$11.06 in interest on a account that was closed down on 10/6/22 on a \$0 balance. Avant did not report my account closed until 10/20/22. Thinking this was an error! I contact Avant and had to deal with the most incompetent, uneducated, rude, lack of empathy, and disrespectful employees in my life! I got hung up on multiple times! The Supervisor Shaniece hung up on us was stand offish forgetting her ghetto attitude is not allowed at a place of business. My wife and I got hung up on multiple times by majority of the time! I was advise it will take the company 14 days to respond to my complaint and it will be by email. The payment is due in 8 days on account that shouldn't exist. This payment they want it not much but it's the principlally of them forcing and bullying me into paying, I believe because I closed my account. The reason I closed my account is because i felt the company was the weakest link amongst all my credit cards and before this i had 3 other horrible interactions which lead to me closing my account, the right way, paying my balance in full. I would highly recommend using another company for your financial needs. They claim all these calls are recorded so they can pull up them to confirm everything I've mentioned here! Update: 11/15/2022 Avants response is an automated response! If Avant checked their records! They'd see i already did that multiple times and got a bullsh!t response supporting their decision. Their response below is to satisfy the person reading the review to assume Avant is on top of their customer complaints. They did nothing and told me they will do nothing! I was forced to pay their fraud charges or it would impact my credit score and my "never missed a payment". Do business with someone else to avoid my situation.

Review Title: 3/4 Stars

Review Description: Avant has an easy, user-friendly application process and I received a response within minutes of completing the application. Still, I would recommend Avant to a friend.

Review Title: Credit line decreased without notification

Review Description: I have auto-pay and keep up to date with my payments. I had a credit line decrease unexpectedly. I searched for an email for the notification and found nothing. I then called customer service and asked them what happened and they said they did not have that information. I'm not waiting for a letter to be mailed to tell me why my credit line was decreased. Also embarrassing thinking I have credit to pay for something and not being able to because of this failure to communicate. I'm paying my bill and looking elsewhere for a credit card. In reply to Avant... You didn't address the issue here. The point is my credit limit was decreased unknowingly without an email or phone call. On top of that your customer service was not able to give me an answer as to why. I have a good credit score and nothing had changed on my end as far as on-time payments yet you were unable to provide me with that critical information.

Review Title: AVOID AT ALL COSTS

Review Description: Where do I start? I had a \$0 balance at the end of October because I paid in full. My statement cut on November 1 and shows I have an interest charge of \$6.08 cents on a statement close balance of \$0. How do you charge interest on \$0 balance??? To make matters worse, they also reduced my credit limit what they call "behavior score too low". I have a 701 TU FICO, 688 EXP, and 690 Equifax. Several other credit cards have raised my limit in the last month alone. I paid off in full and closed the account as of today. STAY AWAY from this card and WebBank in general.

Company Name: Avant

Review Title: Shady business

Review Description: As I was in the process of trying to leave a review the very first one I saw was my exact same experience. This is the shadiest credit company EVER. They set me up with a \$3000 limit in August and because I don't use the account often I received a letter stating that my limit was dropped to \$300. The only reason why I got it was for my total available credit to increase. I am below 20% but wanted it lower since I am trying to buy a house. They also pulled my credit again without my permission. I closed my account and will be filing a complaint with the Better Business Bureau. Save your time and don't apply with them.

Company Name: Avant

Review Title: Don't have time for credit card games like this

Review Description: Reduced my credit limit for what they call "frequency of overlimit activity". Never went over my limit with this card or any others that I have. In fact, other credit cards raise my limit periodically. Tried emailing with no response. No one can tell you anything on the phone. I paid off in full and closed the account. Avant is not just one bank (web bank) but a group of lenders. I would stay away from this card or any other card associated with "web bank" in the future.

Company Name: Avant

Review Title: Pretty dirty to collect down payment then reduce limit for no reason

Review Description: I've had this card since August 2022. Was approved for \$3000. Yesterday I logged in to find I've been reduced to \$300. I find this amount basically useless. I have emailed customer support and haven't heard anything. They collected my down payment and reduced the credit limit with no notice and absolutely no reason. I haven't even had time to use the card. I will be closing this account because it wasn't worth the down payment to be reduced to \$300 from \$3000.

Review Title: Stay Away From Avant

Review Description: Stay Away From Avant. I was a avant card holder with a 3k credit limit, never used near the limit, paid the bill in full early and with no notice I seen online my credit limit was reduced to \$300, after confirming with customer service it was not an error I asked why and was told there was no reason but that they can do this, so I decided to close the account and the rep actually asked me why I was closing the account, my reply was I don't need a reason just as you didn't need a reason to cut my limit. Evidently this is common business for this company as I have read several reviews from people that had the same thing happen to them recently.

Review Description: I have had an Avant credit card for seven years. In that time, they have never increased my credit limit from the \$300 initial limit I received when I got the card even though I have never missed a payment and have always paid more than the minimum. In the meantime, I have received other cards from much larger companies with better reputations who have given much higher credit limits (after an initial lower limit) which I maintain and pay each month without issue! Don't bother with this high interest card that does nothing for you in the long run!! Mine will be cancelled as soon as it is paid off! (Which is not long from now.)

I have had to hire an attorney because shelbi from fraud department refuses to call me back after 18 messages I've left. Hopefully when they find out they are being sued because of her she is fired. Review Title: Absolutely horrible

Review Description: Absolutely horrible. I had a \$3000 line. My balance was high, right around 2800. I've made all my payments on time, and then a few days ago I went ahead and paid it off so we'd have credit for our upcoming wedding as well as to increase my score because im getting ready to buy a house. I logged in today and not only did they take my 2800 payment, they immediately decreased my line to 300. I sold a beloved family possession to pay this off and now I'm heartbroken that I seemed to have done it for no reason. They refuse to tell me why and only said "you'll receive a letter". Absolutely terrible that they can do this on a whim, especially to customers who never miss payments. This will end up decreasing my credit score to a point that I'll not be eligible for my home loan now and we are likely going to end up in the streets soon. I'll be immediately closing this account. DO NOT GET THIS CARD!

Review Title: Fraudulent and misleading

Review Description: I opened up a card account with Avant and started with a \$1,500 credit limit. I used it for travel and car rental. My last trip I used \$1,400 of my available credit and when I returned home I paid the balance in full before the statement period ended. As, I was preparing for my most recent trip. I attempted to use my card to reserve a car and that's when I learned my available credit had been decreased to \$300 with no notice or justification. I've NEVER been late or missed a payment. So, there was no reason for the decrease or the embarrassment that I was put through. I see from other comments, this is a normal practice of AVANT. This company is a fraud and misleading when having you apply. DO NOT APPLY for a card with them. When they do this it DIRECTLY IMPACTS your credit negatively!!! I'll certainly close my account and stop doing business with this unethical company. I'll also contact the BBB and the states Attorney Generals office. I encourage those with similar experiences to do the same.

Disappointed Avant No thank you I'm not about to get ran around from your customer service and that's automatic reply that you use like you really care fool me once not again there is no Resolution you know it so do I you wouldn't have done it first place. Review Description: They started me off with \$1,500 credit limit. I have always paid my bill early. I went to make a purchase and it got declined. I looked at my account and they lowered my limit substantially. No one ever told me anything. Then I call "customer service" after 10 minutes on phone the guy said he couldn't help me and for me to email customer service. I emailed customer service and they told me by their records it was handled over the phone. No communication at all!!! I am paying off my account and closing it. They are horrible. They want me to call or email to resolve this issue. I tried that originally and got no where. They do NOT communicate with people. The phone people say one thing and the email say something completely different. Waste of time

Review Title: CUT CREDIT LINE FOR NO REASON!

Review Description: I paid my balance with the anticipation of using my card at the Hotel for my vacation to Europe this week. WITHOUT NOTICE MY CREDIT LINE WAS CUT TO \$500!! When I called customer service they said I was going to get a letter in 7-10 days, well, I'm going away in 3 days and with no credit card to use for the Hotel check in, I'll be staying on the street!! THEY TOOK MY VACATION MONEY! I HAVE NEVER BEEN LATE AND INSTEAD OF REWARDING A GOOD PAYING CUSTOMER THEY CUT MY CREDIT LINE. I have called twice and written emails with NO response so I decided to write this review at 3AM since I can't sleep worried about how am I going to afford my trip..the \$1200 airfare is non refundable!! I would have never paid this card so much, I should have just given them the \$30 minimum due. NOW WHAT AVANT?? THANK YOU FOR TAKING MY MONEY! ***AVANT STANDARD RESPONSE TO MY REVIEW WAS SENT TODAY MAKING THEM SEEM LIKE THEY CARE! THEY DONT! THAT PHONE NUMBER AND RESPONSE IS NOT VALID.. THEY CANNOT PROVIDE ANY INFORMATION, THEY CANNOT HELP AND THEY SUGGESTED I SUBMIT A REQUEST FOR A CREDIT LINE INCREASE!!! REALLY? THEY JUST CUT MY LINE... NOW I'M GOING TO APPLY SO THAT THEY COULD DING MY CREDIT!! STILL WAITING FOR A **REAL** ANSWER

Review Title: A company with no values

Review Description: I initially never had a problem. I had a 1500 credit limit. I ALWAYS paid my balance in time, either in full or over half, every month. Yesterday I logged on to make a payment only to discover they had dropped my credit limit from 1500 to 300. That is INSANE. If anything I should have been given an increase for ALWAYS using my credit responsibly and NEVER being late. They've actually just hurt my credit with their actions. Pretty sad to do that to someone who has been a responsible user and never been late in payments. I closed my account which is also going to hurt my credit, but I guess it's better than being involved with a company that has no values. Good riddance.

Don't know what I'm talking about they did not refund my payment. Also when I make a payment on auto bill pay it takes them 3 week to post payment and try to charge late payment fee. Tried to talk to a supervisor told no and hung up on me. There web page advertisement personalized service. Beware

Review Title: Horrible Experience, Stay Away!

Review Description: I would give negative stars if I could. This card has TERRIBLE customer service. They sent an email offering help to those of us hit by Hurricane Ian, in the form of no late fees. I called to confirm this and ask to skip the payment for October, to which the agent said I could. I skip the payment and am immediately inundated with late payment emails. I call again and the first person I spoke to told me I hadn't made my August payment and that was why I was getting the emails. I made two payments in July, one on the first for July and one on the 29th for August. Then, when I got a supervisor on the phone, he told me my September AND October payments were late and I told him I was looking at my statements and September was paid on the 3rd. He refused to uphold what the agent that had told me about being able to skip the payment. Thanks for not assessing late fees, but no thanks for the late payment mark on my credit score. I will pay this garbage card off as soon as I can and get rid of it. Stay away from Avant!!

Review Title: One of the worst credit card companies...

Review Description: One of the worst credit card companies yet. Made a very big mistake by applying for this card just know that in a time of need or natural disaster they will not help you as they will tell you that it goes against company policy to help you out with any late fees as such Due to not being able to pay credit card payment. For example, I work outside I live in South Florida, and was affected by hurricane Ian due to the amount of rain that it left behind. I asked for a late fee waiver due to me, not being able to work because of all the rain and it was denied due to company policy , not due to being a committed customer. Very bad company. I understand that most people will write good reviews, but it's only because they were not faced with certain situations as others, like myself. I asked to speak with a supervisor in which they can only repeat what the associate would say naturally. The supervisors are no help. They're just there to repeat policy "" they also did not leave a reference number for me so they can reply to me directly, they do not care about their customers they care only for the money, which I believe is a robbery.

Review Title: Wrongfully holds funds when payment is made on time.

Review Description: Blocked me from using my funds on 9/26 because of a payment due on 9/25.... Get this, which I paid on the 25th on time. First, I've never had a company block funds because of a late payment by a day, but the facts are that payment was made on time and not late. They can see it in their system as pending and won't unblock until it posts, which we all know takes a couple of business days. So the majority of their customers would have to be having their funds blocked for payments they make on time, on their due date, while their payments are in pending. I even explained I'm visiting my dying dad in ICU and needed a hotel and they refused to do anything even though they can see my payment was made on time. Then, I was told that my payment would go through at the end of the day 9/26 and unblocked for 9/27. I called back 9/27 and it's still blocked, with the agent telling me it's still in pending even though I can see payment posted with a thank you note. I will never ever use this company again and am paying it off and recommend no one else use them. This policy of theirs was not in the terms and conditions when applying for credit. Edit to reply to Avant's reply: Why would I waste more time calling you when I've called three times and even spoke to a supervisor? My dad is dying, I don't need to waste my time with a company like you who didn't try to make it right several times.

Review Title: Avant is shutting down all accounts on 11/30/22

Review Description: Edit 9/30/22 - Avant announced via email that all Avant deposit accounts would be closed by 11/30/22 due to their partnership with Evolve B&T; ending. Avant launched their deposit account product in December of 2021, so this product will have existed for less than a year by the time it shuts down. So much for helping underserved people huh? Shutting their bank account down after 9 months. I will leave the rest of my original review untouched, but this review was written before the shutdown notice was released to any individual customer. Avant sucks. Never forget that. I would never ever recommend Avant bank to anyone. Not in a million years. First off, they trick you into opening an account. Like many of you, I was looking for a credit card for those with low credit scores looking to rebuild their credit. I came across the Avant card and applied for it. After applying, I wasn't actually told if I was approved or not, I was just told "thanks for applying. We have something else that might help you." I actually didn't realize this was for a checking account, but wanting the credit card I continued. Then I see I was denied the credit card. So what the heck did I just open? A checking account. Cool, so now I'm stuck with this checking account I don't really want, but if there's a chance they can help me achieve a healthier financial life, I thought why not. Moved all my money over, all my bill payments, all my direct deposit, and closed my old checking account. Avant was my future for banking, I guess. That was just over 2 months ago. Now, about 9 total weeks after opening the account, I've closed my Avant checking account and want to warn everyone who might read this to stay the heck away from them. Continuing with their flaws, this is an anemic checking account. I haven't been able to confirm whether or not they actually use Chexsystems, but I would assume they don't; in that case, there's literally no reason to open this account unless for some reason you're not able to open one with Chime or SoFi, two other non-Chexsystems fintech companies that offer completely free feature-rich checking AND savings accounts. Avant deposit accounts are checking-only (no savings account offering whatsoever) with no APY, no Zelle, no checks, no check deposit (mobile or physical), no cash deposit, no physical locations, no peer-2-peer payment system whatsoever, no dedicated bill pay, a really bad ATM system (not even AllPoint offering), and most importantly, really bad account limits. They also code transactions like Cash App and Apple Cash as "ATM withdrawals," which means that you can kiss goodbye any chance of using your Avant account to pay rent (since there are no checks either), as their ATM limits are hard-capped at \$310 unless you've been their customer for over a year. Next, let's talk about their support. It basically doesn't exist. They're a bank that uses a ticket-based customer support system, which should already be a red flag for most people. If it isn't, I should tell you now that despite this ticket-based support system, customer support will still go out of their way to waste your time. I was trying to close my account and was asked to give a reason why, as well as to confirm with the last 4 of my SSN and my DOB. I gave them the last 4 and my DOB, and they came back hours later with a copy-paste of the same message asking for a reason why I'm closing my account. Yes, they make you wait hours for a response but will still pester you for your opinion. Instead of just being a decent customer service representative and processing my request, they had to waste my time one last time before I ceased being their customer. Fantastic job. The most ironic thing was them telling me "here are some reasons you might wanna rethink your decision." If there was any chance of me rethinking my decision, it was erased the moment you proved that you have NO respect whatsoever for my time. Aside from that, they have a phone number that you can call that isn't 24/7 (no 24 hour line whatsoever), and that's it. And just as the icing on the cake, Google is pretty much useless if you have this account; all Google results are tailored to their credit card, so whenever you search "Avant" or "Avant checking" with your problem, the ONLY results you'll receive will either be insanely basic or won't be relevant because they'll be tailored towards another product. So in my mind, this bank account has no value if you value customer support at all. All in all, Avant's checking/deposit account is just kinda pointless. An anemic account with no features, you'd be far better off with a local credit union or something like SoFi or Chime. With no customer support to back it up, this account is completely pointless and I recommend you look elsewhere if you care about your money. Thanks for reading!

Review Description: S T O P ! ! ! ! ! Trust me I was just like you. I thought they were the best sweetest company just like you and for credit bump and another credit increase. But, when I got sick from my job and almost lost every including my car I asked them to initially work with me and they refused. To please give me time until I try to fight for my disability money that I was fighting for. I asked please stop making it harder for me since I have always made all my payments with a zero balance. They refused. Do not be fooled by this card company because now I am still sick and every month they are sending me a bill the says now late payment 795.00 due and it keeps going up my credit limit was only 1200.00 please stay far away from this company because I gave them at one time an excellent rating until I saw the true side of avant-don't say I didn't warn you

Review Title: GREAT CARD, APP AND GREAT COMPANY! VERY HAPPY

Review Description: Applied for Avant card thru Credit Karma or Experian (can't recall which though...). Approval was fast and easy! Got card within 2 weeks. Used the card judiciously and always paid before or on time. Started off w \$300 line. Several months later line was increased to \$500 then maybe 1-2 months later they doubled my line to \$1000. They've been very generous with increases with responsible use. The Avant mobile app is great for managing account, making payments, etc. I also use their online portal for acct management. Great company! I'm very happy with my Avant card.

Review Title: Quick and easy loan application

Review Description: Quick and easy loan application. It was so quick I was nervous that I was being hacked! I ended up calling a rep because my log on locked and wouldn't allow me entry. I'm "guessing" that was a security method to change my password. At any rate, rep was very nice, like where are these people??? This is no longer the norm with customer service. I could have requested a higher loan but only needed to pay a quick bill to build my score even higher. I was approved in minutes.

Review Title: I applied for a loan on 8/31 through...

Review Description: I applied for a loan on 8/31 through Regions bank and Avant is their waterfall lender for people with fair credit. I was prequalified with Avant and the initial process was great. My credit score was 630 on 8/31 as I received the letter from Regions showing my credit score on Experian and also Transunion. Here is the part that would make anyone scream... This all took place over a week. Numerous times having to submit documents. After I submitted the application- I had to sync my bank accounts-Provide paystubs-Provide copies of my IRA statement-Provide my spouse's paystubs. Everything I sent lined up with my application. They requested these documents over the course of a week. When you call you will get zero help- I mean ZERO help. I tried emailing and my email was not responded to for three days. When it was to was of Zeto help. When you go to their dashboard to check the status or see what's going on.. all it says is you have things to do and your application is going to expire. But when you call them about it- they say there is nothing you need to do and nothing to turn in continue checking your dashboard, but you do and it says it is about to expire, and yet you need to do nothing. If it expires they have you reapply which is another hard inquiry on your credit report. I have never written a review before but was so mad about this process I had to share my experience. I'm sure this company and loan program are and have been wonderful options for many. For me, it was such a runaround and horrible experience.

Review Title: If I could give 0 stars I would

Review Description: If I could give 0 stars I would. I paid \$365 on a personal loan today and only \$130 went towards paying it off everything else was interest and a bunch of stuff that was in the small print I just did not understand. Please be extremely careful Avant does not want to help you they want to rape you take full of vantage of you while you're in a vulnerable position just trying to get ahead in life. This is exactly how the rich stay rich and the poor stay poor, fool me once shame on you, this will never happen again to me. I had a really hard life, and now within the past five years I've been able to get my life on track build credit and do some things now I'm at a point where I want to move forward and I just wanted to consolidate some things and move forward efficiently instead I completely screwed myself dealing with Avant. Now I have to wait to buy house for me and my family and do other things in life because of Avant. If you deal with this company you are not moving forward, you are moving backwards while they are moving forward with your money please don't do it just work hard and pay your stuff off like I should've did. I work very hard for my money I guess I should've just been a little more patient in paying stuff off, because in the end that's the way the situation would've paid off the best. Avant are organized thugs that are legitimately robbing people that don't have nothing to begin with.

Review Title: Great credit card to have!

Review Description: I think Avant is a great credit card to have. I really like the fact that you can make the payments with your debit card from your bank account which automatically debits the payment from your bank account instead of waiting the 3 days for the bank payment to clear. The Interest rate is low and after making consistent payments you are able to receive a credit increase. The website is also very easy to navigate through. I highly recommend this card.

Review Title: RIDICULOUS HOOPS to jump through

Review Description: RIDICULOUS HOOPS to jump through A scammer opened an account in my name through Avant, because they make the process super easy for scammers, and tried to get funds. Those funds were denied apparently. But these are the hoops Avant wants people to jump through for them to acknowledge scammers hurting YOUR CREDIT through THEIR COMPANY PRACTICES. Don't do business with them. The reviews from customers make it clear Avant will WASTE HOURS of your time to clear up any issues you run into with them. EMAIL RECEIVED FROM AVANT: Thank you for contacting Avant. Your account has been forwarded to us because you have indicated that you do not believe you applied for credit from Avant. Avant has been able to locate an account in your name. It is important to note that the application in question has not been funded. However, an inquiry may have been initiated by Avant into your credit profile. Inquiries can affect your credit score and are visible to third parties viewing your credit report. If you still believe you have not applied for credit from Avant, please take the following steps: 1. Print and complete the attached "Identity Theft Victim's Complaint and Affidavit" ("Affidavit"). The Affidavit must explicitly mention Avant in order to be accepted. You must have the Affidavit (item 22 on page H-6) witnessed by a Notary Public. If you elect not to complete the attached Affidavit, you must file a Law Enforcement Report, described in item 20 on page H-5 of the Affidavit, or an IC3 referral form. The law enforcement Report or IC3 referral form must explicitly reference Avant in order to be accepted. Filing a false Law Enforcement Report may result in criminal prosecution with penalties up to a felony conviction. 2. Deliver the Affidavit, Law Enforcement Report or IC3 referral form and any other supporting evidence of identity theft you may have, to Avant via email, fax or mail.

Review Title: I thought this was a good idea...but...

Review Description: I thought this was a good idea...but no. I applied for an received an Avant card. The very first time I used it, it was declined. When I called, the rep said their systems were down. So I asked where could I go to find out if they were having issues like that before I tried to use it. The answer: No where. Good luck. Then, when I was able to use it, and went online to pay the bill, I called and asked when would my payment be posted to my account. They said within one day. BUT it would not be considered available credit for 10-15 days. So really you really only have access to the the available credit on the card about 15 days out of the month? Why is it Capital One and Chase can post a payment the day you pay them and Avant needs 15 days. Paid off the card and stuck it in a drawer. Useless. UPDATE: So I reached out to Avant like their response said and asked how they were going to "fix the situation." And their response was no response. The reply said to email them. And then when I did, they said I had to call. Guess what will happen when I call? This company posts responses to these reviews as a way to seem like they are listening. They are not. Clearly. #reallybadmarketing

Review Title: This was a horrible experience

Review Description: This was a horrible experience. There was nothing fast about it at all. This would have been my 3rd loan through Avant. It would appear they only finance high interest loans and once your credit score goes up they are no longer interested in financing you since you qualify for a lower rate. It's a disgrace. I full intend to reach out to their corporate offices due to this terrible experience. I spent over 3 hours in the last 3 days trying to get an answer and all I got was the runaround. I don't know what changes have been made to their personnel over the last 2 years, but it is terrible. I would not recommend Avant to anyone.

Review Title: How does Avant justify 30% APR???

Review Description: Despite my having paid-in-full three prior Avant loans, never one day late on a payment, and charging an annual interest rate in excess of 30%, Avant still wants to do a debt to income analysis. I supplied bank statements which show deposits. Not enough for Avant. If I wanted to go through the bother of submitting two years tax returns, I'd go to a conventional lender who charges a much lower rate. That's where I'm headed. So much for convenience.

Review Description: They emailed me asking for a review. When I asked them what product I had through avant they canceled the trustpilot link and never responded. I did finally do a password reset to find out what they thought I had done with them. Turns out they claim that I applied for a loan from them via lending tree which I never did. Their lack of interaction with someone trying to find out what's going on speaks absolute volumes about the support you're likely to get if you do get a loan with them. Their response was to send me to the same email they didn't respond to originally. Take that as you will.

Review Description: I received an email from them asking me to rate my experience with them. I thought my identity had been stolen. I have NEVER used or applied for a personal loan through them. I lost sleep that night because their call center was closed for the evening and I had no way of contacting them. After calling them the next day they told me that I DO NOT HAVE AN ACCOUNT with them and they could not even tell me exactly where they got my full name and email address from. This Makes me wonder if they are opening customer loan accounts just like Wells Fargo and US Bank were doing until they got caught by the FEDS. If you notice over 90% of the positive reviews are from people they invited to leave a review. Then they messed up and sent invites to people that they should not have and boom! This just shows how messed up this company is they send invites to people that will give them positive reviews. I tried clicking on the link they sent me but it was disabled even after I called them and they assured me that the link still worked even though I was going to rate them horribly. I have a feeling this is the same for everyone else that got these fraudulent review invites. DO NOT DO BUSINESS with a company that is willing to make up reviews! They do it because they are crooked.

Review Title: Questionable Data Security

Review Description: UPDATE: to my surprise, I just checked my account and saw that all fraudulent charges were refunded plus the interest charges for each. I have increased my rating to 3 stars as I didn't have to call again or hound them to credit my account. Still some red flags though about their data security though that I can't ignore, and the fraud department process was very odd. I also just received an email yesterday that I was declined for a credit card however I did not apply for a second one so I'm not sure what that's about.... ORIGINAL REVIEW: I have to assume that 90% of their 5 star reviews must be fake because Avant either has some serious security/data issues OR they are the issue. I'm leaning towards the latter. Since I was first approved for my Avant card I've been having some serious issues with mass spam emails and fraudulent activity. I had 7 fraudulent charges on my Avant card last month and my attempts to rectify the issue has shown Avants true colors and I completely question their legitimacy. I don't believe they have any actual employees and I really question whether companies like this are really the problem, rather than the "ghost hackers" out there stealing data. If I could go back in time, I absolutely would not have disclosed any of my information to this company. Period.

Review Title: Customer service needs training.

Review Description: I have meant to cancel this credit card for 5+ years now and just hadn't. When the widespread compromise occurred, I received no notification, no information for weeks after I realized it happened. When I initially called they were reassuring, it would be fixed in a timely matter and not reported to the credit bureaus. That was a lie. Do I care that a measly \$500 was reported? Not particularly. I do care, however, that they were misleading, or at the very best misinformed and obviously unable to handle such a compromise. To add to that, the second time I called customer service to inquire as to why it had not been resolved in all this time and had been reported despite their convincing reassurance it would not be, the customer service representative used phrases like "as I was saying before you interrupted me" and ultimately hung up on me. Your job is customer service, customer service in a financial institution at that, expect people to be upset when their money is compromised and learn to fix the issue rather than escalating it. I can't comment on anything other than that. However, fraudulent charges occurring in the first place, the time is took to resolve, and the absolute lack of professionalism from customer service makes this company an absolute no go from me.

Review Description: This company gave me a credit card when I was trying to rebuild my credit after an unfortunate series of events. Their card was a lifesaver, allowing me to make ends meet until I dug myself out of the hole. Now, I am so thankful that they came through for me when nobody else seemed willing to trust me. I give them an A+!

Review Title: They let applications expire and you have to resubmit over and over again

Review Description: We were referred to this company to apply for a personal loan through Experian boost unfortunately for us it was the wrong decision they let our application expire on two different locations and on the last occasion we got an email from the third-party creditor where they had submitted our application saying that they had made a counter offer, but we never received it. I would not recommend doing business with this company They don't do direct lending they send it to other companies to apply for the loan in our experience it was not worth it. very stressful resubmitted document over and over and very little communication between the customers and customer service instead of updating us with what was really happening they were letting our application expire and not getting back to us . Terrible experience

Review Title: Avant may be scamming people into becoming unwitting customers

Review Description: Avant has seemingly resorted to spam email campaigns to trick people, whose information they've bought from a data broker, into giving them sensitive personally identifiable information so they can claim these people as customers. This is evident from the fact they show you an avatar, tied to your email address by data brokers, when you enter it. Then, should you reset your password, they ask for your SSN and date of birth, as the SSN allows them to claim you, and birth dates from data brokers may not be reliable. Do not give them this information! Set a unique/secure password, then exit out of the process. Pull a full credit report to ensure no one has signed up with an account under your name. I called their support. They told me how they take fraud seriously, and then they hung up on me!! If any lawyers are looking to form a class-action suit based on this campaign, I'd love to join.

Review Title: A Bit 'Scant' on "AVANT"!

Review Description: I recv'd this email requesting that I write a review OF THIS 'company' on TrustPilot. Usually, I'm very astute w/who I conduct business with. However, I haven't ever had any correspondence w/this company, so any review relating to their "'quality' of service" would admittedly, lack credibility and be based on falsehood. I've done consumer advocacy work for over 20 years now, and have written many reviews on several sites. Typically, a legit company doesn't solicit or request that customers review them. That's almost wholly initiated voluntarily. But Avant admittedly caters to low credit score applicants in their issuing of Secured Credit Cards. However, given that my score is actually exceptional, I'd have absolutely NO USE for their services. My guess, quite frankly, is that they're soliciting Shadow Reviews from unsuspecting applicants in order to bolster their image. Well they've met their match here!!! Suffice it to say though, not having EVER done business with them B4, doesn't otherwise prevent me from suggesting or stating that I feel that this 'company' is employing a questionable business tactic in their quest to bolster their image for added recognition. If, however, they reach out to me and can substantiate my actually contacting them, then clearly I'd reconsider this posting, based on what I then learn, and modify this review! My guess though...that'll never happen. Until then, "Avant" seems a bit SCANT to me!!! XX My response to their "Blow-off": Below this supplement, you'll see what, in effect, is a tacit denial and an outright failure to take responsibility for their predatory marketing practices rather to instead, do what's right and own up to their engagement in these bogus marketing practices that prey on less aware individuals! Maybe the FTC would be interested in their game-plan?!

Review Title: What was the point of this?

Review Description: Got a random email to rate them today despite never signing up. Reset the password to get into the account, and had to complete the sign up, so it's not something I registered and forgot about. Applied and was declined, not surprising, but why create an account for me and send me an email to rate you if you didn't even bother to do a cursory prescreening check that would have told you I was ineligible? Oh, and the rate link they sent was broken. I'm bored and petty and mildly annoyed now, so here sits this review.

Review Title: There nothing but a bunch of BullCrap

Review Description: REFERENCE #279999 So to start, I have to say that for me having a poor credit rating, they gave me that chance to build myself back up again and even trusted me for a \$1500 credit limit to start. Now who ever developed the App is really bad at their job and needs to step down. 1st- it doesn't track your spending with exact change, it rounds it self up to the next dollar so when you get close to your limit, you end up hitting it \$15 early. So a few weeks ago I went out of town and ended up using \$980. So that should leave me with \$520. I'm at home and trying to buy an item online from a timed auction and win. I put in my card numbers to pay and it kept saying declined. It cant be cause of no credit so I don't understand what's going on. I call them up to be told that they're having technical problems and all accounts were frozen. Needless to say, I lost the item and couldn't even use my remaining credit for a full 2 months. I was told as soon as it's fixed that I would receive a email but that never happened. I just randomly discovered it on my own, just past the 2 month mark. What's funny is that they could still do statements, collect your payments for sure and create new Ads to get you to make extra payments to get ahead. So this month (August) I made an attempt to make 2 early payments and then my monthly payment. The app gave me alot of trouble taking my new card# from my Square account but finally got it, or maybe not. My 2 \$50 payments and my \$100 one got canceled. Now once I realized it, it's past the due date and I get hit with a \$25 late fee. I didn't receive a single email for any of the payment problems, no text, or nothing in my app portal. This is horrible and a super sloppy way to run a financial institution. Stay away and Don't Say That I Didn't Warn You!!!!

Review Title: Don't ask for loan unless you don't need one.

Review Description: Okay, never used avant. But this morning received an e-mail asking for a trustpilot review. I went to the avant website and went ahead and applied for a loan. I asked for the lowest amount possible. I knew that my credit was not good, but hoped it might qualify. Nope, sure didn't. But since this seemed to be the first time checking with them, why did they ask for a review. Well, here it is. Don't bother, it's just another thing on your credit report. May not matter much, may affect it a few points. I'll find out in a couple of days.

Review Title: HIGH FEES

Review Description: HIGH FEES! Annual fee is (\$59) and seems to be billed whenever they feel like it, late fee is \$39, APR is around 28% which I think is actually illegal in some states. The website login working is 50/50. No credit limit increases in well over two years (my score is now significantly higher). It will help raise your score but a secured card with decent rates and customer service would be a better option. Also you can't transfer your balance away and close the card. I had a promo of zero percent interest if I transferred my balances over to Barclay, avant refuses to transfer it.

Review Title: Issue with use

Review Description: Customer service is always nice and have had no problems with my bill My issue is that I can hardly ever use this card every time I go to use it declines. I have no clue why considering it's got the full credit amount on it. So then when I call customer service it's always a oh we were having an issue or we thought it was a fraud charge. So I rarely even use this card because it's always some kind of production. So I wish they would get there system working properly and know off this nonsense! I would not recommend this card to anyone for the pure fact that you will probably hardly ever use it. If they could fix this issue it would be fine.

Review Description: I love Avant! Some credit cards make you wait between 2 business days or 2 weeks to restore your credit available, but with Avant it is immediate. Review Title: The most frustrating customer service...

Review Description: I sent a check to have the card paid off. I called customer service on three occasions. I was checking to see if it had been received or get a timeline through which I should wait or cancel the check as lost in the mail. The representative each time was very difficult to understand, but I was given a different timeline each time I called. The check recently showed up on my dashboard as having been received four days prior . . . and four days after I was told that I should just cancel the check because there was no record of it. I paid off a few different cards around the same time, and this was, without a doubt, the most frustrating customer service experience.

Review Title: I been with Avant for 1 year and 3...

Review Description: I been with Avant for 1 year and 3 months and as soon as I got my credit card I was told by a rep from Avant that I had 12 months to pay the annual fee. well I was charged the annual fee on the first month. I called up Avant and they gave me some b.s excuse. I gave a review on here and they said for me to call them so they can fix it well I called up C.S. and they gave me the same b.s. 3 times. C.S is horrible. I pay my bill on time, at least 12 days before the due date and I pay an extra \$15.00 on top of my monthly fee. they denied me for an increase which is probably good because I just can't anymore with Avant. So Avant when you read my review please don't say" We are sorry to hear that, please contact us so we can try to help you" because I won't call anymore.

Review Title: DON'T DO IT. TRUST ME

Review Description: I got a loan from avant 12/2020. I've made my payments on time every month. I've made double payments. I've made payments for hundreds more dollars than my actual payment is. One minute I login to view my loan/payoff loan balance, and the remaining balance was 1300 left to pay and now when I login it mysteriously has gone up to 2200. How from 12/2020 to 8/22 a 3800 loan, I have a balance of 2200??? It makes no sense. The approval process for a loan is pretty easy and simple. Once approved getting the funds, *oh and it wasn't the full 3800 because they deducted a few hundred for the application and administrative fee is what I was informed by customer service* were fairly easy and simple. Paying the loan back has been a true nightmare and I will never go through this company again for a quick loan.

Review Description: Worst credit card company I've ever dealt with! My card sat inside a lockbox since the day I got it. It was not used anywhere not one time! Got an email about suspicious activity a week after the "suspicious" charges. My card got maxed out with 3 fraudulent charges in a day & it was not caught by the company for a week! Which still doesn't explain how the card was compromised in the first place. Obviously their data is not secure AT ALL! The rep on the phone just kept trying to send me a new card & I had to ask repeatedly for the account to be closed. All the while their fraud team was "looking into the matter". Careful who you trust your information with, because this company will not keep it safe or fix fraudulent charges in a timely manner!

At this point I don't believe Shelbi is a real person, I have called customer service so many times with my concern that no one (Shelbi) is not responding to any voicemails and I'm told we can't help you here and request to speak to supervisor are met with the same response, The customer service during this time is horrible. When I saw their pathetic options I quickly closed the site and asked them to delete my account. THE WILL NOT. They want to keep your info to sell and other marketing. Here is their response exactly. "Thank you for submitting a data request. Avant is dedicated to the principles of transparency and fair processing of personal information. Due to Avant's current information collection practices, we are unable to honor your request. As an applicant for a credit product through the Avant platform, the information we have collected about you is subject to the Gramm-Leach Bliley Act. We are not required to disclose or delete such information and Avant is permitted to use such information for our legitimate business purposes, such as fulfilling our legal and compliance obligations. Review Title: Don't waste your time...

Review Description: I applied for a loan for \$10,500 with them a week ago. The process was ridiculous. They will NOT email you when you need to update anything, and they will not call. You will have to keep checking your application if it needs to be updated. I applied last Wednesday night, about 4pm. I called on Friday to check the status and they kept speaking quick and he said he needed to submit it for review and is there anything else he could help me with, he tried to get me to hang up, but I stayed on the line. 20 minutes later he comes back and asks why my paystub comes from a different company and not mine, I had to explain this to him. After that, another THREE days they sent me an email to call them, and they told me my paystub bank account did not match the bank account I gave them. It was completely false, I literally had to walk them through the difference between a routing number and an account number. This took AN HOUR. Also they don't speak clear english. Finally resolving it they took another day to post I need to verify other income to get to the right Net income, which was not correct because my net income was already OVER what they pre-approved me with. I think it was just stalling at this point because I submitted my husbands checks asap and they let it sit again without updating it. Then today I get an email that my loan application EXPIRED, and I would have to reapply. I have NO interest in getting a loan through this company anymore. I think they just collect your information for fraud reasons and then go about their day. No sense of urgency with them. You will not get a loan approved before it expires. Every review I have read that seems real, they all have the SAME issues. UPDATE: I will not be giving them a second chance. I secured a different loan on better terms from Prosper in 24 hours.

Review Title: I got what I needed.

Review Description: This is my 1st personal loan. And to be honest I was nervous about the whole thing. I didn't think that I was going to get approved but I did. Thank God now I got the money that I needed and was able to pay off debts and credit cards. It's definitely giving me some peace of mind knowing that now I have everything under one bill instead of spread over five or six. And the monthly rate is pretty cheap too for what I got?

Company Name: Avant

Review Title: Would do business with again

Review Title: I am on my second loan through avant

Review Description: I am on my second loan through avant. I was impressed by the speed and efficiency of the first loan although the interest was quite high. However i had challenged credit too. The second i almost didnt do because it showed same interest as the first. But once i did apply the rate dropped consistent with my new credit rating. I would recomend them to strengthen challnged credit and pay off debt.

Review Title: No major complaints

Review Description: My experiences with Avant have mostly been positive. It was a little unclear what was going on with my application for refinancing my loan, but it was ultimately approved. (It just took more than a week.) ONE thing I would really like to see is the breakdown of principal and interest for each payment. I don't see anywhere to find this information.

Review Title: Don't apply for this loan!!!!

Review Description: Don't apply for this loan!!!! I applied for there loan and it's been a week and I keep speaking to the same representative I think it's a fraud. First off you never call and get the same representative on different days and different times well I have, which is suspicious right there to say the least then I asked about a supervisor and of course they weren't available. No surprise there. Now with the world with inflation problems that just what we need more people scamming to get money we don't have.

Review Title: I am a previous customer with Avant

Review Description: I am a previous customer with Avant. They gave me a personal loan when I was really financially stressed. I was able to pay off the loan 2 years in advance. After several months, they started sending me emails to apply for another loan. I finally did on 7/20/22. Unlike the first experience, this one was a nightmare. They kept asking for the same documents over and over. Each time I submitted the documents, they would say I didn't need to do anything else, but they would never say whether or not the loan was approved. Finally after 7 days, I received an email saying my application had expired and I could re-apply! So I did on 7/28/22. I got the same run around with the document requests but no follow-up from Avant. After a couple days, I just told them to cancel my application. I was frustrated. Not because I didn't get the loan, but because they weren't professional enough to let me know one way or another. I felt like just another piece of paper, rather than a person. If that's the way they treat people, I'm glad I don't have to do business with them. Oh, by the way, before I paid off the previous loan, I paid every payment on time. Helen R. Richmond

Review Title: Recent loan experience

Review Description: I'm writing this review to help other customers to have a better experience than mine. I provided all required documents and they were not processed before the 7 day expiration. I had to send multiple emails with my verification info. I checked my dash board and there were things i submitted but had to resubmit. Unfortunately, my application expired. I was instructed to resubmit my application. I complied because of the importance of this loan. Yes i was eventually approved but it was apparent that there wad a lack of communication between Avant representatives. I was getting frustrated having to explain and reexplain my situation. I also feel that consumers needing a loan should be reminded that they only have 7 days to submit. It can be added to the dashboard. I think this would be helpful.

Application proceeds was simple and fast and since then I was offered a personal loan with competitive rates which I also applied for easily and was approved. Avant has helped me get back on track rebuilding my credit without have to pay crazy fees or rates like other companies offer to people with low credit scores. Review Description: Excellent chance of approval through Credit Karma. ppffft...uploaded all the documents requested. they requested six months of bank statements, only had my current bank for last 5 so attached prior bank info. received an email that I needed to call in. When I called in the agent told me that they needed one for the bank I was at from six months ago. asked her if what I uploaded would work she said yes, then said i could upload the statement in the next 7 days. when I asked if I don't upload the statement will the application be declined she said no we could use what was sent and send it forward. I asked her to do that. She then said it would be an email with decision. Within 10 minutes it was declined. I think they need to do a better job training their staff

Review Description: It is one of the worst credits I have ever had in my life, it is definitely my fault for not reading the interest rate correctly, it is exaggeratedly expensive!! I had the credit for 7 months and of the 4 thousand they lent me, the balance I settled was \$3,750!!!! In the 7 months I only paid 250 of the balance!! and my payments were \$360 dollars a month!! I would never recommend this credit company because they take advantage of people's needs!! I understand that there must be a profit but this interest rate is an exaggeration!!!

The process is extremely fast and they give you different payment options, showing you everything up front before you accept the teams. I will warn the interest rates are high and it may not be the best choice for everyone. The loans do not have any early payment penalties, so if you are able to pay extra and/or pay it off quickly you can avoid the high cost.

Review Title: Outrageous Fees

Review Description: I have to agree that it getting the loan was simple but I would not recommend getting it unless you are certain will you play the loan back in a matter of days. The interests rates are outrageous on top of the \$5.52 charge each day. Borrowed \$1500.00 in November, paying \$100.00 every other week and still have a balance of 1480.00. I would not recommend getting yourself in this kind of bind. I pay it because I don't want to mess up my credit. Biggest mistake ever.

Review Title: I took a loan out back in July

Review Description: I took a loan out back in July. I've been making payments of about 500 a month and my balance owed has only decreased by about \$71.00. I understand this is an expensive loan but to pay over 2k and only have my balance decreased by \$71 dollars, that is ridiculous. If you're considering taking a loan out, go somewhere else. there is no reason why you should be paying over 2k only for your balance owed to be decreased by such a small amount.

Review Title: Run fast and far away!!!!

Review Description: It's super easy and quick to get the money. It's also super easy to set up payment. My problem is the 134% interest. I understand you're here to make money, but after paying on a \$5000 loan for over a year now and still owe \$4700 feels like straight up robbery. Long story short it's super easy to sign yourself up to be taken advantage of. Thanks for the money, but please dissolve your company and yourselves.

Review Title: Fast and easy to use

Review Description: Was need to get a loan to consolidate my credit cards to try to get my credit score up. This company was very easy to use and they were very fast about the process. They show you your payment schedule and are very upfront about their pricing. The loan is super expensive but I'm someone who needed it to help increase my credit score so it worked for me.

Review Title: Friday before Christmas

Review Description: I put in my application the Friday before Christmas. And I was hoping to get my loan on Saturday. But because it was on Friday the system was telling me I would probably going to get it on Tuesday the day after Christmas. When I opened up my bank account on my app on Saturday low and behold I had my loan on Saturday. My experience with rise credit was great was easy and I got my loan right away.

Review Title: You will be taken advantage of with a high APR.

Review Description: I pulled out a loan for 3500 to take care of unforeseen events in my life. They deposit the funds into your account within 24-48 hours however here's the negative, they take advantage of the fact that you need money and take advantage by giving you a rate of 149%, that means if by the end of the loan term the total will be over 10,000\$.

Review Title: This is a predatory loan

Review Description: This is a predatory loan. It only gives you the option to pay more on the principal the same day payments are due, therefore if you think you want to pay it off early think again, you will be paying in full or paying twice as much over time on the loan. It does not allow you to remove autopay, it basically sets you up for failure. I have been paying on it for over 3 months now and still owe more than the amount I took out. I only got it to help with my credit and its not even reporting. I will be paying it and full and cashing it out on my next payday. Had I known what I knew now I would not have gotten it.

Review Title: Fast services and approval...BUT!!!!

Review Description: Fast services and approval...But however the pay back is out outrageous. Please make sure you apply on a desktop and not your cell phone were you can see every little detail. If I would have done it on the desktop I probably wouldn't have gotten this loan. Just because of the pay back. So it's based off how often you get paid not once a month like most loan companies I have dealt with in the past. Also the APR IS WAYYYYYYY TO HIGH. If you're not good at managing your money you could hurt your credit then try to build your credit.

Review Title: I would avoid this company at all...

Review Description: I would avoid this company at all costs. I paid my loan off early and they still took out a payment from my account. When I called on it, I was told it would be 3 to 5 days. They can give you money the same day but fixing the problem takes 3 to 5 days. They keep my money but when or if they return it without interest. 144% interest on my loan but no interest on keeping my money. ***UPDATE*** Today is 02/20/2024 and I'm still waiting for my refund. Was told this past Thursday that the refund would be there on friday. Guess what it's Tuesday and was told again today 3 to 5 days but they are trying to expedite it. They can mess around with my refund but be one day late and they blow up your phone. Shame on this company.

Review Title: I had been paying on time

Review Description: I had been paying on time, then due to my local bank closing, I had to change banking accounts. Rise made it very difficult for me to update this information online so I resorted using my debit card to make payments online instead of checking account information. Long story short, they flagged my debit card as fraudulent and I was unable to make any more online payments. They will only receive cashiers checks as a single parent working full-time it's hard to make it to the bank during banking hours to get these checks. Every time I get a different story one lady one as far as to letting me send her my new checking information via email and told me it would be updated so I could continue to make payments online. This never happened now now I can't even access my online account to see how many payments I have left. Yet, I still continue to make my payments.

Review Title: I don't know what to believe anymore with Rise???

Review Description: I am not really sure what to say or where to begin. I get this flyer in the mail with hopes to apply for this loan and get some added help. So me and my roommate elect to apply for a loan we both get approved for up to 5,000. So we choose what we want and it shows the amount we pay and the interest and the payments. So except the terms and sign the loan agreement and think we are getting funds in the next 24 hours like it says. Nope no funds I get an email later that day that we both need to send in information to verify my ID, SS card and recent bank statement. We both send the required info I call back they got both of our information and good to go. They said need to sign back in and except the terms and the loan again and sign we do that then told get the funds in another 24 hours. Okay at this point I am like okay wow this as gone on for 2 days now back and forth. I have been told I was approved and get my funds and haven't. I check my email today and we both got an email saying we were denied. I am like what denied for what we were told we were approved it says this reason for denial "unable to verify application information based on documents provided". So at that point I'm frustrated and upset feel lied to and betrayed I call back and ask for a better clarification they can't give me one they said it's automatic generated response I am like give me a number don't have one. Wow and no one there a supervisor no one can assist. They tell me all you can do is wait the 10 days and apply again wow I'm thinking and this is a company. They should be taking to court on this and sued. They even hit me with a hard inquiry and it says will run credit for a hard inquiry once signed and approved well I was WTH!!!! I guess the next time should be cautious with who I try to do business with.

Review Title: I would not recommend using this...

Review Description: I would not recommend using this company for a loan. Yes I understand you borrow money and they give you a monthly payment but by the time you make that bi monthly payment they just charge you more interest. I have not been able to pay any of it off and have been paying more than what I took out. I feel like they charge you interest everyday. I have been on time every payment and my amount has not even made it less than what I got. Sometimes I don't understand I should just pay off what I owe.

Review Description: I received your letter stating that if I choose to reject the loan for any reason I may do so before my payments being. I thank you very much, unfortunately I am not able to keep the loan at this time. I have made a total payment today of \$3,500.00. There have been changes in my daily life so that I am not able to peruse this obligation. I hope to perhaps work with you at some other time when things are more abundant. Thank you very much for your understanding. Sincerely, Maureen Brandon

Review Title: Rise is awesome

Review Description: Honestly they seem great! Easy to use website, quick funding time, and loans to people who is in need of help like myself. Of course, rates are super high. The price you have to pay in a hard stuck financial situation. Though I wish you didn't have to pay 15 days after getting the loan. But rather give us 30 days at least for some breathing room. 4.5/5 stars. Other than that, can't complain.

Review Title: Modern Legal Loansharks

Review Description: The only thing positive I can say is they got me a loan quickly with poor credit. Borrowed 5k in september of 2022 and paid loan off early, nov 2023 but still paid back almost 9k in interest, would have been 10k+ if i wouldnt have paid it off 7 months early. How can companies charge like loansharks in the movies. read that again, they made over 9k and was scheduled to make 10k on a 5k loan with payment terms less than 24 months. Again, like i said, atleast they got me the money when i needed it, but this helps explain why the rich get rich and the poor gets poorer. Thats over 100% interest every year on the original loan amount.

Review Title: A joke

Review Description: Hello. I have now barrowed from rise 2 times which every payment has been on time and in full. But during bot loans, I needed to maybe refinance my current loan so I could barrow a little more. But each time the representative replys back telling me at the this time I'm not a canadate to make any adjustments. She couldn't explain any further details except to say oh when your qualified we will reach out to you to let you know. I told her don't bother. Cause if I can get the help when I need it then I don't need them to decide when it's all good to go. It's like after a perfect payment history it doesn't make a difference. I'm still denied like I'm a bad customer. No thanks

Review Title: Astronomical Interest Rate!

Review Description: Rise loans are very, very, very expensive! The interest rate is beyond high! However, it's the price you pay for less-than-stellar credit. The process and approval are quick and easy. I recommend only using it if you have NO OTHER OPTIONS! The cost in the long run is not worth it. I took out a \$4,000 loan in July and still owe \$4,100 as of Nov., after making monthly payments of \$420.

Review Title: I've been a loyal customer since 2018

Review Description: I've been a loyal customer since 2018, but unfortunately fell into this predatory payday loan trap where you pay it off, but you're still broke so you take out another. But I'm awake now-the interest rate Rise charges is stratospheric; I refi'd an \$1100 loan 2/23, faithfully pay \$210/month yet Rise says I won't be PIF until 4/25! That means I will have paid \$5,460 for an \$1100 loan. I have filed a complaint with CFPB & strongly suggest you steer clear of this company.

Yes, it's an expensive form of credit, but they tell you that upfront, and they also tell you that you can save a lot of interest by paying extra when you can or paying your loan off early. I am extremely happy with this company and I will continue to obtain loans from there, because I trust them. Everything has been transparent and applying for a loan is always hassle free. I highly recommend them. Thanks Rise Credit.

Review Description: This is the worst place to get a loan from. I had a loan and paid it off before time. Tried to get a second loan, I sent in all my documents and was told they couldn't verify my account and they asked for additional pages from my bank statement and that still wasn't good enough. The front page of my statement had everything on it that they need and it wasn't good enough either. I will never try with them again.

Review Title: Getting a loan is EASY!!

Review Description: I NEVER thought getting a loan would be so EASY! I went to a typical financial institution to ask for a loan and there was so much red tape involved, you not only had to fill out a lot of paper work, you had to have collateral, and get insurance placed on yourself and the collateral and that added cost is also ADDED to your loan amount, which adds 1000's of dollars to your loan, on top of that you STILL have to pay interest on the entire amount! For example, you may get a check for \$6999, the insurance on you and your collateral may cost another \$10,000 bringing your loan to around 17k, add interest and you are paying back 35k, when you only received a check for \$6999. Do the math you pay back 5 times what you actually took home! With Rise the loan was fast and easy! The money was in the bank the next day and the payment plan is simple to follow. The loan can even be paid off early, saving you money! Thanks Rise, the next time I need money fast, I will come here first!!

Review Title: Stay away!!!

Review Description: Stay away!!!! Interest rates are way too high. I have used Rise for years and this year was the straw that broke the camel's back. When applying for a loan, I always select the \$2,250 loan with a payment schedule of 20 payments. This current loan I selected to do the same payment schedule. Fast forward a couple of months, I noticed my balance never went down only kept rising. Generally after a few payments, I would see a dollar or two come off of the balance, but this time I've only seen significant increases. I went to look at my contract and somehow my payback schedule was changed from 20 payments to 44 payments. I immediately called Rise Credit customer service to see if there was a glitch in the system because I would never select to make roughly the same payments I've made in a previous loan agreement for a longer term. So, now this new loan agreement is saying if I make all 44 payments will have paid back \$8,430.79 for a \$2250.00 loan. A total of \$10680.78 Here is the breakdown from the last three loans I have gotten through rise: 1. (2023 44 weeks) \$2250 270.85% \$242.72 biweekly (8/30/2023 Edit: I received an email from Rise Credit corporate office stating that the rates and terms for a \$2250 loan have changed from a maximum of 26 biweekly payments to a maximum of 44 biweekly payments. You no longer have the option to choose 20 or 26 payments. So, if you decide to go through with the loan for those 44 biweekly payments, you will have paid back \$10,680.79 for a \$2250 loan. The rates and terms on the "What it costs" tab are inaccurate. 2. (2022 20 weeks) \$2250 272.95% \$262.20 biweekly 3. (2021 20 weeks) \$2250 277.97% \$277.97 biweekly I am trying to figure out why in the world would I select to make more payments for roughly the same amount of money I was repaying in previous loans. I kept telling the representatives I spoke with that I would not select that. Also, if I selected to make 44 payments instead of 20 payments like I always do, wouldn't my payments be less? Something is not right and I know it. I have been trying to get the corporate office on the phone, but no one will return my calls. I need answers. Whatever you do, find another way because this company is scamming people. Please, please, please pay close attention to every click you make. Screenshot every step, especially the rates and payback schedule you select. Go back and check to make sure your clicks were correctly recorded. Also, making extra payments towards your loan does not go towards your principal balance. You will be making extra payments for nothing. Either pay off as fast as you can or make regularly scheduled payments. Most importantly FIND ANOTHER SOURCE TO GET MONEY FROM.

Review Title: Not worth it!

Review Description: If you can't back this loan back early I do not recommend. Making only the biweekly payments will take forever to pay back. Yes it's fast and easy to get but that because they are locking you in with tons of interest that's much more than many other companies. Again if u can't repay the full amount fast I would not do it.

Review Title: A loan was fraudulently taken out in my...

Review Description: A loan was fraudulently taken out in my name. I found out about it when it hit my credit report as payment overdue. Your company was notified numerous times since, and 45 days later, it was finally marked as fraudulent. I was told it would take 30-60 days to get it off my credit. Unfortunately for me, it's too little too late, as I was in the process of buying a house, and my credit score has dropped 200 points. When asked if there was a way to remove it sooner since you can place negative items on my credit report one day after the payment was overdue, I was told "No, it can't be done". And there is no one I can talk to to rush this along.

Review Description: I wouldn't recommend this loan place to nobody. When they say read between the fine lines it means read. I got a loan and I'm still paying on it but paying back 3 times then what you borrowed is ridiculous. I will finish paying this off and never in my life borrowed from this place again. I do appreciate the help but the interest is ridiculous. It's like they help to get out of a bind but just to get into one 5 times more then the one you was in smh.

Review Title: Do not use

Review Description: I cannot recommend this company at all. You make arrangements to pay off your loan days in advance via the debit the way they prefer and yet they still take out your regular monthly payment and then takes days and days to get reimbursed. Review Title: STRONGLY DO NOT RECOMMEND IT!!!

Review Description: Took advantage of the opportunity and now, I am paying triple the amount back. It is the worst loan I am experiencing- still in repayment and its been 2 years and the whole total payments I have made was at least 10 percent to the principal. I strongly do not recommend it to anyone.

Review Description: Let me start by saying this..if you have poor credit, interest on any loan you get will be high. Know this before applying. Also, by starting low and working your way upward, will help to rebuild or even build credit. I have had two loans with Rise, and not once have I had any issues regarding anything. Yes, interest is high, but I knew that in the beginning. I recently paid off second loan. With help from Rise, my credit has improved greatly, all by simply paying on time. Please, before leaving a bad review about high interest, with bad credit it is unavoidable. If the need ever arises, I will use Rise again.

Review Description: I had a loan with Rise years ago I've been trying to get another one and for the past six months they have the same issue where it just loops me around after I sign in and it tells me to sign in again I was told this would be taken care of six months later it's still the same thing no one can give me any timeframe as to when it should be taken care of don't waste your time

Review Title: Reliable, sensible, trustworthy

Review Description: I have never had an issue, been able to pay off early and save tons on APR. Found the services to be top tier, industry leading reliability, swift funding, and logical repayment plans VS competitors illogical ones. One competitor, offers, lines of credit, but they are way more expensive even for the same amount of funding, and the repayment structure is confusing, never the same amount. Rise Credit is a company I trust, based on personal experiences. They are very trustworthy lenders, in a sea of sharks.

Review Title: RISE LIES as they claim "better way to...

Review Description: RISE advertises as a "better way to borrow" and "We believe a brighter financial future starts with access to affordable credit. " While they do fund loans to just about anyone, they are NOT "Affordable Credit' I borrowed \$1000 and have made 8 payments for a total of about \$567 yet owe... \$920 still. That's right, the payments have only paid down \$80 of principle after 2 months. Do not fall for this "better way to borrow" LIE.

Review Title: Unfortunately I had a bad experience...

Review Description: Unfortunately I had a bad experience with Rise. In 2019 I was working with a debt consolidation company and the settlement reached for Rise was \$2546.34 and I paid \$1940.00 leaving \$606.34 left to pay. I was physically injured in 2018 and 2019 and couldn't work but didn't want to lose the settlement. The debt consolidation company refused to work with me on the last couple payments that I owed on my Rise settlement and instead canceled the settlement while charging me fees plus the \$1940 I paid to Rise came to \$3400 total and then the debt company and Rise wanted another \$2500. Now it's 2022 and I just got off the phone with Rise and offered to pay the \$606.34 in full that was left on the settlement but they now want \$1500. I can't pay it. So I paid all of that money for nothing and it's ruined my credit. If you have another option other than Rise I would take it. I plan on filing complaints with the FTC and the Consumer Financial Protection Agency.

Review Title: Excellent service!

Review Description: I approached this company with a loan request for a certain amount to consolidate my debt. While I did not receive the requested amount, they did consider me for a smaller loan (not very far off from my original request). I was very pleased that I did not receive just a denial, they actually took the time to consider my situation and made an offer that they hoped would assist me. I appreciate this type of business and am extremely satisfied with the terms and conditions of this loan. If you are looking for fast approval, fast funding and efficient service, choose RISE credit. It is true that the interest rate is less than desirable, however, one always has to assume this burden when seeking fast funds and a lower credit score. Simply read the terms and I'm sure you will agree that they offer good solutions to money issues.

Review Title: Way too expensive

Review Description: I'd be happy with my loan if the prices weren't so high. But with bad credit and this being my only option, it's all I could get. Funds went in next business day so that was great. But paying back over 9 grand for a 3500 dollar loan is why people struggle to make ends meet. These companies don't help people they put them in more debt.

Review Description: Overall, I am happy I was approved. But getting there was a bit of hassle. I was told you needed a signed copy of my Social Security card which I could not locate. I applied for a new one but it was going to arrive outside the required time frame. Even the SSA questions why anyone needs one because they just are not required by most businesses any more. Anyway, after I told your staff about my issue, they did come up with an alternative you could live with.

It was a very easy application, approval, and depositing of my funds, that I desperately needed at this time. The only thing that I was disappointed with, is the APR for it. Review Title: Overcharged me \$200!

Review Description: I accidently paid with an account that was too low (acct #1) so I paid with the correct account (acct #2) and it went through! Their program later retried the "missed payment" from the first account even though I successfully paid it from account #2. After confirming I had never missed a payment and seeing that something was wrong on their end, they STILL kept my \$200 and said the program would have shown they over charged me. Earnest even agreed with me!!! I can't tell you how betrayed and angry I feel. \$200 is a LOT of money to me but they could care less about you so, borrower beware!

Review Description: My loan approval was quick and as stated in their proposed guidelines. My funds were deposited quickly to the desired account. My credit score is very impaired at this time, so my interest rate is exceptionally high, but RISE disclosed the proposed interest rate beforehand and there were no surprises. Though it is very early in my account's existence, I am very satisfied with RISE at this time and would recommend them to other credit score impaired folks who intend to use this loan properly and improve their overall financial situation, as well as to improve their credit score.

Review Title: Poorest Level of Care & Communication

Review Description: The process is simple, easy, and no problem. However, Their level of customer service when communicating is awful! You can send and communicate very clear requests & instructions over and over, yet they will drag out email chains acting like they don't understand what your requesting until things drag out past 5pm, then they say they are unable to honor the request. This also occurs when you finally are able to get a customer service rep on the phone as well. This continues to happen over the same request for months now, which is ridiculous. Who is managing & training @ Rise or even cares enough at Rise to actually follow thru with anything other than their own agenda? Not one person has corrected the request even now, which causes more frustration and headache than needed. Absolutely ridiculous! I would never recommend Rise to anyone!

Review Title: Can't pay off the loan because their customer service is non-existent.

Review Description: A zero rating would be more appropriate. Borrower BEWARE! I've been trying to pay this loan off for over a month now. My bank sent them a check on 4/22 and it was never received. I spoke to Rise customer service and was told checks are credited to accounts same day received. So, My bank sent another overnight to them on 5/17 with tracking and signature required. It was received 5/18 and signed for by an employee. Several calls since then and given multiple varying answers. Once it wasn't received. Next it was noted as received on my account and would post by 5pm that day (it did not), then they would contact me within 24 hours and it would be "escalated" — no call. I called them with my bank on three-way, and was informed it had not been received and they couldn't verify if the person who signed had it or not...and that it would take 7-10 days from receipt to post...tons of excuses and lies! When the original check was mailed it would've paid this loan off. Now I have accrued over \$400 in interest atop the original amount thanks to their daily interest charges. Wish I'd NEVER hit the accept button on this "loan" and I HIGHLY advise you to avoid them at all cost! I've paid my loan every month, on-time, and never an issue until I want to pay it off to better myself and get out from under some debt. This company is nothing more than a payday loan service at best. Complete and total loan sharks with horrible customer service and extremely questionable business practices. Do yourself a favor and look elsewhere. There are better alternatives. Take it from me!

Review Title: Past client gets denied for not having any derogatory credit

Review Description: This is getting completely ridiculous. A person that's had a total of 8 personal loans from you going back to 2016 can't get a new loan. After requesting why, this is what they emailed me today, 1. Delinquent past or present credit obligation 2. Excessive changes in personal information 3. Excessive credit obligations Are you kidding me? My credit report hasn't got ONE SINGLE derogatory item on it. Excessive changes in personal information? The only thing that has changed on my personal info in 10 yrs has been my phone #. Excessive credit obligations? I made over \$225k last year and own a \$1.2 million dollar home. Who is running the credit qualifications at Rise Credit? It would have been nice to give you guys a little more business, but it's clear this is obviously a racial thing with Rise Credit. Now I see why a lot of their past clients don't come back to them.

Review Description: After These people went into my bank account to verify that my bank was a real bank, they denied me because I did not have enough money in it. If I had money in my account, why should I borrow money that will charge to the interest of 6,000%?? That is oxymoronic if you ask me? Very laughable. I only tried them because KARMA bothered me at 20x to apply. What a waste of my time. People, if you want a company that will respect you, please go apply to CASHNET USA. They are very good.

Company Name: RISEcredit.com

Review Title: Never again

Review Description: Full disclosure, I've been a Rise customer since 2016 and have taken and repaid 8 loans. For the most part, the experience has been great. The application process is easy, they work with you when you experience hardship, they take debit card payments which is oddly uncommon. I used to highly recommend them. Until today. I applied for a loan on Thursday 3/17. As a returning customer, the process was super easy. Just confirmed nothing had changed, hit submit, and was approved. I signed the loan agreement and they said the funds would be in my account the next day. The next day, the money isn't in my account. I log on and it shows my loan is in the funding status. Ok, maybe they sent it that day and it would be in my account the next business day. Sunday I received an email reminding me that my first payment would be due on Friday 3/25. Today, not only was the money not in my account, but I received a request for more information. I sent the information right away, and almost immediately received an email saying my loan was declined. I'm researching whether this is illegal, but is unquestionably immoral and shameful from a customer service standpoint. I will never borrow from Rise again and can no longer recommend that anyone else do either.

Review Title: At first I thought I found a decent...

Review Description: At first I thought I found a decent company. The plan was to be able to repay the loan fast. However, my situation changed and my hope for a quick payoff disappeared. The payment from this company is far higher than any other similar loan companies I have used in the past. This is why I hoped to pay the loan off fast. Then when I hit a rough spot and fell behind in payments I attempted to work with RISE. They did offer a 3 payment plan to bring my account current. However, they locked my online account. So instead of allowing me the fastest possible way to make my payments, RISE made it incredibly difficult to make my payment plan payments. I tried to chat with customer service but they are useless. RISE even blocks their own customer service people from helping customers trying to make things right. All customer service does is give you a phone number to call. I found that to be a waste of time as well. Nor do I have time during the day to make phone calls and hang on the line forever! I was also told that after making 2 payments RISE would make 1 payment as part of the agreement to catch up my account. I was able to see my payment history, and to no surprise to me, one of my payments was missing in the payment history. What did RISE do with my payment? Did they hide my payment so they could claim I didn't make it and not make the single payment promised to me? All I can say is if you are thinking about using this company for a loan, I would recommend trying some other company. I have found RISE uncooperative and unresponsive when trying to contact them. Also very unhelpful when you want to work with them. I have filed several complaints with the company with no meaningful response what so ever!! I hope this makes it to the top of the review list because you should be very cautious about using this company!

Review Description: The entire process from start to finish was very simple. From beginning to end was just a few days and I had my money. The customer service lady I talked to was very pleasant. She obviously was very knowledgeable about the process. Yes it is a very costly loan but because it was so easy to me it is worth it. I only have one regret. I was pre approved for one amount but I only requested a third of it. Now I figured out I needed more. But there is no way to get it now. Totally my fault and not Rise's. Just wish I could fix it.

Review Description: Overall they did approve me for what I needed to put down on for my house when not one of my credit union wouldn't even give me a loan and I have money going to each account each month and had a decent credit score and pay all my bills and credit cards on time. Only thing I don't like is ill be over paying for the loan and they will be doubling off of me of what they gave me and my loan payment is quite high for a 22 payment. But they dud help me when I needed it. But fast and accurate respond and approval and fund delivery

Review Title: Extraordinary High Interest

Review Description: I wasn't aware of the extraordinary high interest rates by this loan provider. The website is buggy, and only usable on certain web browsers. Once I finally logged-on it to change my AutoPay options it stated that I needed to call customer support to do that. No other financial institution does that! So I have to wait the following day to get ahold of a rep to change it. So, I'm taking their word for it. No confirmation. Then I asked if they could reimburse me for the \$161.45 they took out of my account and 2 days later received an email DENIED. They are predatory lender!! You get the same deal going to a PayDay Loan company!! Don't waste your time.. the interest rate is through the Roof!!

Review Title: This may be a bank, But it actually a Payday Loan Company

Review Description: You turn out to be the company I do not recommend to anyone because of your so call verification system and the time to get approval. Your monthly payment is the same as a payday loan, You just compound the interest. You have joined the payday loan people, but you use the word bank when it is not, it is just a payday loan company. Once I pay you off, I hope I don't have to come to your Bank again.

Review Description: I was happy at first because it was fast and quick and I really needed it.. but the fees and extra charges is not fare at all it says that I actually got more than I really received. Review Title: This has been a good company to do...

Review Description: This has been a good company to do business with. Over the years, little emergencies have popped up and I have been able to count on this business for a loan at a reasonable rate. The process is easy, the deductions are within my budget. There are a couple of personal issues that I have that is the only reason for a 4 star rating - 1. the hard check on my credit for every new loan when I have paid on time with no adjustments to the schedule, no defaults. 2. I am always notified that my next loan will be at a lower interest rate - it never is - but you are owned by a new company so I understand you want to make money.

Review Title: Just lost a future customer

Review Description: When choosing any kind of service, customer service is one of the most important factors . I applied to get a loan through Rise. I completed the online process and recieved a email notification that they needed to complete a bank verification. No problem right? Not with this company . I go to login in on their site (I wrote down my credentials) and it would not work so I utilized the lost password feature . It did not send me a code nor a email link to reset . I tried both mobile and desk top . Used the auto chat feature and that was zero help . Emailed the helpdesk and they insisted i had forgotten my own bank login?? LOL If they would have read my email they would have comprehended that I was trying to access THEIR site . ZERO customer service , zero care . If they are this absent minded with a brand new app... do I really trust them with my personal financial info ?? No . And now I am reading BBB reports . I am staying away . Ridiculous

Review Title: Unsure and Skeptical :)

Review Description: This is the first time I heard of RiseCredit through CreditKarma and I will be honest, I was kind of skeptical and unsure on whether I should or not do a loan with them. But, after reading a few reviews and seeing how happy people were with their services I decided on giving them a try. The process went smoother than I expected. I did everything online. They reviewed everything within a day or so and before the weekend was over from when I applied on a Friday I had the funds in my account come Monday morning. I am very pleased with how fast the process went and how fast I got the funds. Granted, the APR% is very high, but I don't plan on paying the loan for that long, my goal is to try and pay it off earlier. Other than the APR%, I will most likely use them again if I ever needed to.

Review Title: A bit high, but a savior nonetheless!

Review Description: Rise did as they said they would in terms of sending the loan money to my checking account. They have been fair and straightforward with online paperwork. True, the interest rate is a bit high, but it was well worth the time as two loans with another business is now paid in full. These two particular loans were, sadly, were "non-reporting" to the major credit bureaus. Thanks to Rise, the problems are no more.

I wasn't real happy with the fact that my first payment was less than 4 days after approval. I would of though 20 or something. Review Title: I left three stars for one reason only

Review Description: I left three stars for one reason only. Getting a loan approval is easy if you have fair or good credit and some type of income. However, the interest rate on the loan is almost crippling for someone on a budget or fixed income. I am on a fixed income and therefore my interest rate is 125. No,that's not a typo. 125 is the interest rate for my loan.

Review Title: Definitely in my top two!

Review Description: I rarely ever rate a company unless it's extremely bad or extremely good. First the application process is quite easy and can be done all online. Second and most importantly the repayment schedule is actually affordable and aligns with when you get paid. You can pay it off to save interest but until that time the payments are affordable. I have nothing but good things to say about RISE.

Review Description: Was not happy with my experience. Problem with my bank account number. According to the rep, the last number was missing, and somehow the funds were sent to another account. Not only did I not receive empathy or concern, but I was also told if the money is not returned I will be responsible for paying it back. I am still shocked the website does not have a pop where you enter an account number that warns applicants about the risk and consequences of a typo. Although I don't think it was a typo because I entered it twice and double-checked. At the time my caution/concern about making a mistake was fear of an email saying "Your account number is invalid or your account does not belong to Michael Sullivan,

Review Title: Help when i needed it the most: i.e. RISEcredit

Review Description: Based on my current financial situation, I needed money to complete a desperately needed home improvement job due to my leg amputation. In another day or two I will have a walk-in shower to facilitate my handicapped status. I appreciate RISEcredit giving me a chance to improve my quality of life. I pay ALL my bills on time everytime. What affected my credit rating was the plethora of hard inquiries accumulated while i was looking for a loan that i could afford (99% is high but it's commensurate with risk and i understand that. High risk, high reward.) However, it pales in comparison to 150% to 450%. Yes, bunky, there are 450% loans out there. You can look at the glass as being half empty and cry in your beer about the high interest rate or you can look at the glass as being half full and be thankful that there was a loan company willing to help out when you needed it most! I choose the latter.

Review Title: VERY EASY FOR AN ID THIEF TO GET A LOAN

Review Description: RISE aka CBBANK/Rise makes it very easy for people to use stolen IDs, and are quick to report the fraud on the victim's credit report!! I'm going through the process now to take legal steps against them and the bank COMM BK who finds them. They report the fraudulent loan under different names with different credit agencies. I've disputed with proof (a letter addressed to ME at the person who stole my ID's address) and they refuse to remove the fraudulent info from my credit reports. That little \$1000 loan is going to end up costing them 10x that amount when I'm done. Terrible shady company! Update: see Rise's response to me below. As if they weren't aware. I've emailed them (not hopeful) but we'll see if they are truly shady or really care about victims of ID Theft.

I owe more after making 3 payments than I took out. I will be taking out a personal loan from another source to pay this off immediately. People who need money from these type of sources do not have the funds to pay this back. You are taking advance of people in tough situations.

Review Description: I like dealing with you for a loan, but I have not received it yet. Do you know when I will get it??? When I spoke to a representative two week ago, it state something about getting it on the 23rd. I was alarm about that with the payment from me would be at the beginning of July. If you put the loan into an account it wasn't mine.

Review Description: I took out a \$3,000 dollar loan and it was 23 pmts for almost \$400.00 a month with the interest 124% and to me that's way too high for any loan I gave back most of the money from the loan and soon as I pay it off I'll never borrow from you again. Also it's not on my credit report to help build my credit and I'm just not satisfied with this loan at all. You sent me a refinance after I paid it down and still 124% interest I have credit cards and I don't need yours.

Company Name: RISEcredit.com

Review Title: Extremely poor interest rates will...

Review Description: Extremely poor interest rates will leave you paying on these loans forever, even large payments will have you feeling like you are making zero progress. Additionally, they do not decrease interest rates for customers with excellent payment histories when taking out new loans as they advertise. Not recommended unless absolutely necessary, but they do grant loans where others don't. I updated after I spoke with Rise per their reply on my previous review, and they simply advised that the terms are as they are and nothing can or will be changed. This wasn't unexpected, but the person I spoke with was professional and understanding at least. During my call I was simply made aware that, even after multiple paid off loans, I could never expect to pay less than 99% interest (and I'm paying much more than this at the present time).

Review Description: After submitting my loan request I was informed I was approved and the funds would be in my account the next business day. After two days of waiting I called and found my checking account numbers were entered incorrectly. The numbers entered were not mine at all. I was then informed that I'd have to wait 3 more business days for them to find out where the funds were. Now in my email I'm asked to verify my info all over again. I'm now suspicious. I'm almost glad this all happened and that the loan didn't go through. I feel I narrowly escaped what would have turned out to be a harrowing ordeal.

Review Title: Run, Run, Run!!!!

Review Description: The loan process is easy, customer service is good. However, do not I repeat DO NOT go with this option unless it is your absolute last resort, and absolutely do not get any deferments. I received a loan for \$3,000 in 2019 and have not paid anything towards my principle in over a year all my payments just keep going to interest only! I am looking to pay off this loan shortly and after already paying close to \$5,000 I will still have to pay over \$3,000 to pay it off. This is a an extremely expensive option. For anyone already struggling financially take it from me, this loan will bleed you dry without you even noticing until you actually look back at what you've paid versus what you've received.

Review Title: RIP OFF....NOT WORTH IT

Review Description: I got approved for a \$3000 loan... last year in January of 2020...since I received the loan... I haven't missed a payment... I'm now finding out that my balance is \$2477... after paying for over an year!... Only \$66 of my \$160.30 payment is going towards the actual balance!...and the other \$90... is going towards INTEREST!... this is outrageous!... at this point... Rise Credit will be getting over \$9000 from me if I pay until the last payment is paid.... I will never do this stupid stuff again... they are a whole rip off !... they say they are helping you... but are really helping their own pockets!.... I would not refer anyone to do this...It's really not worth it at all...borrowed \$3000... pay back ..\$9000... makes no sense !...

Review Title: 1 step forward, 2steps back.

Review Description: I started the loan during rough times and used it a few times. I was on track to pay off the last loan. My last payment should have been withdrawn and I thought it would be over. Little did I know they didn't take the money and started taking only 1.36 each check which was twice a month. I didn't realize as I was sick and before I knew it they dinged my credit as being 30 days past due and that was after I went in and paid it off. I will never recommend or use this again. So they helped my rebuild and then dinged it unnecessarily. Very disappointed.

Review Title: This is the worst loan service ever!!!

Review Description: This is the worst loan service ever!!!! They don't completely explain the terms AT ALL!!! I got a loan with them in January 2020. On my second payment in February of \$277.77 of a loan I received for \$3000 for hard times, I realized that barely \$10 was going towards the interest!!!! I said to myself this is insane!!! I continued a ON TIME payment of \$277.77 for the month of March. In April I received stimulus money and decided to take that and pay it off. I called a customer service representative who told me my balance on the loan was \$2685.97. I paid it and the next day received an email that my account had been paid off! A few days later, they retracted and said I need to pay my payment for 277.77 for April. What in the entire HECK! I have paid off using all of my stimulus money, I have given a total of \$3519.28 for a \$3000 loan I took out 3months ago. Now they said I owe \$368.00 more after paying them off and have completely ruined my credit over it! Please do not do business with these people! Please!!!

Review Description: I've been very satisfied with this company . Especially during this pandemic! I do hate how high my my payback amounts are twice a month. But it's ok because other companies charge wayyyy more! And they loaned me a lot more than I thought I would get. But when I say they have been so wonderful with the COVID relief! They have deferred my payments several times. A lot of loan companies are not doing anything or very little. My loan twice a month payments with them are the highest of my things I'm catching up on. So it's definitely a relief that they are helping out so much. That says a lot about a company ! I've never missed a payment so I haven't had any other issues I see other people complaining about. I will definitely work with this company in the future. Their customer service has always been great for me!

Review Description: I would give them zero stars but that was not an option. They r there when u need them like a shark in the water I have paid almost 3k back to them yet my borrowed Amount of 3500 is now 3900 interest them claim and only four more payments and then it will go to the principal run as fast as you can from them. They will ruin your life. I have already reached out to them and they said sorry it is what it is.

Review Title: Literal Monsters

Review Description: These people are awful. They are an extremely predatory payday loan service that will absolutely screw you over. It's not just insane rates. They go out of their way to make sure that something goes wrong with your payments so that they can add even more interest. I don't know how the employees of this company sleep at night. The world would be a far better place if, tomorrow, they had all simply vanished. UPDATE They responded below and my opinion has not changed in the slightest. These people are parasites. Beware. They are also manufactuaring fake TrustPilot reviews. Take a look at the other reviews written by almost everyone who has something positive to say. They don't begin to pass the smell test.

Review Description: It's a shame and should be illegal. I saw the interest rate on these loans, it's insane. I don't care what debt you're in, you could never come out on top. Paying triple the money back. MoneyLion is a good company to build credit and borrow instant cash. When I saw the interest rate, and all the reviews where people literally thought this was appropriate to do, less knowledgeable individuals. If people are struggling and trying to establish a better route, why would they choose this company? The owners should be charged and a class act should be indicted on them. Skimming on poverty individuals, less knowledge folks to build business is not rightful. I read the last reviews and I promise you immediately I change my hold plan...

Company Name: RISEcredit.com

Review Title: I'm so sick of Rise Credit

Review Description: I'm so sick of Rise Credit! I took out a loan back in dec of 2019 with an insane interest rate around 218%! I tried canceling initially right after I accepted since there's a 5 day grace period, but they wouldn't cancel. I called to find out what was going on and they claimed they never received the email to cancel and it was too late. At that point, hundreds in interest had already accrued. They eventually came back saying they found the email which was annoying. Fast forward to this year, my hours were cut like a lot of people so I had to extend the payment date a few times which didn't help me at all because the balance jumped up to an unmanageable amount. Since I wasn't late on the loan, they wouldn't work out a settlement with me and the balance kept going up and up. They finally decided to work out a settlement (still not a reasonable offer they gave) and I ended up agreeing just because I wanted it to be over with. I paid the settlement in full on the day agreed, and they took forever to update the account. The loan still kept accruing interest after the settlement payment was made and they wouldn't update anything. They finally updated it but a few days after they did, they reported me as 30-60 days late to the credit bureaus!!!!!!!!!! The reason I had such an issue getting them to offer a settlement was because I WASNT late or past due from what they kept telling me! So how do they report me as late after we agreed to settle on a specific date and the payment was made when we agreed!?!?!?! They told me multiple times I couldn't pay before the settlement date after we generated the paperwork because any payment I made at that point would not go towards the settlement. They are frauds and they just want to scam people out of their money. I've already grossly overpaid them if I add up all of the monthly payments I made along with the settlement, now they're trying to report me as late and they increased the balance due to a crazy amount because they continued to accrue interest after we had agreed to a settlement amount AND after I made the payment! They have no compassion on anyone during this time. The company is simply worried about money and that's it. If I'm not working like I was before all of this started and I'm struggling to survive, how can you expect customers to be able to make payments with such high interest rates?? To not even lower the payment amount if interest rates during this time is disgusting! The money I wasted paying this billion dollar company interest could really help during these difficult times. I just don't understand how the interest rates offered are even legal. They actually aren't in CA anymore and Rise won't do anything to help out. This company is sick and please don't waste your time with these types of places!!!! I'm currently looking into starting a class action suit in CA!

Review Title: Not worth it at all

Review Description: Sure it reaches your bank account very fast but unless you plan to pay it off within the next month, it's not worth it. I kept this account open to try to build my credit up and eventually get a lower APR. You will find that they will say, "the system is automatic and you will receive an email when you've been accepted for a lower APR" I've been with them for over year now... a \$1500 loan I've paid \$9000 and no Lower APR. It's disgusting and quite disappointed in just the overall experience. They definitely prey on people looking for a quick fix but you're better off just working to save up than this quick "solution" you'll pay for months to come. I've sent an email so don't even try to respond to this like you're interested because you do not actually care about your customers

Review Title: I'll Never Be A Customer Again!!

Review Description: Quick and easy approval! That's the only good thing about RISE Credit. My pay got cut in half due to less hours available to work. There was no warning whatsoever so this took me completely by surprise (October 2019). I immediately reached out to RISE to inform them of my sudden change in income and I would need a different payment arrangement. I made all my payments on time and in full and was in good standing so I thought they'd show some empathy. Maybe say "Sure, let's see how we can help!" But they would not work with me on my payments for the final 3 months I had left. I'll never take out a loan with them again. The customer service rep was not friendly and just didn't care. I finally got around to making a payment. After I made the payment, they sold my account to collections. I'll never be a customer of theirs again. Update to their reply: You showed no empathy to a loyal customer who always paid on time. Your reply is generic and unhelpful. It's all about money and NOT your customers. I continue to be disappointed by customer service.

Review Title: Feels Predatory, RISE doesn't care now.

Review Description: Testimonial videos on the RISE website show middle class people with poor credit scores who take out a RISE loan due to unexpected short term expenses. Get thousands of dollars fast at very high APR (about 135%) and plan to pay early - no pre-payment fees, nice! Sounds okay, better than asking family for a loan for a few months, right? Okay in good economic times, but now the Federal Natural Disaster has been declared, and it's clear many RISE customers need a different payment plan. RISE will not alter anything, sending the same standard "payment due as you agreed" email over and over. What felt like a helpful loan now feels predatory. Economy is failing, no income and no way to make progress on principle. Feels hopeless, and RISE suddenly doesn't care.

Review Title: Easy and clear.

Review Description: Highly recommend Rise. When I first got a letter from them I was a little doubtful. I get a lot of letters for loan offers and usually after doing research I shy away. I saw a lot of good feedback and for good reason. Was in a tough spot and needed money in advance. Took no time to get the money in my bank account. I was able to then pay it off a few weeks later and not pay too much in interest. Even if I had to use it longer term, the payments were very manageable. It may be one of the clearest loans I've done. You have all your payments listed and shows the interest you are paying as it builds up so there is no surprises. They are easy to contact and don't just seem like some automated machine. 10/10 would use again.

Review Title: My credit isn't perfect but isn't...

Review Description: My credit isn't perfect but isn't horrible. They approved my quickly in a weekend. Interest is a little high. But this is an emergency loan to help during slow work months. I didn't even choose the max. I believe this will pay off by adding positive credit to my score. Not sure if early pay off penalties will happen if I pay off early. But I plan to use this company probably one a year. Gave them 4 stars because I have not went through the whole process yet if paying it all back and seeing how well I like them.

Review Title: The interest rate is insanely high

Review Description: The interest rate is insanely high, BUT these loans are not meant to be carried longer than a couple of months. There is not a prepayment penalty so therefore this tool is what you use to repay the loan ASAP. The funds arrive fast and therefore your payment should be even quicker, it posts right away and calculations happen on their sight right away within 24 hours. Building credit again is quick by using this type of loan after bankruptcy. Thanks Rise for helping me rebuild my life.

Review Title: Customer service is incompetent and not trustworthy!!

Review Description: I applied and received a loan with rise back in November of 2019. I made all of my payments on time and even paid it off early to avoid the super high interest. Before paying the loan off, I spoke with a representative and asked if I paid off would I be able to reopen the loan. She advised that once I paid off I just had to wait 24 hours to apply again. I did exactly what she asked and was declined. I called back to ask why I was declined and the second rep I spoke with advised me that the application I filled out was for a "refinance" and the system did that in error. She advised to just wait until the next day and the system would allow me to apply for an actual loan again. Of course the next day the system did NOT allow me to apply again. I then called back and spoke with a 3rd rep who advised me that I was declined because of my "credit score" and I needed to wait 45 days to apply again. He also advised that I should of just refinanced the loan instead of paying it off, an option I was never offered in the beginning. Personally I would never deal with RISE again but if you do, be very careful and make sure you fully understand how your account works and what options are available to you.

Review Title: Will never go back or recommend

Review Description: I took out a loan with Rise back in 2018. It was okay at first until I switched bank accounts told them I was before my due date. I tried to provide them with the new account in which they told me it was too late. Needless to say they tried pulling twice, I received late fees because of this and it fell behind. I made payments to catch up and then they decided to charge off the account. Also, they charged off the account without contacting me or informing me of the account's status.

Review Title: PLEASE DON'T USE RISE!!

Review Description: Please don't take out a loan from Rise Credit! They are loans sharks and they lie. I signed for a \$2,600 loan on 12/17/19 and the interest rate is \$282%! I thought I had an emergency expense I needed to pay for, but luckily I ended up no longer needing the money. I emailed Rise on 22nd requesting to cancel the loan because it says on THEIR website that's you have 5 business days to cancel. I didn't receive a response so I called them on Monday late afternoon to verify they had canceled the loan and would rake the money back out of my account. I was told that somehow they never received my message even though I logged into my rise account and contacted them through their site. I received the confirmation message saying someone would respond, but they insist they didn't receive it. I told the lady I was speaking with that I'm 10000% positive it said my message went through, and regardless I would still like to cancel because Monday would be the 5th business day so I was still within the 5 day period even if they wanted to lie and say my message wasn't received. I was told that yes, it was the 5th business day, but that I missed the cut off time to cancel!!!! No where on their website does it say there's a time I have to call to cancel. I could understand if the place was closed, but clearly they weren't seeing as how I was speaking to someone!! I'm so frustrated because now they are saying I owe \$144 dollars in interest for a loan that I didn't even use and tried to cancel within their grace period. How in the world do I already owe \$144 dollars in interest in 1 weeks time! That's disgusting and they should be ashamed of themselves. They clearly lied saying they never received the message in order to keep me from canceling the loan just so they could rip me off and take my money. They also are trying to get around the new California law that was passed and is supposed to be effective 1/1/20 that prevents loan companies from charging more than 36% in interest. This company isn't ethical and they will lie to rip you off. Please go anywhere else but here, it's absolutely not worth it!!

Review Title: This for anyone new

Review Description: This for anyone new. The money is great to loan but be careful they do not have several things in contract that will make you take longer than expected to pay loan off. Example 2500k loan will cost you 9000k. How is this when borrowing they add interest already but charge daily interest as well depending on the state. My payment plan they will get there interest first and only after the first year.so if you pay 225 every two weeks they add 16.44 every day which equals 115 each week before you even make the first payment. As they responded to you review you will see how they advised me before hand and try to make it sound as if they did please note I'm not unhappy I decided to take the offer but they will respond like this. Dont sit there and respond to something I spoke the truth on. Also the customer service spoke with me and advised me that it was not in the contract but the additional interest is was the lender adds to you depending on the loan you applied for. Again nothing wrong with the loan but when you borrow be careful.

Review Description: My husband is in the union and winter came early this year so we ran a bit short on cash. Rise gave me an opportunity to borrow in the short term until he could secure more work. The interest is very high, but it is better than not being able to pay our bills. The application process took 10 minutes and the money was in my account within 2 days. Review Title: Bad service at the end of contact

Review Description: Had to stop a payment and they took it anyway. Cost me \$36.00 after I asked them to stop it and I received an email stating they stopped it. They refuse to look into it and pay for the overdraft fee. My contract stated what date it was to be drafted on. Sent the email to them that they sent me twice and Fernando said he didn't know why I got it even though I did ask to have it stopped. He refused to look further into it other than a call I made earlier in the day before I called to stop the payment. Will NOT recommend them.

Review Title: Observations

Review Description: Before applying I read the reviews and thought this would be a great experience. This is the second time I applied after pre approval. I turned in all documents both times and got declined for a reason my bank can't be verified. I sent the required bank statement. I was told I had a negative balance. I did not have a negative balance per my visit to my branch and my account was in good standing. So I don't understand. I am very saddened to experience this uphill battle twice. My opinion, this experience tells me a lot about a company. If you need help you won't get it here. I hope no one else has to experience this communication failure. Respectfully,

Review Description: Thought it was too good to be true. Applying was way too easy. Finalized application and approved for \$3k in about 10 minutes. Got what I needed and was saved from losing my apartment after getting hit with dental surgery that wasn't optional. Had enough left over to get my credit cards back below 30% AND pay off of a small loan I had. Maxed cards out paying bills beforehand and it wrecked my credit to below 600. Credit score will be over 700 soon. Never seen such flexible payments. I get paid bi-weekly, so my paydays are always odd dates. I was able to select that as a payment option. Payments come out the day I get my check, so I can't screw this up. Wow! So impressive! Wish I never dealt with another loan company. I wish my other large loan was with Rise. Will use Rise again and recommend to friends/family. So thankful for this company!!! Thanks, Rise!

Review Title: Over 297% Interest

Review Description: Honestly, going with Rise was one of the worst decisions I've ever made! Goto another company, because you can't afford otherwise! This company is not here to help you! If you choose one of these loans, expect to be in debt to this company for a long time. They hit me with a 297% interest rate! I've paid on time for over a year and they will not offer a reduced rate! They use words like "may" and "might" in their policies so that they trick you into thinking they might go easy on you in the future, but just never happens... They collect a huge profit while you're stuck paying them for years! DO NOT GET A LOAN THROUGH RISE, YOU'LL REGRET IT!

Review Title: Approved... or not? Frustratingly Unhelpful Customer Service

Review Description: I had a great experience with my first RISE loan and was able to pay it back early, within 2 months of accepting the loan. The process was effortless. I received an invitation in the mail, entered my offer code and info and had the funds the next morning. Unfortunately, my experience in trying to get another loan has been beyond frustrating. I'm left with the feeling that RISE doesn't really want me as a customer or my 150% interest. The first attempt resulted in my application being closed promptly after providing verification documents with no real explanation why. The second attempt (started July 9th) resulted in a "48-business-hour" review process that turned into 9 days. I called RISE support earlier this week and the rep ignored my questions as to why the process was taking much longer than expected. (I felt like I was talking to a recording.) Finally yesterday I was advised to log in to the system and review the result of the Review. I was unable to actually access the page the email directed me to view; I was sent instead to complete another application. Confused, I called support yet again and was instructed that I was approved and just needed to fill out the forms again. So I did. Which then resulted in a duplicate loan in the system and re-opening the original loan from July 9th. Then, I get another email advising me to provide the same documentation (ID, SS card, proof of income) I had already provided before and wait another supposed 48 business hours. Don't bother emailing support, either. Email support is just as bad as phone support. What does that leave? Not doing business with RISE, I suppose. Lesson learned: Approved does not actually mean approved, even if a support rep explicitly uses the phrase "you're approved".

Review Title: Repeat business means NOTHING to this company, don't buy their hype

Review Description: My initial experience with Rise was not bad at all. They were very prompt, streamlined the whole process, was able to get everything done in a reasonable amount of time. They claimed to reward returning customers, with offers like better tdd rates and terms. NOT ACCURATE AT ALL. Not only was I not given ANY better rate or term, RISE apparently now has an issue with my bank and after initially approving, waited until the end of the business day to revoke that approval. And, as far as I can tell, the statements about reporting to credit bureaus is false as well, nothing from them on either of the 3. But I bet if I'd defaulted on my loan or been late they'd make sure to report that. Don't buy the line about being different than other companies, they're not.

Review Title: It's a no brainer...

Review Description: It's a no brainer if your are trying to re-establish credit quickly after a bankruptcy. Yes, the interest rate is high, that is to be expected. BUT, the website is easy to use, everything is explained up front; as long as YOU READ all the prompts and disclaimers, customer service is more than accommodating and friendly to speak with. Money was available as expected. Choose the bi-weekly payments in order to save on interest. Fast, easy to use, and professional. What else is there to say...

Review Title: Absolute worst company.

Review Description: For anyone looking to get a short term loan, NEVER use this company. I took out a loan for 1500, have paid back 2,669.76 to date and have two payments left. I reached out to this company about a possible settlement a few weeks ago because of a financial hardship I was facing and was given zero options. I made a similar review on the better business bureau website and they asked me to reach out to them so they could look into this account. I emailed them my issue and the response I received was that they were looking into my account and if they needed more information they would get back to me. I never got s response so I emailed again looking for a follow up. Have never heard back. They are a fine company until you look for assistance. Please do not get caught into the same mess that I have and exhaust all options before you take this loan. I have 2 payments left and will struggle through to make those just to be done with these predatory lenders. And please do not believe the responses you see from the company reaching out to resolve bad reviews, they are just attempting to look responsive.

Review Description: Out of all of the places I've experienced getting loans from, this process was terrible. I had to resubmit the same documents 3 times, and it took days to get approved. The documents that I submitted originally were very legible, and were the same I've submitted in the past for other applications, and worked just fine. Then there was confusion after I had already been funded for the loan, I was called asking for more documents. Insane process, and would not recommend Rise to anyone.

Review Title: AWESOME! Just one little hitch!

Review Description: It was fairly easy to go through the application and to get an answer - the only thing that didn't sit well with me, although it is something that needs to be said, is that every page had a disclaimer about the high fee's associated with this type of loan and to not do it. I'm not sure if you mandated to have that information on every single page on the application or if you do that for your own personal reasons, but it's annoying and it makes me feel like I shouldn't want to do business with you. But that is the only thing that I had an issue with. Everything else was great! Keep up the good work!

Company Name: RISEcredit.com

Review Title: I was grateful for the loan, but read fine print.

Review Description: I was grateful for the loan; however, the application asked for the date of my next paycheck. Based on that pay date, my payment due date for the loan was set for the 15th of the month for the duration of the loan. That is a problem for me since my paycheck arrives on the 3rd Wednesday of the month, which can fall anywhere from the 15th to the 20th of the month. I asked Customer Service if I could change the scheduled loan payment date. The answer was "No", but that I had a "7-day" grace period in which I could change the payment due date each month 2 days before the scheduled due date. Not only is that arrangement inconvenient and risky, it comes at a price: additional accrued interest. You can choose to get your loan money by direct deposit with automatic loan payment withdrawals from your bank account or you can get a loan check by snail mail and pay by check. With either option Rise is betting many borrowers will missed a scheduled payment date so they'll earn extra interest or late fees. So, please, please, please read all the fine print and ask Customer Support all your questions before you push that button accepting the loan. By virtue of your needing a ridiculously high interest loan, the deck is stacked against you, and Rise knows that.

Review Title: This is legal loan sharking

Review Description: This is legal loan sharking. This company takes advantage of the poor and uneducated. The interest rates are INSANELY high. I had a loan with them for \$5000.00 and paid \$1809.83 in interest...I paid it off in four months. If you are in a financial bind, do not borrow from this company. I didn't read the fine print. Don't make the same mistake.

Review Title: Good Service, Horrbile Cost

Review Description: Rise isn't a bad company at all. However, their lending is super expensive. I recently paid off a loan with rise in full and of over \$2,000 in payments made under \$400 was applied to my principle. If you are borrow a very small sum of money (under \$1,000k) they maybe able to help you without you feeling cheated. But anything over, you will definitely pay the price. If your credit is not good, just skip over because you will be paying probably around 90% or more in interest. Know what you are getting yourself into. If I could do it over, I would have never taken out the loan \$3,500 just costed me \$5,745.68 in a matter of 8 months.

Review Description: It would be even more Excellent if you didn't charge us an arm and a leg for the loan. I appreciate your help but to borrow 3000.00 and now have to pay you back over 9000.00 it a little hard. You have a good idea about helping people's out and I understand that you need to make money out of a loan but to charge over three times of what was loan is a little over kill .

Company Name: RISEcredit.com

Review Title: I don't know that it's worth it.

Review Description: The funding was supplied quickly which was nice! The only think that makes me rate the loan so poorly is the APR%. It's almost robbery. If your loaned \$500, for example, you end up paying back almost 3-4times of what you borrowed. I don't understand it. If someone is applying for a loan clearly they are in need of financial assistance. I just don't understand why it's 146% (or something along those lines).

Review Title: Predators like the rest!

Review Description: Charge a crazy amount of interest on the loan. Like \$1000 in 2 months!! Also website states good payments are rewarded with lower rates on subsequent loans, not true at all. Also if you are planning to request a new advance after paying off the first they say they don't know how much your payments will be until they start taking it out?! Seriously. Their rates might be "lower" than a payday loan place or may offer more money than payday loans but they are just as greedy as the next. Preying on the desperate people who will never be able to make a reasonable dent in the balance loaned bc most of the payment goes to constantly accrued interest

Company Name: RISEcredit.com

Review Title: Hummmm

Review Description: Applied, approved, documentation requested, sent, verified verbally that it was received. More of the same documentation requested. Finally approved. Then..... Agreeing to the terms the truth in lending payment schedule showed 6 payments at a lower amount then 6 more at a higher amount....\$200 more. That is what I agreed to. Then..... When the paperwork was uploaded on their website later it's showing all payments are the higher amount!!!! WTH!! Trickery!! Or I'm sure there is a legal term!!! I'll definitely find out!

Company Name: RISEcredit.com

Review Title: Avoid At All Costs

Review Description: They kept sending me request for information then denied me because they said they could not verify my checking account which the did 24 hours earlier. It is the most inefficient process I have ever experienced and it was a waste of a hit on my FICO score. Would have done better with my credit union!!

Review Description: I don't like how the website does not give you an option to make more payments online. As well as my payments keep going up. Biggest mistake I have ever made.

Company Name: RISEcredit.com

Review Title: Very inefficient

Review Description: Very inefficient. Applied for a loan got an email stating I was approved and the money was on the way the next day got an email to verify paper work which I did. Called the next day they said could be up to 48 hours to verify the info called the next day operator said didn't know what was taking soo long will ask to hurry the process up. I applied on the 22nd it's now the 26th and still no results attempted to email customer service from their home page and it keeps saying can't send it that I need to call them smh what gives I'm starting to think this is a scam to get my info. Beware

Review Title: I love Rise

Review Description: I love Rise. I was referred to Rise by one of my credit monitoring web sights. I've been hesitating to apply because my credit is at fair and I don't get approved too often. But since it's the holiday season and I could really use the extra money I applied. I didn't request for much, only \$500 but to my suprise I got approved for \$800 and the best part about it is that it helps with my credit too. I have been working hard to try and fix my credit. Hopefully next year will be a little better with the help of Rise Credit. I recommended them to my friend and she got approved for \$1000. She called my thanking me for referring her. She was so excited. We just wanna thank you for helping us and giving us a chance. We will be referring you to more friends and family.

Review Description: I am not easily impressed! So when I say that RISE deserves 4 out of 5 stars, it means a lot: The process was simple. Thier website is easy to navigate. Thier customer service is good. That fifth star was not granted because Due Date and Amt Due is not readily available, but is only provided via email before actual due date and also provided at time of application. .

Review Title: DO NOT TAKE OUT A LOAN HERE

Review Description: Loan was for \$4000.00 financed in March 2018, I get paid weekly and they set my payment for bi weekly so they make more money on interest. I have paid \$3465.19 to this day and still owe \$3257.51 which will prob increase due to the interest rate. Shows it will not be paid off until the end of January 2020. I had the option to refinance and get possibly a lower interest rate and bam it was higher. I will NOT refinance nor recommend nor take out another loan when this miserable loan is done. I have also made additional payments and they just deduct that from my bi weekly payment so that doesn't help. This is not a good place for a loan!!! RUN FAR away and/or contact me a name of a company that is great!!!

Review Description: I was approved for the loan of \$3500 but somehow there was a typo in my routing number that obviously caused the funds to not be delivered. I was told to send documents in which I did and now I am being denied the loan due to having an insufficient fee on my 30 day bank statement. My questions is why was this not an issue prior to approval?!.. And now being given the run around for unacceptable documents. Trust me I will make those payments and more than likely pay it off but you all can go to hell with this loan.

Review Description: I was at my wits end! Every paycheck I my account was overdrawn at least \$600-750. My automatic payments were being returned and the payments were doubling up. I didn't know what to do. I recognized RISE from the mailings that were coming to my house, so when the opportunity came up to apply online I did. Within minutes I was approved for \$3,500 and the money was in my account early after the holiday. This helped me catch up on the payments that I was behind on. This will be the first paycheck in almost a year that I won't be overdrawn. I hope that I have learned my lesson. Thank you

Review Title: CUSTOMER NO SERVICE

Review Description: I read the reviews prior to apply for credit from Rlse. That was 13 days ago. They had a pretty good review so I applied. I have a good job just had a divorce and some credit issues and need funds for a medical deductible. I applied submitted the application and all the documentation. I had to call and email 10 times. Yes, that is not a typo 10 times to find out what the status was. There was always something else holding up the process. I log onto my email this morning after another email I had sent asking what the status was and I was told I had to reapply. WHAT!!! are you kidding me. I did all the right things emailed the documentation to them and had to constantly follow up just to be asked for additional information. So please just a word of caution before applying. The people on the phone are nice but good is that if you cant get a result that you need. Not applying for a super high interest loan because you want to pay that rate.

Review Title: I got a mailer that I was pre-approved...

Review Description: I got a mailer that I was pre-approved for \$3000. I didn't believe it at first and didn't apply since I get mail offers all the time! I hate doing online loans most time cuz most ask for so much paperwork and by then I quit cuz it's not worth it! I honestly make good money, don't pay a mortgage since I live with family that helps With my kids. The reasons why I tried this was to see if truly this was going to work as it stated! I have had bad credit due to long ago medical bills! All the bad reports are medical bills! And also I have not checked my credit for last 5 years! Thanks to RISE i decided to check my reports and omg, there were so many mistakes on it! So out of curiousness I applied! All it did was ask me simple questions, basics! Then it asked how much I made, where I worked, and to fill in my checking account info Then it took me to a page that stated I was approved! Then had me go through several legal documents to check mark and also let me see exactly what I was approved for, how much each monthly payment would be, and the terms! I even had the choice to choose a smaller loan amount, and either faster payoff terms or longer! I loved that RISE gave me The option to choose what amounts I wanted to really borrow! Either take the \$3000 or less. It was all up to me! Yes it's high in payback, and something I normally would never take as a loan but I now know of RISE in case of any future emergency and I now know they are very transparent and give you plenty of chances to take the loan or not! That to me tells me they truly are here to Help those that need help! And are really not About taking your money! They give you many opportunities to back out even a no risk 5 day cancellation after your funding too if you change your mind! You can't complain about the fees when your the one that is desperate for help that no other company will give you! If you don't like the fees of paying back the loan no one said you had to ask for the help! But don't ask for help then complain or give 1-2 stars cuz the rate! They gave me fair and plenty of information on how this is for emergencies and even tell you other ways to loan for less fees and interest! I didn't need this in desperate measures but I took a loan and will surely pay back each month and I did it cuz it is rare to have a company trust those who have a horrible credit score when no one else will and in such very simple ways! It took me 10 minutes to apply! That is it and I did not have to turn in any documents at all and money will be in next business day! I don't work for Rise or represent them I am just a Normal person, it was my choice to write this and I wanted to cuz it's beyond me that people could sit here and complain or give less than 5 stars for taking a loan, getting help from RISE knowing full well the costs of the payback the percentage rate etc! They were more than overly transparent! If you thought the rate, or monthly payment was high then why do You take the help no one else will give you then insult the people who helped you and by no means of hiding anything! I just went through the process, and I was told More than needed that this was a loan for urgent needs thus higher and more expensive rates! They don't hide that! And they let you know this throughout the entire process to make sure you know! So to all those who take the help of someone that offers and gives you help that no one else will, and you take it. Then you complain! Wow Great way of disrespecting the company that helped you when no one else probably and most likely didn't! I know how it is when times are hard, we all do. No one has a perfect life, one day you can have a great job and make great money and it can be gone the next in a flash! So it is beyond important to be humble, and not to let money change you for the worst! Money is evil and it is the #1 thing that can turn brother against brother and wife against a husband! That is powerful! I once was at a great place, it took one car accident to turn my life 360! Going from independence to dependence! The fact that your so desperate to have to ask friends and family it can bring a persons soul in a dark and unhappy place! Some are lucky they have people they know who will and can afford to help, but know that when you do borrow and ask for help, there is always going to be a thought in your mind that you owe that person more than the money you borrowed! It's better to ask for help with programs like RISE! There is no personal attachment or that "I owe you forever and will do anything for you for what you did" feeling! Cuz if that person you did get help from ever has something they can't do themselves, best believe that you will be that person they will turn to! Take only what you need! And borrow here the exact amount that will help you, and use it to get out of whatever bad spot your in! RISE approved exactly what they said they would, and in 10 min I was approved and confirmed for next business day deposit! I am Glad that I chose to try it out cuz now I know one company that will truly help when I need it and faster than any bank! Rise your a saint! Thanks for all the help and for giving so many people the chance to rebuild their credit and to get out of emergency situations!! I don't know how it is that you will trust all of use that have shown not so great credit, but I believe it is cuz you too may have once been in a spot where you had no help! Perhaps the owner knows how it is to be so desperate for help and not get it! RISE I give you blessings for the countless people you have saved , when in their darkest moments of desperation! Your a saint and your name says it all! RISE from your sadness and hopelessness and then keep rising to a better place!

Review Description: Experience was great but I guess it should be for a 35% profit! I canceled my loan when I found out their fee is a flat fee, not prorated so if you pay it off in a week you still pay the outrageous "fee." I don't have that horrible of credit and only needed the money for four weeks so it was INSANE to borrow \$2000 then a month later owe \$3200. Their little comment, "no penalty for paying off early..." of course they don't care when you pay it off because they take ALL of their money immediately! Way to take advantage of desperate people! NO THANK YOU! Reply: I know how it was set up. The CSR told me if I didn't cancel within the 5 days my balance went from \$2000 to \$3200. Yes, I didn't pay the piddly interest but the 33% "fee" ward still being charged.

Review Description: I was pleased with the approval of my loan. It took a little bit of sorting out the documents needed for the loan, but overall not much hassle. I feel like the interest rate was a bit high and the monthly payment a little more than expected....I hope to pay off my balance ASAP and continue doing business with rise.

Review Title: My experience with Rise Credit Best experience for a loan company..

Review Description: My experience with Rise Credit. First things I use credit karma for information about loans and to get the best people and companies that are there to help you. I asked for information on a loan . Rise credit popped up along with 2 other companies. I chose rise because there loan reviews were awesome. From start to finish maybe 20 minutes. After I hit proceed I was approved less the 3 minutes. Email said you're money will be deposited Monday morning. 8am I got a alert on my account. 1000.00 IN MY ACCOUNT JUST LIKE THEY SAID. They made it super easy to help you. I never had a experience like this from a bank. They set me up for a payment that works for me. Rise sets you up from a to z. Extremely happy with Rise. Review Title: I hate Rise

Review Description: I hate Rise. I paid my loan off and they still took additional money from my account. It even shows on my rise account that its overpaid \$174.00. Then i spoke with Carla a supervisor there who said that theres nothing they can do to give me back my money. She just apologized and basically said im screwed. DO NOT BORROW FROM THESE SCAMMERS. I have been a very loyal customer, and I've paid back every loan on time, actually before time. And this is how they treat their customers. Now i don't have money to feed my child because they took all that I had. My account will also now be overdrawn with fees because bills coming from my account will bounce. I HATE RISE. NEVER AGAIN

Review Title: I'm not satisfied with this loan and...

Review Description: I'm not satisfied with this loan and don't like that fact that even though I'm not able financially to put more towards this loan that it doesn't decrease after 2 months. I still owe the same amount I borrowed and you all got almost double... It's rediculous just because your credit score or for whatever reason the finance charges is extremely high. I would have given you all three times the amount borrowed if I'm not blessed with money to pay this loan off. I've been very upset since I took out this loan.

Review Description: I literally was sitting in my bed at about 3 a.m., crying. Someone had raided my bank account, and charged on my credit card, leaving me with \$20 to make it through until payday, which was 18 days away! I didn't know what I was going to do. The next day I got a letter from Rise Credit. I instantly tossed it thinking it was BS. Then I grabbed it out of the trash, and tried it, what did I have to lose. They did as promised and deposited my loan the very next business day. Thank you, thank you, thank you. Yes, the interest rates are a little high, but it came when I badly needed it. Review Title: Will not be coming back for another loan

Review Description: This is not a good loan service if you are trying to catch up on any bills or loans. Should only be used for extra cash to pay back right away or you are tripling the amount you pay back versus the amount you receive. Don't fall for first four payments no interest. My first four went all towards interest nothing towards the loan. I got a \$900.00 dollar loan and still paying it back I gave them \$2400.00 and not yet done with the loan. Loan place not worth it.

He worked patiently and diligently with me to get all of the information prepared to submit. During his call to my bank he was courteous, patient and very professional. On 10/16 I had to call again to confirm the bank info and Jade was OUTSTANDING, professional and patient. She was extremely kind, especially when dealing with my bank customer service who seemed rushed, rude and not a very good listener. Jade never moved from her calm professional demeanor. These two agents should be exemplified in the tactics for good customer service.

Review Title: Quick and easy

Review Description: Money showed up quick and easy. Easy app. You don't have to sign over your vehicle or home or anything like some others ask for. First payment reduces substantial amount of principal. 2nd month payment begins the primarily interest expense out of payment. If you have the ability to pay it off entirely prior to the 2nd payment due, then go for it. Either way, good option when needed!

Review Title: Unprofessional Experience

Review Description: I applied and furnished all required documents. I attempted to verify my bank account via Rise's online verification system but they had the INCORRECT website listed for my bank. I have a legitimate checking account that belongs to me, is in good standing and I have received weekly direct deposit for the past 8 months. I sent in 2 bank statements and proof of account ownership but was denied credit because Rise failed to verify my account. I question the validity of this company. If they really wanted to acquire and retain customers I would expect a little effort on their part to correct their mistakes.

Review Title: My #1 Choice

Review Description: I have had other payday and online loans, and I prefer Rise over ALL the others I have used. My goal is to have Rise as my only emergency funding. I love the idea of refinancing and I like that you eventually qualify for more money at lower rates. Before trying any others, give Rise a try. I'm sure glad I did.

Review Description: As soon as I saw my interest rate I called to cancel my loan. I was told that was fine and to email a letter stating my reason. Even though I called the money was still deposited into my account. When I called to complain I told the operator I wanted it withdrawn and I did not want to be charged any interest. I was told that I needed to send the email which I informed them I did the night before. But if they were waiting for my email that made no sense since I had called in that I no longer wanted the loan. I was emailed the interest rate even before they had deposited the money so the money should never had gotten into my account.

Review Description: I received a \$3,000 loan with an interest of 220%, it's been 5 months and I'm still unable to refinance, and after 36 payments, I will be paying back a total of \$10,000. Rise takes advantage of vulnerable people with financial problems. DO NOT get a loan here!

Review Title: Waste of time!

Review Description: I had applied for a loan with RISE and was approved. Then I was making monthly payments on time. All of a sudden I had to make payment arrangements with them and they could no longer extend the payments. I had lost all of my income and couldn't pay any longer. I called them and they told me that I had signed the paperwork and there was nothing they could do about changing the rules. Yes they can, it's their company. Instead they just wanted all the fees and interest to keep accruing because anything that goes over the \$2500 value they can charge what they want to. Everything under that to a \$2500 cap off they would have have to keep its payments and fees minimal. It's the law. I had borrowed \$3000 and paid well over \$1600 back. I went to a consolidation company and then RISE waited 59-68 days to add it to my credit report. That's a shame!!! Good luck getting your money of which I don't have and thanks for being jerks about it. I'll never do it again!!

Review Description: The interest is unbelievably high I needed some quick cash to pay for necessities like food and gas. Unfortunately, it is a revolving door. I am unable to afford a lot because of this loan. I have three jobs- 1 full time and two part time jobs and it is a huge struggle when it comes to paying this loan down. I have been paying twice a month. And it's been about 1 year and my principal is only being paid on it by 35\$ Each payment. My interest is the remainder of almost 200\$ So I'm paying 400\$ and only 70\$ is going to my loan. They are making a profit of 330\$. So you are getting screwed. A 2000\$ loan could cost you 9000\$. I would have never taken this loan out of I wasn't able to keep a roof over my head and food in my family's mouth. UNBELIEVABLE!

I am paying close to \$400 a month for my payment for over a year and loan no where near paid off. I feel this is very unfair and unreasonable. I am sad to say I will NEVER use their services again, and I will not refer anybody to RISE Credit!! I am a very unhappy displeased customer! They are telling me that I have to wait for the automated computer to email me in order to refinance, and that there is not an actual person that you can talk to about a refinance this makes no sense at all.. I would not recommend RISE to anybody. I wish I would of explored my options before jumping into something such as this.. This is a total rip off. Review Title: Loans from RISE are the worst choice

Review Description: Loans from RISE are the worst choice for someone experiencing economic hardship. The interest rate is too high. This makes it difficult to make the minimum payments and to pay off the loan. I will never seek out RISE again. It's a company that is just in it to make money off of the consumer. I am very dissatisfied.

Review Description: The process was very simple and painless. It takes no more than 10 minutes, if that, to complete the application. Your money is in your account, depending on your bank, the next day. I've read reviews of complaints that they expect you to pay the next week and they overdraft an account. Well, you have to begin paying them back on your following pay, so if you get paid weekly then you'll be expected to pay the week following your loan. The date is calculated by what you enter. And to avoid an overdraft, you have to make sure the funds are in your account. They do have a grace period, so just communicate with them. Just take time and read before you sign.

Review Description: I have unexpectedly ran into some money problems that are out of my control. I have been making repeatedly on time payments and never missed one for a whole year. Have not been offered to refinance my loan to lower my payments. My job has started cutting hours and my payment for this loan is the same amount as my paycheck every 2 weeks. I need some help.

Review Description: I called to find out what the interest rate was on the \$3000 loan I was about to tag. The gal couldn't tell me what the interest rate was. Then she said it was 225% I thought this was very high and at 598 per month I found she was right. If I did need the funding so bad(family emergency) I'd pass on it . Although to be honest it was very easy to follow the instructions to procure the loan.

Review Description: I am grateful that Rise was willing to take a chance on me and give me a nice loan. I'm working to rebuild my credit and get out of as much debt as possible. My credit score isn't the best so I was surprised when they were willing to loan me the money. The process was quick and easy. My only issue and the reason I gave the lower rating is because the interest rate is OUTRAGEOUS! Yes, they are forthcoming about it, but when you're struggling like me and need money to get caught up on bills it's crushing to have to pay back so much in interest. I wish more people were willing to provide help without such a negative backside to the deal.

Review Description: I have used Rise many times and as a frequent customer I like to manage my account myself online. My one big complaint with Rise online account is this " You can also check your balance or extend a payment 24/7 through our automated phone system." I tried this but am told by the recorded message that the office is closed right now and when to call back. If it says I can extend a payment 24/7 through your automated phone system you need a way to do that. Also it seems that when your office is closed your online account management system will not load so we can not access our account online after business hours. It is not my computer because I tried on multiple computers. Really need this remedied Rise.

Review Title: Rise Credit Preys on Elderly with No Income

Review Description: I just obtained POA for my elderly mother's finances. When I went into her checking account, I saw that she recently received a \$1,500 deposit from Rise. She was too proud to tell me she was struggling, got a preapproved offer from Rise and went for it thinking they'd approve her for \$500 or something. At 77 years old, she lives on only her meager \$600 social security checks each month. Yet somehow...Rise approved her for a \$1,500 loan this month. Um. She gets \$600 a month?! And the interest rate is downright obscene. So now, they'll take more than half of her monthly income for the next year until the loan plus interest is paid. The fact that Rise approved her on \$600 a month income derived solely from Social Security is the epitome of predatory lending. Not to mention, she lives in Arizona where Rise supposedly does not even do business. Not sure how that happened - her income statement, drivers license, etc. all show AZ as her place of residence. I've just contacted the Attorney General in Arizona, and am going to make sure I cause as much ruckus as I can about this company and their illegal tactics to prey on seniors.

Review Title: Was not a quick and easy process...

Review Description: Was not a quick and easy process especially if you have multiple sources of income. When filling in the application, my primary source of income was entered with direct deposit payment dates. Self-employment income was added as a secondary source of income. My application was processed then funded and subsequently rescinded and put on hold because someone at RISE changed my self-employment income to a primary source of income and requested tax documentation as proof even though bank statements had already been submitted. It was several days of back and forth over documentation and they were not quick about notifying you when they were not satisfied with documents submitted. All three times notifications were sent, it was after the cut-off date for receiving information which pushed completion of my application several more days after the request. It took a full week for the application to funded. Very frustrating!!

Review Title: Watch out using Rise

Review Description: Watch out using Rise. Get ready to pay a ridiculous amount for using your line of credit. I understand that the payments go up when you take an advance, but \$600 a month is a little too high for some people. Will never make the mistake of using this company again. And since they replied to comment, let me state that it tells you the projected payment amount on your FIRST advance, if you take more at a later date, you will know how much you are paying the next business cycle. JUST AN FYI TO ALL NEW CUSTOMERS bc what they said in the reply to this is only true to the first advance, trust me because I would have suffered than to get a "Surprise! Your payment is.."

Review Title: PRINCIPAL PAYMENT ISSUE

Review Description: WHY IS IT SO COMPLICATED FOR ME TO BE ABLE TO MAKE PRINCIPLE PAYMENTS BEFORE MY NEXT PAYMENT DATE ??? THEY WANT YOU TO EARN MORE INTEREST. IF I MAKE A PAYMENT OVER THE MINIMUM AMOUNT IT IS ALWAS APPLIED TO MY NEXT PAYMENT WHICH MAKES NO SENSE. THE ONLY THING I HATE

Review Title: Customer service / Internet Browser/ Dummies

Review Description: Current customer, and upon being in a bind, had to re-finance with the outrageous 59.9% interest rate, hell car dealers don't rape you that much ! However, upon doing so through their website, the requirements are to use Google Chrome, which I already have, Yet, chrome wasn't what it needed at all. Within chrome, none of the drop down boxes would work and no information could be put in, and at the bottom of the page it would display " processing" ! You can't process if no information is input into the system. This was on a Saturday, called and the employee , friendly, walked through it all and again stated that chrome was the browser to be used. All setting on my end were checked and double checked to ensure nothing was being blocked and was being performed correctly. Therefore, the loan could not be processed and an "issue ticket" was ordered and submitted to their IT dept to find out what the problem was. The problem was their end, without any doubt (I work in IT) With it being on the weekend , it would be Monday before it would be addressed and fixed and was told an email would be sent to confirm. By Tuesday, no email, no call and I called to inquire, was told by a rude girl that a ticket was put in and would be fixed, I asked for it to be escalated and was rudely told that any ticket submitted was escalated . (which only means, first come, first served) No one could seem to explain why this was happening, perhaps speaking to the IT person would have been a better solution, but that was not an option, this company prefers to communicate via email ONLY, not a good practice as some may not have access to Internet at all times. But was told it would be fixed and notified by next day (Wed) It's currently Thursday and still no money ! However, something told me to try Internet Explorer and BOOM it worked ! Was able to complete the application and it was being processed ! Great . right ? NOPE ! Received an email that the problem was fixed and the account was reset and I had to go back and re-apply ! Nooo, it had already been done through Internet Explorer and and was processing and re-applying was NOT an option ! So, fottthe amount of money you are raping people for, how about possibly paying for some REAL Internet Technicians that know what they are doing ! Nothing worse than the left hand not knowing what the right hand is doing ! COMMUNICATE with each other internally and with the customer, test your systems on all browsers and educate yourselves, clearly you don't have a good system and your employess needs better training !

Review Title: Waste of time

Review Description: I'm quite positive this won't be shared, no one likes negative reviews otherwise, who'd borrow? I truly wish I had read the reviews before I signed up. I was approved for a \$2500 loan, which I needed desperately. At 237% interest, it took FOREVER to pay it off. Once I did, I was told I could get another loan with lower interest. Fantastic, right? I've been trying for two months to get another loan. Rep after Rep told me to wait ten days and try again. This time, another REP told me to wait 45 days. I'm quite positive it's because they didn't make any money off of me as I paid it off early. Don't waste your time with these people!

Review Title: Made me miss my Nephew's Wedding coz I couldn't refinance... Then the next month I could?! Wrong Just Wrong!

Review Description: Hours are awful, everything is too automated no real people handling your issues. Said I could set my own due date but kept from the date I got my loan kept they set my due date before the date I got paid every month despite what I told them. Then when I really needed to re-finance my loan they said I couldn't lol ■ because I had been late on a payment?! Funny thing is they always got their money I just had to call to change the date stressed out until they finally just gave me a regular date on the day I wanted originally. Sad ■ thing is I had to miss my nephews wedding but that's the life of a disabled person! I did appreciate that they were there! So I didn't give them a 1 but I was pretty upset when the following month after I was told that I couldn't refinance my loan that they wanted to refinance. I ended up missing a pretty special wedding ■ sad smh ■■■■■!!! Aggravated enough that I won't be back, & I won't recommend Rise to anyone... But thanks for the loan I needed the \$ n u were there.

Review Title: Make sure they do all their due...

Review Description: Make sure they do all their due diligence BEFORE EVER USING THIS COMPANY. Approved for a loan one day, let's get you scheduled for paperwork, etc. Took time off work to go in but wait, there were more questions the next day of the appointment because she couldn't remember or forgot to take good notes. Now I can't get "you there because of some algorithm and her mistake in her input, oops" More input is needed, and more documents should be asked for - get the full picture of a person before becoming complacent and lazy in your job. Not at ALL recommended - be wary - be careful!! Returned calls multiple times and can get no answers other than leaving an additional voicemail... for another return call.

Review Title: Kimberly at the branch in Idaho falls...

Review Description: Kimberly at the branch in Idaho falls with one main financial was very unprofessional. She did not want to take the time to try to get the banking correct. She was supposed to have it all set up so all I had to do was walk in and sign the paperwork and walk out as I told her I had to do it on my lunch. She did not have anything prepared with my insurance company but complained about how difficult they were to work with. She did not tell me that I would have to call and have them send her things so I could have the loan processed. Because we had to do all of this, and she did not have it set up I was over 40 min late getting back to work. So, I called her the next day to ask her some questions and she was very short and rude and hung up on me. If you need a loan, PLEASE DO NOT COME TO THESE PEOPLE because they will not take good care of you in my opinion.

Review Title: Absolutely horrible customer service

Review Description: Absolutely horrible customer service. I received my credit card and activated it. The website would not let me log in. I went to reset my password and received an email that my account was locked and that I would need to call Customer Service. I called and listened to their garbage automated phone system that would not recognize voice commands (as they said it would) and none of the options listed by the phone system provided anything remotely related to unlocking an account. The automated phone system eventually hung up on me. When I called back again, I just picked an option hoping the Customer Service Representative would be able to transfer me to the correct person. My call was answered by someone with a very thick Indian accent that had me verify my account information. She was able to transfer me to someone who could reset my account, but I had to wait on hold for a very long time. After re-verifying all of my account information again, this new CSR was able to unlock my account.

Review Description: I feel like you might need to train people to get a better grasp on understanding, self-employment income. I would think that would be a large part of your business nowadays with many people owning their own businesses. The objective of business tax wise is to not show much personal income, But they withdraw what they need from the business income. Just FYI.

Review Description: I would never recommend OneMain Financial to anyone, unless you are desperate for the loan. Even with good credit score they still get you with high interest rate and the longer your loan, the more high interests they "rob" you of your hard earned money. Company Name: OneMain Financial

Review Title: Reviews are for sure paid for

Review Description: There is NO WAY One Main has a TrustPilot rating this high. Most people I know who have used them have had SOME issue with them. I had a loan with them in 2021 for about \$5k. I paid it off in 6 months by coincidence because my VA case settled and I received a large sum of money. Fast forward to today, I was looking at my credit report and noticed that in my Transunion section, they remarked my loan with them as " Canceled by credit grantor". Might seem benign right? CANCELED is not typically used on loans that have been paid off correctly. CANCELED by credit grantor is often associated with something bad on your credit report. These little details matter. I disputed it and of course, they couldn't change it. What is an absolute minor detail for them, and a major one for me, they couldn't change. DO NOT GO WITH ONE MAIN. Their entire business model is designed around enslaving desperate people into loans with excruciatingly high interest that you will never be able to pay off. And if you do pay it off, they will get their last lick by reflecting it poorly on your credit. Again, these amount of positive reviews have GOT TO BE PAID. EDIT FOR FUTURE VIEWERS: NOTICE how they took the time to respond to the claim of paid reviews, but could give FK all about their mishandling of my credit report? You see what you will deal with now?

Review Title: Absolute worst company to deal with scammers

Review Description: Absolute worst company to deal with. They perform the old switcheroo on you after they promise you'll get a certain amount. Then they run your credit and fail to deliver what was promised. Furthermore, if you encounter hardships, they do not offer assistance; they put you on hold and then disconnect the call, pretending the line dropped while I'm at home on WiFi. They are a company filled with scam artists determined to exploit consumers. They misrepresent interest rates and do not clarify that it's a computed rate, ensuring that every month the CEOs benefit at your expense. If you do miss a payment, don't worry, they'll immediately report you as delinquent to all credit bureaus. They fail to report accurate information; while a dispute may remove it, it's the process that's burdensome. They engage in harassment and deceit, claiming they are here to help while they take advantage of you.

Review Title: Greatful for the loan..but

Review Description: Greatful for the loan! Way too many redundant calls to answer the same information than was entered into the computer at the dealership! I could understand 1 call but not 7. Infact told the last callers the i had already did this multiple times, and it is litterally 25-30 mins each time, and was told i was on their list to call. And the attempted forcing of additional products down your throat. Then told to click on the authorization to accept calls, text and email spam from their partners...you have to do it and as on rep told me i can just block them later...think about that!!!

Review Title: Been over a week and still no money

Review Description: I needed my loan ASAP and I still haven't received it. I was supposed to get it last Wednesday and it was not deposited into my account. After 3 days of waiting, they told me I can pick up a check in person. I picked up the check and went to the bank to deposit it and it still has a hold on it until the 24th. I needed the funds to fix my car. We are in a worse situation now because we haven't been able to pay for the repairs on my car so they are still holding it until I am able to pay to pick it up. So it's been very hard on us financially not being able to get to work and having to take a Lyft every day to and from work. Very unreliable. When I signed the loan agreement over a week ago, I was told it would be deposited into my checking account the next day and when it wasn't, they made me wait 3 days.... Even though they got a message saying there was an error depositing the funds into my account. And now I'm still waiting because the check hasn't cleared with my bank yet.....

After a year of making higher than required payments I'd barely made a dent in my \$4,000 loan. The interest adds up to about \$150 a month. A MONTH. If you're thinking about taking out a loan with them don't do it.

Review Title: Buyer Beware: Brutally High Interest Rate

Review Description: Any car loan that has a 20% interest rate is insane. The location I bought the car from only offered OneMain Financial auto financing, and so I bought the car on a Saturday, and re-financed Monday morning with a 5.9% interest rate. I would never recommend OneMain Financial to anyone...to me, it is the Pawn Shop or Pay Day Loans of auto financing. (I must admit I laughed at the reply to this post from OneMain...apparently a credit score of 784 and a very good income means a 20% interest rate is justified. Hilarious! The bank I re-financed with were shocked at such an absurd interest rate. Do your homework!)

Review Title: SHADY AF!! Do NOT recommend!!!

Review Description: SHADY AF!!! These people just want to steal your money and ruin your life, do not fall for the BS stories on Credit Karma. They're just as shady. It's all lies. What they want is for you to use your brand new car as collateral for a loan with exorbitant interest rates. The rates are so high that they want you to intentionally not make your payments so they can come and collect your car from you. This is not a good company to get a loan for they are extremely shady. Consumer beware!!!! Watch out for Kayla, she's a legitimate SNAKE!!!

Review Title: Slow service

Review Description: I have had this loan for a month and my car has not been paid off. I can not get a straight answer as to why, except for snail mail. Why would you pay to expedite my title and not pay to expedite a \$4700.00 check?!? In the meantime I'm making two payments. This is not about me making payments, its about your company not paying off my original car loan in a timely manner, now I'm paying you and my previous creditor both for the same car!

Review Title: One main financial not a good credit place

Review Description: I had never missed a payment. I was diagnosed with prostate cancer. Let them know what was going that I was going to have surgery and I was waiting on my SDI. I was told not to worry just keep them updated. I did everything they told me to. Yet after I paid them off they put that I missed payments on my credit. This was very unfair. I will never use them or recommend them to anyone.

Review Title: One Main blocked my account for a one...

Review Description: One Main blocked my account for a one dollar dispute. My card is frozen now for months but brightway continues to charge me. I called a spoke with someone who had trouble understanding me but said my account cannot be unblocked until problem is resolved. I said I'll pay the one dollar so you can resolve problem the agent said that she could not do that. Today I called again a man with a similar speech pattern gave me the same run around with no way of resolving their problem. If you're online looking for credit help be very careful of those offering lower interest and lower annual payments. In the are located in small out of the way cities and states and they outsource their services to foreign countries, think twice. I've had several Seniors come to me for assistance with these problems. Brightway, OneMain is on top of the list. Some of us Veterans return from the Middle East with credit problems and this is the assistance we receive. Please be careful.

Review Description: My husband and I where looking to consolidate some bills and decided to do the prequalify that said was a soft credit pull . We hadn't even applied for the loan and they did a hard pull on his credit. I called customer service and she was very rude. Would not let me speak and kept interrupting me. She could not answer any questions and was no help at all. So I quess now we are out of luck because if we apply it will hard pull again. It should not say this wont affect your credit because that is not true. Very disappointed.

Review Title: Applied for a loan and was turned down...

Review Description: Applied for a loan and was turned down due to 1. Limited Credit File and 2. No credit file. I have 40+ years of credit and perfect payments for over 20+ years and have Good credit and do not need to fix it. Called to talk to someone about it in Tucson Arizona at 6781 N Thornydale Rd. #243 Tucson AZ. I believe the person was named "Jackie", not sure. I told her what happened and even mentioned I had taken out a loan last year at that location and even paid it off early. She told me yep that's what happens, made it very clear she was not interested in looking at the situation or helping me at all. I was made offers by several other companies but wanted to do business with this one since everything went very smooth the last time. I know there had to have been a glitch since the system was having problems recognizing my social security number for my account but they obviously do not care and assume that anyone calling about being rejected must automatically have bad credit. I do not usually respond to things but the person was so quick to get rid of me on the phone and not wanting to hear anything more I felt it needed to be addressed. Not that missing out on my business will make a difference to a company this size.

If I hadn't paid it off, and they had not received payments in 10 months, I should've been contacted somehow in those 10 months!! Never deal with these greedy corporate people!! I paid it off! I was not given an explanation that made sense to why it was dropped so low. I then referred my boyfriend to see what they would offer him and also it was \$4000. I just don't understand how we both got offered a \$4000 loan with different credit scores. I don't know if that's the limit if it's unsecured but if so that should have been stated. I would like to say the customer service was fast and they got me in right away.

Review Description: Took extremely too long to process my information. I had to continue to upload the same information multiple times. I drove 3 hours to the dealership and he had everything on his part ready and correct. They then told me they couldn't approve me due to I didn't have insurance but did we had to get several higher people involved to get it situation and finally I was approved and my insurance which I had was finally confirmed.

Review Title: One Main Financial is a deceptive loan...

Review Description: One Main Financial is a deceptive loan company. I had purchased an involuntary termination insurance policy that was canceled without my knowledge. I was told the policy was canceled because I had been involuntary terminated within 30 days of when the policy was purchased. Of course, One Main Financial failed to mention this one very important detail during its sales pitch.

Review Title: More hassle than it's worth

Review Description: So I found this company through credit Karma, CK said it would be easy and high approval odds. So I did the process. They seemed nice at first, but as I went through the process, it was very cumbersome and they would keep asking for additional information - I would give it to them and then they would say "oh we need this now". After many times I just got fed up with it. I wish they would just tell you exactly what is needed from the get go instead of a week long painful experience. I went with Midwest Regional Finance instead and it was easy peasy and got a loan for \$12,000 in a couple of hours.

Review Description: BUYER BE WARE YOU CAN PAY BACK AS MUCH AS 3 TIMES WHAT YOUR BORROW, IN INTEREST AND the service is really bad. When I went to pay off my loan the was higher than what the computer balance. They left me waiting for 20 minutes when I went there were 8 people in the place. Read and reread everything at least twice. They tell you your interest rate is base certain factors that's just a line everybody pays the same.

Review Title: This being the first time working with...

Review Description: This being the first time working with this company, oh, it is horrible.. starting with customer service - you will be on hold to get to an actual person for HOURS, then when or if you do get a representative they will place you on hold as well and will NOT check back in with you like most considerate representatives. Also, payment options are super slim to adding your bank account details, what if I just want to process a debit transaction.. that's a no... Not sure about all the other super extra positive reviews but this is my honest opinion/ review.. This company as a whole can really do better starting with their customer service PLEASE. We should not be on hold the same length as a work shift just to get simple help. Because everything in the App points you to call and sit on hold but in return receive little to no help. My biggest mistake.

Company Name: OneMain Financial

Review Title: The incredible genuine service from...

Review Description: The incredible genuine service from Shantey and also Jackie. They had no problem with me grilling them about the loan I was applying for. They were patient and they responded with clear cut answers and no hidden clauses in the contract that could present a problem down the road. I absolutely am happy with my decision to go forward with my loan. It helped take so much stress out of my life.

Company Name: OneMain Financial

Review Title: Bad communication and messed up procedures

Review Description: I had a loan with OneMain, it's been on automatic payments from day one and I wasn't late nor did I miss one payment. The last payment on my loan they didn't take the proper amount, the payment left a balance of 24 cents. So instead of making an automatic payment of 24 cents the next month they didn't do anything, didn't contact me, nothing. Then the following month they reported my account as delinquent to the credit bureaus, really messing up my credit score. For 24 cents!!!! I will never understand why they didn't adjust the last payment 24 cents higher to pay off the loan totally, or at least contact me in some manner regarding the 24 cent balance. The only way I discovered this was a notification from a credit bureau saying I had a delinquent account and my credit score had gone down. Seriously!! Based on my experience I would never use this company ever. Borrower beware!!

Review Title: HARD CHECK; NOT A SOFT CHECK AS PROMISED

Review Description: I indicated in the initial communication I got from OneMain that I did not want a hard check on my credit as I was building and could not afford a "hard" hit. He promised that the credit check they did to pre-qualify was a "soft" check. I was NOT! OK, I see your response below. That still is NOT what I was promised. When I contact your office, will you be obliged to reverse your hard check?

Review Title: OneMain Financial has an outstanding team of professionals.

Review Description: Ms. Nuvia did an excellent job by providing a wonderful service while processing my loan application. She was very professional and respectful; furthermore, she explained every detail of the loan and the contract to ensure that I as the customer understood everything before signing all the documents. Finally, once the loan was approved I received the funds within one hour in my bank account. Ms. Nuvia is by far the best customer service representative that I have ever dealt with in loan companies. There is no doubt that her office manager and coworker are a great team and I definitively recommend them.

Review Title: This company is EXTREMELY DECEPTIVE in...

Review Description: This company is EXTREMELY DECEPTIVE in their practice. We paid for the insurance in case my husband went on unemployment. He's a union worker. We had to use the insurance from 10/23-12/23. The insurance company made the FULL payments, but OneMain continued to also pull it from my account. I am currently paid ahead until March 1st. This morning I spoke to find ANOTHER \$285.50 taken from my account even though my online account and statement both state I'm paid ahead until 3/1/24. This payment they took today caused my electric bill to bounce. I'm completely disabled and have a small child, and they won't give me the money back. They have taken \$856 out of my account since October that wasn't owed to them. DO NOT USE THIS LOAN COMPANY. THEY ARE THIEVES!!!!!!!

Review Title: One star too many

Review Description: One star too many. Tried to refinance my loan, every payment on time, and when they updated my information, my income had increased, and I no longer have a car payment. They said no without ANY EXPLANATION whatsoever. It's like they didn't take into account that ALL my accounts are not only current, but I've not been late on any . I think it's BS, and if I had it to do over, I wouldn't use them, I'd look elsewhere, and you should too. UPDATE!! One Main asked me to call them, I did, and I discovered that 1. Being an existing customer with on time payment history DOESN'T MATTER to them. 2. Your application isn't even checked by a real person, a computer makes the final decision. Just wondering if my AGE is a factor...hmmm Stay far far away from doing business with this company. Update #2.. more BS, they acknowledged that I have a perfect payment history, not only with them but my other accounts, but their "computer said I was some sort of risk. I can't say it enough, STAY AWAY, LOOK ELSEWHERE!!

Review Title: Correcting Ml mistake...

Review Description: It will be one year ago tomorrow that a fraudulent request was made in my name to One Main Financial and several other lending companies. My credit suffered as several Hard Inquiries were placed on my report. After contacting and calling these institutions over the past year, all of the inquiries were removed. All the companies that were duped, removed their mistakes from my report. Except OneMain Financial. They refuse to admit they were wrong and correct their mistake. A lending institution that can't admit they made a mistake, is a company that can't be trusted. One Main is the only lender who refuses to stand corrected. This is one arrogant company not interested in making things right. I would be careful when dealing with them.

Review Title: Extreme Interest

Review Description: My rep was awesome. Cant say the same for OneMain in general. I wish your company as a whole, cared for their clients as much as the individual representatives make us feel. You're charging me an EXTREMELY high interest. PLUS I found out that the insurance you're making me purchase is a voluntary action. So you're taking advantage of someone that is already down on her luck and going through hard times. Not cool. Not even for a business.

Review Description: This was a terrible experience and I will be paying this loan off asap and never doing business with this financial institution again. This institution does not take debt consolidation into consideration when it comes to debt ratio although that's the basis of their advertisement. They would also not take into consideration the fact that the beginning of a new year wouldn't reflect any of my normal quarterly bonuses that are (as a financial institution should know) paid at the end of the quarter. The customer service representative wasn't prepared for my loan closing and vs properly rescheduling, I had to call him several times to close my loan.

Review Description: This was the most effortless experience I've had in a long time dealing with a service agent. The agents/ loan representatives were very very helpful in explaining my loan contract, they answered all my questions and assured that I understood each detail before signing any of the paperwork. Everything was done electronically and the whole process was so easy. I would recommend them to my friends.

Review Title: I work out of town alot and have...

Review Description: I work out of town alot and have limited service alot. Sometimes my payments might be a week or 2 late but I am a repeat customer for several loans and always paid them off. In Colorado Springs the branch at Austin bluffs is terrible. They will hassle you after normal business hours, calling from several different numbers. They dont leave voicemails or messages or emails. They never call you to make payment arrangements but they call wanting you to just make a payment instead. Cathy is beyond rude and shouldnt be working in customer service. I had to call them after hours and basically yell at them to quit calling my phone 4 to 6 times daily...now they only call me twice a day but it is always after 6pm cause they think I am home. Once my loan is paid off I will never use One Main again. Until they learn what harassment is and revamp the way they contact individuals that are hard to reach I will never give them other than a terrible review. They even call on Saturdays and Sundays, all the time.

Review Title: Sorry excuse for a business and bank.

Review Description: I review businesses and products some for rebates some after they give you a loan or whatever you're happy you need the money so you go out and you give them a positive review I would not recommend One main financial to a dog I started to get a personal loan through them myself their interest rate yes depending up on your credit nonetheless are through the roof take advantage of people really needing money but when I really saw how sorry low down pathetic and good for nothing they were when my old man's laying in the hospital after having a heart attack this sorry excuse for a company calls and he tells I'm in hosting Valley like been transported to another hospital oh well we really need to get your payment no m***** no matter what your job is you need to get your s*** together and say you know we understand your sick right now call us as soon as you get out there's no excuse for being a sorry human being and there's no company needs their money that bad if it was three four months behind I could see a day late a day late. So if you go when you're desperate need for a loan Carla whatever it is that your money need maybe and later on something happens this is not going to be the bank that says oh let me look at my computer and see how we can help you we've been a customer of ours for years or anything else it's going to be Where's My money where's my money

Review Description: The interest rate is outrageous. I reviewed my account to see why it's taking long to pay down this loan only to see that out of \$189 only \$17 was towards the principle. I feel like I've been paying them forever. This is something I will never do again.

Review Description: I was pre-qualified through credit karma for a secured personal loan using my vehicle. I was approved for the loan after contacting the bank. I sent all the required documents. They did a hard inquiry on my credit said I was approved. Then asked how many miles I had on the vehicle and turned me down because my 2005 truck had 208,000 miles. What a disappointment! Terrible business practice! ■

Review Description: They will pre approve you after they run your credit for one amount. In the end, they will offer you half of the original amount. Review Title: Regretful Borrower

Review Description: This company needs to come down off these high interest rates and payments it has. Also, need to try and work more with their customers when they are having financial issues. Need better ways of paying off the loan other than just simply refinancing back for another 5 years of their life. The interest is crazy on these loans as well and if you use a car for the collateral you should be able to have a pay off on that car incase you are needing to get another car. Cars don't last forever.

Review Title: Worst company to get a loan!!

Review Description: Worst company to get a loan!!! Did a title loan with Chuck in Oroville California and paid it off in October 2023 and was promised title would be mailed in 30 days. It's January 17th and still no title. Called and so many excuses and always someone else's fault. Called the corporate office and now they are supposedly sending me a lean release for me to have to go to DMV to get a title which I will have to pay for! So don't do a title loan with this company for when y'all pay it off you will have to do the leg work just to get it back. I would have given it 0 stars but that was not an option.

Company Name: OneMain Financial

Review Title: Pure and total SCAM

Review Description: I requested to borrow \$4,000 and it showed that I was approved but when the person called me, she was talking about needing collateral. To get the collateral, I would have to borrow enough to pay off my car (approx \$8,000) and then use my car as collateral for the \$4,000 that I needed. So basically, you're asking me to borrow \$12,000 for the sake of needing \$4,000. To best is that the interest rate on the \$8,000 to pay off my car would be higher than the interest rate I'm paying now on the car loan! Nothing but a money-grubbing scam ... would not recommend them to anyone!

Review Title: I have decided to change my earlier...

Review Description: I have decided to change my earlier review that I had previously left. My wife and I were approved for a loan amount of \$12,368 based on the value of my wife's car. As part of the loan process, One Main requested that a loan to Wells Fargo issued in my name which I was not keen on doing. Supposedly, a check was mailed to Wells Fargo in the amount of \$3,939.00 to pay off loan. As of today (01/13/2024), the check has not been received by Wells Fargo. One Main Financial has offered every excuse in the world to say that the check was indeed mailed on 12/28/2023. They have even claimed that Wells Fargo may be holding the check to make sure it is a good check. Even if that is so, the time for that to have occurred has already passed by. One Main Financial has refused to do anything except make sure that I will make their payment on the designated due date. i have contacted Wells Fargo to be on the lookout for the check. One Main Financial should step up and do a thorough investigation into where the check is. The check has surely have had enough time to be posted to my account at Wells Fargo. One Main has stated that their check writing company has confirmed and has offered to do a stop payment on the check after 30 days. That act would mean that I will have to make another installment payment to Wells Fargo plus make two payments to One Main Financial during that same thirty day period. That suggestion is ludicrous.

Review Title: Disappointed and sad...

Review Description: I applied for a loan four times since it was difficult to get all the ducks in a row. Jason didn't seem to care about me and my family at all. I was told they don't look at your credit which mine is fair. I was told a family member could use their vehicle as collateral but I wasn't told over several weeks that the vehicle must be paid off if loan amount small. I don't consider \$5,000 to be a small amount but that's what was still owed on the vehicle. I feel like Jason dropped the ball and wasn't honest from the beginning. We were not approved for a loan so that's it but it would have been nice to know this weeks ago. They act like it's easy and anybody can get a loan but that's not true.

Review Title: I am not one to write a bad review

Review Description: I am not one to write a bad review, but I'm afraid I will have to this time. Two years ago, I paid off this loan. My husband had just had open heart surgery had five bypasses. And now for two years almost I have been trying to get one main financial to release the electronic lien they have on my truck I have called, I have sent emails, my husband has called, he's called everybody he can think of, we sent emails and they still will not release the electronic lien on my truck. They do not have a good customer service. They do not do what they say they are going to do and now I'm gonna have to get a lawyer to get my title to my truck released. Please be careful do not get a loan, once you in, you'll never get out again I have had alone with them for so many years. I'm ashamed of it I should never had to use them. I hope that someone will think before they take along with these people. Please be careful.

Review Title: Do Not Support This Company

Review Description: I've received 5-8 spam calls from these people a day for the last 25 days or so. At first they were humans so I was able to politely ask them to remove me from their call lists. Now they are just the same (depressing sounding) recordings, so I don't even have the option to talk to anyone. I block the number of ever call I get, and at this point if you look at my call history I literally have hundreds of calls from One Main Financial. I'm on the "Do Not Call" federal registry and have even reported their spam calls on the federal website and still get spam. Do not support companies that propagate these practices. They are banking on the fact that they might get ahold of someone who is either ignorant of their options or desperate enough to talk to them.

Review Title: Grayson Ga for The Win

Review Description: I started my transaction with the OneMain Financial in Winder Georgia with the representative by the name of Justin . He was rude and inconsiderate. Not one time did he ever follow through on when he said he would call back. It only takes a second to follow through and say hey I don't have any update or I'm gonna be busy. Just wanted to let you know once I'm done I will give you a call. I was the one always having to reach out. I transferred my business to the OneMain Financial in Grayson, Georgia and me and my wife dealt with Summer■■ who was a complete delight she did everything she said she would do, she followed through, no matter what her circumstances was she took care of her customer, which made a world a difference to me and my wife anyone who knows me knows that I am the nicest guy in the world but when I know someone is lying to me I will call them out on that , my business will forever be with Summer■■ at the Grayson Georgia location. I would never recommend OneMain Financial in Winder Georgia to anyone.

Review Title: Read read read

Review Description: OK to start this off. This has nothing to do with the lady that helped me out with the loan. She was great she was nice I just feel like I was a little deceived. I got a loan back in the end of May beginning of June 2023 I initially reached out for a \$5000 loan. After talking to her and giving me options somehow Went ahead and accepted the 8.5 thousand loan that she mentioned. Going through the paperwork I don't remember being told that my interest rate was almost as much as the loan. For a 8.k loan, my interest rate is about 6.2k so after getting the loan I'm now paying back 14,000 opposed to the 8.5. I know interest exists, but 23% is ridiculous. What I will say is if you do this online or over the phone read everything over yourself because they do screen share (with your permission, of course) but don't allow them to say oh well this screen just tells you xyz and scroll through. No read it yourself because if I would've saw that I had to pay back double almost double of what I was getting. I would've never signed that loan

Review Description: The whole process was straightforward and with a minimal amount of stress. As long as your required documents are in order, the transaction is fairly quick. It was a financial lifeline during a difficult time. Interest rates are a little high and that's to be expected given the clientele. No one is perfect and I'm glad they're here to help those of us who think the quicksand of debt is inescapable.

Review Title: Betrayed and juked just in time for the Holiday and ruin my new Year coming in.

Review Description: I asked for the total amount available, as I added another vehicle for collateral, and on top of the money needed I was in negotiations for a deal on some property, so I was going to hold back that money for that land deal. I figured if it didn't work out I could just put it in savings until another deal came up. It would also always be available for emergencies or make extra payments. Well when it came to close the loan they gave me 2 choices one for a lesser amount and one for the full amount. The loan for the lesser amount was 2% higher on the interest rate, and I explained my reasoning and then felt pressured to accept the lesser amount and I asked her if I was able to get the land deal negotiated could I come back and get the loan I originally requested and she said, sure it wouldn't be a problem. As soon as I got the land deal worked out. I texted an 812 number that they had contacted me on, when they had an issue depositing the money from the loan for the lesser amount, and requested me come back for a check. Then I had issues with the check at first. But was finally able to cash after a couple hours. So with the branch being closed for a long holiday weekend. I thought the 812 number may be the branch manager so I wanted to let her know right away I needed to change the loan. I had put \$3300 of the money I just borrowed down to hold the property knowing I could get the remaining \$700 from the new loan as well as the money needed for the items originally. Now she won't refund the money but is allowing me 2 months to come up with remaining money for the property or lose that cash. Now I'm stressed and trying to hustle up to cover all of it. They said the reason for denial was that One Main Financial would like to see me make a payment on a loan first... Are you kidding me 2 loans paid off with minimal issues on my payments. Before they took my other collateral and their Holiday commission, I was a valued customer now I'm treated as a complete stranger and a value to nobody

Review Title: It was simple to apply

Review Description: It was simple to apply, but if the loan person doesn't explain in layman terms then you will be sending documents everyday. I should have closed my loan in two days if she would have made it self explanatory. They should explain that it takes up to 15 days for a car loan company to receive the payment.

Review Title: If I could give zero stars I would

Review Description: If I could give zero stars I would. I reached out to the company to see if they had a settlement program to help with the monthly payment. They told me yes and got me all set up, I made the first payment right away. Well apparently they don't actually update anything in their system and so 30 days later I find a late payment ding on my credit report. The only thing they actually updated was to make sure and put on my credit report they the account is being managed through a debt settlement company. Which it's not. It's still being managed by One Main. I call the company to find out what that's about because I'm not actually 30 days late. They told me nothing actually changes in the system and that yes every month I don't make the initial agreed upon payment I will get a late payment ding on my credit report. Unless I want to go back to paying the original amount. So they don't actually help at all. They didn't tell me this information when I signed up for the settlement. Just let me go ahead and take the hit and then tell me there's nothing they can do for me. The local office never answers their phone or returns phone calls. Don't take any loans from This company unless you want to be paying them for the rest of forever. They've already made plenty of money off of me. Disgusting.

Review Title: Only a one star because they called me...

Review Description: Only a one star because they called me back next morning. I'm an older yet considered a smart educated older male. They use the bait and switch with qualified offers. Yes I was approved. I have an average credit score of 750 with no late payments or defaults in loans and credit cards. They send a prequalified offer of 14.45%. You apply and get approved and guess what it jumps to 18.6% for 5 years. Not bad almost \$3500 interest. Not bad for someone that is desperate that is. I asked where the 15.4% I was offered at 60 months. She said hold on and come back and said I can do that at 36 months and your payment go up at almost \$100 month. lol. If you're even semi educated you can see where I'm going with this. Never ever believe those prequalified offers because once you apply you can't get the inquiry off your credit report even when approved. That my friend is called bait and switch. You know who you are. I seen her name in a couple of negative reviews.

Review Title: Stay away from One Main Financial at all costs!

Review Description: Stay away from One Main Financial, the customer service people are some of the most rude and condescending people I have ever interacted with. Even when I made multiple payments they still call non-stop. The last young lady was beyond rude when she asked me about surrendering my car for a payment of \$123. Not only that, they called me countless times per day about being late on my payment, which I was not, and explained to her that it comes out on the 15th of every month which she could see on her system, but she pushed back and continued to be extremely rude without looking at what date my payments came out. After making a payment, my normal payment which I was not behind on, I made an additional \$100 payment and they still continued to call me repeatedly. One Main responded to my initial review, but took no accountability for their rude employees calling me countless times, all they said was be sure to keep my account current, which it was/is. Again, stay away if you can, I made a huge mistake getting a loan with One Main Financial. Seek a company that shows respect to their customers, especially at the interest rates they charge. Again, a big mistake on my end, if I would have known this is how they would treat me, I would have gone elsewhere with my business. I will never again do business with the most rude and unprofessional One Main Financial. I hope this helps someone to avoid what I have experienced!

Review Title: This company lied to me

Review Description: This company lied to me. Two weeks after I took out a loan on my car. I wanted to cancel gap insurance... They said I could not. It's against company policy. I am handicapped mentally, and physically. I had to let my car go back because the payments were too high. They loaned me \$12,000 on it and six months later I had the car appraised at two different car lots and they offered me between \$8000 and \$9000 to purchase it. It was a 2014 Nissan pathfinder with a brand new \$5000 transmission less than six months old. I received a letter from them today saying that sold it at auction for \$800... Ridiculous! I was in the automobile business for 50 years before my wife was murdered and I had to retire. I will spend the rest of my days on this earth, telling everyone that gives me two minutes to talk to them.... To stay away from this company...they lie, and now they are trying to steal from a handicap person by saying my car was worth only \$800, I wonder who's friend bought the car at the auction. If you were done this way by this company too.... Please contact me at my email... There are laws and organizations that will help you and protect us from people like this, and I will put you in contact with them. On May 31, 2023, the Consumer Financial Protection Bureau (Bureau) issued an order against OneMain Financial Holdings, LLC; OneMain Financial Group, LLC; OneMain Financial (HI), Inc.; OneMain Financial, Inc.; and OneMain Financial of Minnesota, Inc. (collectively referred to as OneMain). OneMain is an Indiana-based personal loan installment lender with more than 1,400 branches across 44 states. In connection with loan originations and renewals, OneMain markets, sells, and finances add-on products, including credit life insurance, credit disability insurance, and identity theft protection. For several years, OneMain misrepresented to tens of thousands of consumers who purchased and then subsequently canceled optional add-on products that they could cancel the products during what it called a "full refund period" and be returned to the financial position they would have been in had the product never been added to their loan. The Bureau found that OneMain engaged in deceptive acts or practices in violation of the Consumer Financial Protection Act of 2010 (CFPA) by misleading consumers into believing they must purchase add-on products to receive loans and that they could cancel the add-on products within a prescribed time period without cost. The Bureau also found that OneMain engaged in unfair acts or practices in violation of the CFPA by charging and failing to refund the full premium and interest that accrued on add-on products consumers did not agree to purchase and by charging and failing to refund interest that accrued on add-on product fees during a purported full-refund period. Finally, the Bureau found that OneMain violated the CFPA by abusively interfering with consumers' ability to understand that add-on products were optional and that OneMain charged non-refundable interest during the purported full-refund period. The order requires OneMain to stop its unlawful activities, adjust its policies to make cancellation of add-on products easier, include interest in refunds after add-on product cancellations, pay at least \$10,000,000 in consumer redress, and pay a \$10,000,000 civil money penalty. OneMain must also take measures to ensure future compliance.

Review Description: Company was good awhile ago but interested skyrocket. I applied again and was denied a year ago. Received an invitation to reapply. Got denied again and received a bad remark on my credit score. I immediately called the company who a representative took me off call list but rerouted me to a sells representative. I explained my issue and she instantly hung up on me. It was very rude and I really wanted to know why send an invitation if I had been denied a year ago. I unfortunately didn't get my answer but a slap on the face. But yes this are the reasons why I'm leaving a bad review.

Review Title: Go with a different company

Review Description: Absolute nightmare to work with and ruined my credit score. Made me jump through hoops and required a lot of information. Someone told me that one main put themselves as lienholders on her vehicle before even signing a contract. I went through a different company suggested through TurboTax and got a much better rate and sign up was painless. They didn't require any additional documents.

Review Title: This company has screwed my credit up...

Review Description: This company has screwed my credit up by making me apply for them twice, just to find out there not going to approve me for my loan. I have been on the run around for two and a half weeks with them and then they try to tell me they can't approve me because of my credit has a decrease. But that's because they made me apply for them twice, so of course it's going to dip. I've always paid my bills. I actively have two car loans that I'm paying and I've never paid them late but for some reason this company won't approve me for a loan even know they gave me an excellent chance of approval. I will no longer do business with this company or refer anyone to them. Plz save your time and look for a loan somewhere else.

Company Name: OneMain Financial

Review Title: Changing Information

Review Description: I received an automated message that I had good approval odds through One Main. I applied online and saw the note saying I would only have a soft credit pull. I was given the option of a secured and unsecured loan online. All seemed good until I applied, the credit pull was a hard pull, and after getting a message of approval of the loan with the hard credit pull I was told I would need to provide info for a secured loan. I scheduled a call which never came, called them myself and was asked to provide all the same info again. I was told that there may not be offers for me and was still asked to provide vehicle info after I stated I did not want a secured loan. The process was really frustrating and on top of everything I now have a hard credit pull and nothing to show from it. I feel tricked, as the initial online info was much different, just looking for a way to consolidate debt. I would have been fine if they just gave me this info up front rather than changing info throughout the process.

Review Description: My interactions were by phone and not very timely. The rep didn't seem to me to be experienced in processing my loan request. She also placed me hold several time as she tried to figure out what she was doing wrong. She gave me erroneous information regarding payment plan. Review Title: Don't Waste Your Time

Review Description: They are not a good company to do business with. One issue is that they do not report the payments you make as they should. My credit reports show nothing past May 2023. When I disputed this, they updated June & July with "-". Here it is 6 months later, and they haven't updated anything. So now, Credit Karma comes up and tells me I missed a payment when I pay early every month. I'm tired of disputing them constantly because they can't do their job. On top of that they have super high rates around 25%. The person below who commented on their sales practices was 100% correct in what they said. In my case, I was sent an actual notice from them saying I was pre-approved to refinance my loan to get additional cash out. When I filled out additional information, the soft inquiry said I was approved. It literally gave me 8 or 10 offers to choose from. I selected the best offer for me. When I submitted it, a hard inquiry was done, and then they denied me and made my credit score drop. They are a terrible company. I would never do business with them again. I have managed to raise my score a lot on my own. I literally closed every single credit card I had, except for 2. Despite what financial experts tell you, that worked for me. I can't wait to be done with this place. 11/28/2023 - It's funny how in their reply they do not address how they're not reporting my payments or anything regarding their bait and switch sales tactics. I hit the nail on the head. They can't defend their actions.

Review Description: Didn't get the original loan I accepted and qualified for. The representative made me feel forced to take the loan he offered me. Even though I qualified and applied for a different loan , I feel he deceived me into taking this loan. He said it's the only one that I qualified for and I know it's a lie. The only reason I took it was because I needed a little extra money for the family to spend on Christmas

Review Title: Mix-up?

Review Description: I spoke with someone named Jackson when I called about a loan- he told me that I could have a 10,000 loan and that we could finalize the paperwork on Monday December 11- this was on Friday December 8- he told me to come in at 10:15 and he would have the paperwork ready. I went in as asked and was told that Jackson was off that day- there were two womwn there- Mary and Heather- they were very busy but went out of their way to make sure I could be taken care of. They got all of my information and asked if I could come back at 5:15- I did and they were very prompt in helping me. I could not haave asked for better service. The only drawback was that Jackson told me I was approved for 10,000 but I was only allowed 7000. I feel like maybe Jackson needs more training? I really appreciate Mary and Heather and I am so thankful they were able to assist me.

Review Description: I've been with one main for like for like two to three years already I had always had a good things to say about them until now. I always like to pay my payments on time an I though I was doing that by making an online payment. An as every body knows mistakes happen. I made a payment an I guess their was an error on the cents. I guess I didn't make a full payment because it miss it by four cents. They put pass due on my account when I call an try to explain to them it was a mistake they didn't even have the contact to waive the four cents I had to go back into the website an spend another 1.99 to pay the four cents AMAZING.

I gave all of my information and was informed by a representative (Nikki) that I was approved (she even told me an exact amount). I find out today that this was false information and I am not approved (7 days before Christmas). I will not recommend nor use One Main Financial ever again. Review Title: This is the worst financial institution...

Review Description: This is the worst financial institution I have ever dealt with. I sent them a check for the amount that they told me was the pay off. They turn around and tell me I still owe \$95 more I asked them to wave this amount the told me a supervisor would call me within 24 hrs. Really it take 24 hrs. Finally they called she said she would see if this could be waved. It's been 3 weeks without a word. I called again and this lady was no help she just kept over talking me. She said they hadn't made a discussion if it would be waved. I just went ahead and paid it I NEVER want to do business with them as long as I live. All they are going to do is sent you a email talking about seeing what they can do to try and fix it. WELL you should have fixed it when I first called. DO NOT DO BUSINESS WITH THIS COMPANY. THEY ARE HORRIBLE!!!!!! RUN FROM THEM!!!!!!

Review Title: Shout Out

Review Description: I am writing to express my utmost satisfaction and appreciation for the exceptional service provided by your loan consultant, Naira C. My experience working with Naira has been nothing short of excellent, and I believe she truly deserves recognition as a model employee. Naira's positive attitude throughout the entire process was truly refreshing. It made the often stressful experience of securing a loan significantly more manageable. Her prompt responses to my inquiries demonstrated a high level of professionalism and dedication to customer service. No matter the complexity of my questions, Naira consistently provided thorough and clear answers, instilling confidence in every step of the process. One of the standout qualities that I deeply appreciate about Naira is her patience. There were moments when I needed extra time to understand certain aspects of the loan agreement, and Naira was incredibly patient and understanding. This made me feel valued as a client, and I never felt rushed or pressured to make decisions. Furthermore, Naira's commitment to courtesy and respect was evident throughout our interactions. At no point did she display any hint of rudeness or impatience, even when faced with challenging situations. This level of professionalism and kindness significantly contributed to the overall positive experience I had with your company. In summary, Naira C has truly exceeded my expectations as a loan consultant. Her exemplary service, positive demeanor, promptness, patience, and respectful approach make her an outstanding asset to your team. I believe recognizing and acknowledging employees like Naira is essential for fostering a culture of excellence within your organization. Please extend my sincerest gratitude to Naira and consider this as a heartfelt shout-out to her exemplary performance. Thank you for maintaining such high standards of customer service. Sincerely, Edward A

Review Title: Latia set the bar high for the rest of the agent

Review Description: The original person that was supposed to handle my loan set up a time to call and blew me off. Then I get an email about the "closing" it leaves an address but doesn't state whether it was a call or an in-person. We went to the address and the man who answered the door was very polite and stated that this dude had an unexpected "emergency" and would have an agent reach out to us. We spoke with a fairly new agent Latia and she was AMAZING! Every question we had she answered and every text was responded to in record time. She did such an amazing job and how she was able to gain permission to speak with me because my husband drives for a living and cannot legally be on the phone was something I've never seen in a company and I've been in banking for over 14 yrs! Plz give her this msg and her kiddos within the building because she set the bar and I'm coming back for multiple other loans if needed. Tysm Latia for leaving that lasting impression, you have a client for life with us! Bravo!!!!

Review Title: Stay away! Coming from an autosalesman who deals with banks daily for a living

Review Description: I have had several dealings with them and have never had anything go smoothly. I am a salesman at a dealership where we have about 20 banks, and sell between 100 to 150 cars a month. Yet we only do about 1 a month through them because they are RIDICULOUS and ask for everything they can think of. I am talking about birth certificates, socials bill, all bank statements (even though already had paystubs and proof of income wasn't even stated on the main approval!). It seems they want to collect as much unnecessary info as they can on every client they get. Everytime is atleast a 2 day ordeal (latest has taken 3 days), when any other bank takes MINUTES. Once they get the buyers on the phone, they throw everything they can at them to get more money for things like gap, roadside etc. And will not take a simple no! I have been in the car business for 20 years and have sold thousands of cars and we HAVE NEVER dispised a bank as much as this one. Do yourself a favor and stay away.

Review Description: I received a call saying I was approved for a \$4500 secure loan. When I got to the facility it had grown to over \$20,000 and I was told repeatedly that this is the only way I can receive the loan at all. They selected at random different accounts to include in this loan, even when I requested different cards be included instead of the selected ones, I was again told that what they put together was my only option. They were only interested in taking some lower APR loans instead of the high APR ones that i was needing help with. Not interested in my thoughts on what would best serve me the customer, only what made since for them. In the future I suggest getting input from the customer as to how you can be helpful and what would best help their situation.

Review Title: Lies, takes advantage, goes against FCRA & CFPB Regulations !

Review Description: DO NOT APPLY HERE!! READ BEFORE: TLDR: Lies, takes advantage, goes against FCRA & CFPB Regulations ! I am writing this review to express my extreme disappointment and frustration with my recent experience with One Main Financial. I strongly advise against wasting your time applying for a loan with this company, as they will only lead you on and waste your time without any intention of providing the loan they promise. From the very beginning, their representatives gave me false hope and misled me into believing that I was approved for a loan. They assured me that all the information I provided was sufficient for the underwriters and that I would be approved. However, after submitting all the required documents and waiting for two days, I received a call from Carmen, their representative, just before they were about to close. To my shock, she informed me that my loan had been denied, without providing any valid explanation. I repeatedly asked Carmen for the reasons behind the denial, especially since I had been offered a different loan based on the same information I provided to her. However, she failed to provide any satisfactory answers and seemed completely unaware of the current fair credit reporting act regulations. It is disheartening to see that the supervisors at One Main Financial are also not knowledgeable about these regulations, which are meant to protect consumers. What is even more upsetting is that they do not seem to care about their customers' financial situations, especially during the holiday season. It is distressing to think that lenders like One Main Financial can affect the credit of middle-class individuals through false advertisements and misleading information, all for their own benefit. I even shared with Carmen my recent hardship, which had caused damage to my home. She seemed sympathetic and excited to provide me with a loan, only to deny me after I had gathered all the necessary documentation. It took me three days to understand the issue, and even after explaining that I am an independent contractor with a stable income, they refused to offer me any alternatives or consider a co-signer. They even assured me that my car could be used as collateral, only to later backtrack on that statement. Furthermore, it is unacceptable for a lender to inform a potential customer that their 2022 taxes will not negatively impact their loan approval, only to base their decision solely on those tax returns. It is outrageous that a company with a supposedly reputable reputation would rely on outdated methods of income verification, especially during the Covid pandemic. This practice goes against federal regulations for consumer protection and is incredibly unfair and biased. I am currently working with the Consumer Financial Protection Bureau and a local professional advocate to hold One Main Financial accountable for their non-compliance with FCRA regulations and the damage they have caused to my already existing hardship. Their actions not only violate regulations but also their own terms and conditions. I urge anyone considering One Main Financial to save themselves the trouble and learn from my experience. It is best to go somewhere else for your financial needs where you will be treated fairly and with respect. Happy to answer any and all questions about my experience as i luckily recorded all the interactions via phone with my financial advisor. Please, learn from me. Do not fall for their fake empathy or deceit. If your businesses suffered during the return from 2022, they will judge and discriminate against you based on that. They will NOT care about your 2023 income. They will only pretend to get you in their system to raise their own inquiry numbers.

Review Description: This was the most horrifying racist racial ignorance I have ever encountered in my life. That Stacie woman at this Puyallup location needs to be fired immediately. She sat her Azz up there belittling me and every immigrant that walked through those doors at this One Main Financial. She has No right to voice her opinions in this office about how she is so tired of the immigrants coming in this country. She also deliberately sabotage my loan. I am paying off this loan sooner than later and never use your company again. I refuse to deal with a Racist company which allows your employees to behave in this type of manner in this office. Review Title: ATENCION CUIDADO

Review Description: ATENCION CUIDADO! Obtienen todos tus datos, información bancaria, dirección, datos de tus bienes, todo! Luego se hacen la vista gorda para darte respuesta sobre tu petición de prestamo, dicen que te contactarán y lo hacen solamente por unos pocos segundos para decir que te volverán a contactar y no lo hacen, fui personalmente a la oficina ubicada en la San Bruno, CA. el trato de las damas ahí presentes fue muy grosero, con caras de amargadas, poco profesionales con el trato al cliente, después de un rato me dijeron que me iba a llamar una persona, la cual al llamarme me dijo estas palabras "estoy tomando esta llamada la cual no es de mi incumbencia, si quieres seguir el proceso puedo ayudarte pero rápido porque tengo mucho que hacer y esto quita mucho tiempo" le dije bye y colgué la llamada, volví a entrar a la oficina y me dijeron que iban a mandar un email a un manager y que esperara otra llamada en los próximos días, ya cancele mi petición y ellos se quedaron con TODA mi información. Que harán con esa información mía? Sabra Dios. TENGA CUIDADO AL PROPORCIONAR INFORMACIÓN PERSONAL. ENGLISH. ATTENTION BEWARE! They get all your details, banking information, address, details of your assets, everything! Then they turn a blind eye to give you an answer about your loan request, they say they will contact you and they do it only for a few seconds to say that they will contact you again and they don't, I personally went to the office located in San Bruno, CA. The treatment of the ladies present there was very rude, with bitter faces, unprofessional with customer service, after a while they told me that a person was going to call me, who when calling me said these words "I am taking this call which is not my concern, if you want to follow the process I can help you but quickly because I have a lot to do and this takes up a lot of time" I said bye and hung up the call, I went back into the office and they told me that they were going to send an email to a manager and to expect another call in the next few days, I already canceled my request and they kept ALL my information. What will they do with that information of mine? God knows. PLEASE BE CAREFUL WHEN PROVIDING PERSONAL INFORMATION.

I get you wanted to be thorough but the same questions were asked multiple times. I would never come to you for another loan.

Review Title: Worst experience with this place ever

Review Description: I came to sign my paperwork but wasn't told to bring my title for the vehicle. Came back the next day with title then was told I had to have full coverage on a 20 year old vehicle worth less than \$3k. Fortunately the manager Kyle was able to get me the loan without that coverage. I think it's ridiculous that I've paid off multiple loans to your company including the last one of over \$36k and you still make me jump through hoops just to get a \$3,400 loan. After this one is paid I won't be coming back as a customer.

Review Title: I thought we did the right thing

Review Description: I thought we did the right thing, with a not so good credit score, in 2019. Been on phone for over an hour trying to cancel 4 ins. 1 exp 2021 home and car ins, we live in OH, its a law to have car ins, we didn't own our home at the time for home ins. We asked for only 1 ins. Now with only 6 payments remaining, yes our fault for not noticing earlier, but their fault for doing this to us. Over \$800.00 later, not including the home & car ins. Around last March, don't know why, with good credit, not thinking maybe, no huge car payment like 1st loan, they denied us a \$2,000.00 loan. Because I would not hand my paid off car title over to them!! Told us to leave, because I was very, very upset. But now call my phone and my boyfriend's at least 1 a month asking us if we need any extra \$\$\$ That phone call i asked if we both needed to be present to cancel and was told no, by the time it was almost over guess what, he needed to be present, over \$5.26 for the Life ins because they took \$457.99 and \$4.49 Disability because they already have taken the \$390.80 that we gave them permission to take out. I don't know, maybe think twice!! I am very, very unhappy and disappointed in One Main!! The \$2,000.00 loan, was asked for before I noticed all this insurance nonsense going on!! I have several reviews, also. This is my 1st 1star review!!

Review Title: Rude entitled branch manager Daniel Solomcha

Review Description: On Wednesday, November 22nd. I went to OneMain Financial located at 2419 W. Jefferson St. Joliet IL. 60435. I had previously sent all requested information by email and was told that I was approved for a loan and all I had to do was sign the documents in person to receive my loan. When I arrived, a young gentlemen who I cannot recall his name assisted me. I had requested for the \$4,500 loan which I was approved for. I asked to do the 4 year payment plan. The young man who was assisting me then stepped outside of the room we were in and Daniel Solomacha walked in and immediately stated that he is the branch manager and that if he does not approve my loan, I would receive no loan. I then asked Daniel, why am I being told this. And Daniel proceeded to say that the only way he would approve for me to receive the loan is if I lower my loan request and get it for the 3 year payment plan and not the 4 year payment plan. I then explained to Daniel that I was very comfortable with my choice and that as an Office Manager who has a solid job, I can afford to make the payments and would like to proceed with my choice of loan and payment plan. Daniel then firmly stated that he would not approve anything if I do not take his choice. Therefore, I was forced to take a lower loan in the amount of \$4,000 and the payment plan of 3 years which is what Daniel wanted me to take. I did not want this. I was forced to go with this in order to receive the loan. This to me is very disturbing and upsetting. My credit score was looked into when I applied for the loan and clearly whoever ran my credit score, was able to see that I have a 100% payment paid on time score. I also have a solid good paying job. Which is why I was qualified. So I do not understand why I was told by the young man who was assisting me at first, that I qualify for \$4,500 and that I have the option of doing a 4 year payment plan or a 3 year payment plan, when that clearly was not an option to me. Daniel, the branch manager, took it upon himself to decide how much of a loan I will take and what the extension of the payment plan I would be taking as well. I left the location very unsatisfied and very upset with an awful experience from your branch manager. Needless to say, I will never recommend OneMain Financial to anyone. Daniel Solomacha is an entitled rude individual who will force you to take whatever loan he finds more suitable for to him rather than allow the customer to make their own choice, or else he will not approve you for a loan if you do not take what he is forcing on to you.

First, it was sent to the wrong address even though the offer I got in the mail to apply came to my correct address. Then they cancelled that card and I had to send personal documents to verify my correct address. Then, after a couple of weeks with no status change on the delivery, I called and they said the second card they sent didn't have my apartment number. Which all of the documents I sent to them had my apt # listed in the address. Horrible experience. I ended up closing the credit card account.

Review Description: I have gotten two loans with them so far and they are great. There's a cancellation that you can do. If you don't need the funds with any certain time frame which I've used once and that was easy the process took a total of 30 minutes on the phone payments are automatically deducted And never had any issues. They will give you multiple options for your situation. Interest rate is high but I've always just paid ahead and have been fine and cut the interest in half and they allow early pay off overall A+.

Company Name: OneMain Financial

Review Title: The worst customer service

Review Description: The worst customer service. They lie. They're too busy to help you because they were remodeling the office in New Port Richey and working out of Clearwater. They're overwhelmed and will let you know that you're a burden. Let me start with I have good credit and have had three loans with One Main. All paid on time and loans paid off early. I applied and spoke to a Vernisha. She called me and I was approved not for the 20,000 I asked for but for 10,000. After that I couldn't get her on the phone to help with the process. I called three different times just for her to respond with a text to only ask question on the text. She had no time to help so she put me to the local branch in New Port Richey. That was a Sunday. Monday I heard nothing. Tuesday I called spoke with a Jason and he said I we will have you closed out by tomorrow and you will here from me by the end of the day today or first thing in the morning. No call at all. Wednesday nothing. So I called and left a message at lunch time. Nothing back again. Thursday called and left a message at lunch. Nothing back again. So I decided to go into the local office after work at 5 pm to see what's going on and if I can help the process since I have already be approved no going on almost two weeks. I spoke to one girl at the desk and told her what was going on and she let me know how over whelmed they are and someone will be with me shortly. Then the branch manager Sean came over and asked me what was going on. I explained it all over again. He seem to be annoyed that I was annoyed with the lack of customer service. he then went to his computer punched a couple keys sat there for five minutes and came back and said I'm sorry we can't approve you for anything at this time.now if that was the case all of this could of been settled on that first call. But it wasn't. He was rude and annoyed because I came in without an appointment. I feel he made an executive decision to send me on my way instead of trying to help. Straight BS. Horrible customer service. The company thrives on speed and you can have a 550 credit score and still get approved. BS because my score is way higher than that and I was approved on the first phone call. All other loans were done within 24 to 48 hours. Now I sent an email about the situation and their email response said if I need immediate attention that I need to call them. Again Lack of customer service. Again straight BS.

Review Title: I used OneMain to get a car loan

Review Description: I used OneMain to get a car loan. I was on the phone with them 32 times in a 48 hour period. And then they said that everything was good to go. That was NOT the case. We got to the dealership and then there was something wrong with a paystub after being told everything was good. I was at the dealership until almost 8pm with my 3 kids all under 5 and the dealership closed at 6. The only helpful ones in this scenario was the dealership. I will not be using OneMain for a car loan again once mine is paid off. So unhappy, and felt like a complete idiot.

All her colleagues who answered the phone when I called her Dept we're good, too. I doubt quite get the underwriting department's decision making as one option offered to me wasn't approved by them even though it would have been the most helpful option for us, seemed reasonable, and actually offered One Main the opportunity to make more money (at least they aren't approving things just so they could make more money!).

Review Description: When we were signing the papers I saw the routing number to my bank looked different than what I used. Denise said something like I copied it from somewhere or it auto filled. I can't really remember. So I was told it would probably deposit the next day. I waited three days then called them and they had received it back. I was told they can't do another deposit so they had to issue a check. The bank put a hold on the check for 6 days. So I was waiting 9 days for money I really need asap.

Review Title: Do not waste your time, you won't get your money

Review Description: For starters, they need to switch banks because they have previous bad relations with Citibank and I know this because it's been almost a week since I deposited my check from one main and it's not available for another six days. I called Chase and they told me they put a hold on it because they've had fraudulent checks go through their system before from one main. So now I'm late on my rent, and I owe penalty fees. For my first loan experience, this has been pretty bad. I tried calling one main about this and they said there's nothing they can do. Worthless customer service.

Review Title: I was solicited with an offer

Review Description: I was solicited with an offer. I accepted the offer and got an approval. I submitted all documents and was contacted with a final approval that had been blessed by underwriting as they had to obtain the value of my collateral. I was given a closing appointment and on the day I was scheduled I called 30 min prior and asked if I could go to the location 20 min from me rather than a branch an hour away and two min before my closing appt I was contacted and told never mind they can't use my collateral, despite the fact that the website says they accept it as collateral and underwriting approved it. I am a long time customer, have paid off a large loan with OMG and currently have an unsecured credit card with the company. When I complained about being treated this way I was told there was a miscommunication about my appointment time and they are human and allowed to make mistakes. Completely unacceptable. Good payment history and history with this company clearly mean nothing. Why am I being solicited with offers and asked to select my loan terms if they have no intention of following through but more importantly why give a final approval and schedule a closing just to jerk someone around? Be very careful with this discriminating company that scams customers.

Review Title: Stay away from Precomputed loans

Review Description: Stay away from Precomputed loans. no paying extra on principle, trust me they will get EVERY BIT of the interest they are charging with this type of loan. The only way to get out of it is to pay in full. Paid 7 payments so far (1100 bucks) and they kept almost 800 of it for themselves, 300 is all that went to principle. READ the fine lines.....Predatory loans = Precomputed loans. Onemain financial is the master of this type of loan. Do a google search on them and you will see 20 million they must pay for deceptive practices in 2023.

Review Title: Bait and switch

Review Description: Bait and switch. That's how the entire process felt. I was "pre-approved" for two offers...one unsecured, another secured. I selected the unsecured option, knowing that my vehicle is new and little to no equity built-in. I was "approved" and had to finish the document process. Minutes later, a gentleman called and directed me that the loan was secured and they were unable to proceed. This was AFTER OMF ran my credit. I understood a credit check was necessary, but had I been informed through the process that my loan would be switched from unsecured to secured, I would not have allowed them to run my credit. Very "bait and switch" after all expectations and communication stated unsecured. I was connected with "customer care" and was told there's nothing they can do, and "this just happens". Incredible. Horrible experience and will never entertain any other offers from OMF ever again.

I thank god for her patience working with me. The office was very friendly. When you have a staff member that handle personal business very professional, you have a bonus to your corporation. Review Title: The check that we received has not yet...great company to work with this company has always come highly recommended by me

Review Description: The check that we received has not yet been received into our bank account because the check is in mine and my wife's name so we have to be together to deposit the check. The only problem is that my wife is in the hospital with a very large blood clot in her abdomen so even though we need the money to help with our monthly bills I can't even deposit the check so we can use it. We live about 2&1/2 hours from the hospital and barely have enough money for gas not to mention something to eat while I am driving back and forth every day. I wish someone had a solution to my situation because it's extremely difficult for me to continue going back and forth daily that is 5 hours of highway time every day with the money sitting there in a check that I cannot access without her present yet the doctor said she is going to have to be there for at least another week. If anyone has any ideas I would love to hear from you

Review Title: Onemain financial filed a loan...

Review Description: The supposed 4k loan I was offered is part of your official reply to the AG who I'm waiting to hear back from. So I see no reason to email you. I tried to keep it in house, even taking 30 minutes to call because my phone number was not even in your system or recognized with onemain financial because I hadn't even filled out or attempted an application. Therefore I had to go through HR to talk to someone to even get to customer service. I was also laughed at when I mentioned filing with my AG by the first employee. Dalton was more professional but wasn't able to help. Onemain financial filed a loan application without my permission. After filing a complaint with my attorney general's office, on 10-30-2023 onemain financial blatantly lied in their claim that I was offered a loan at all. Much less specifically a secured loan for 4,000 as I was not offered a loan at all. If onemain financial blatantly lies about a NONE CUSTOMER financial information, I would not personally trust with with access to your bank account, home or car.

Review Title: Loan processes was okay

Review Description: Loan processes was okay, I didn't like how they force you to pay your registration on your vehicle if it expires within 90days. The estimated cost for your registration comes in at \$200 more. Also we did this loan to payoff a loan my wife had prior to our marriage. We were quoted the pay off amount closed on the loan and then was told oh there was a payment we processed to include in loan. Lastly One main is refusing to provide my loan documents so I can review the loan in its entirety.

Review Title: I had a hard time proving my income...

Review Description: I had a hard time proving my income because of being on workmen's comp and they were scanned in as a check because direct deposit was not a thing apparently. Chrissy and Blake and everyone i talked to had a lot of patience with me and all my questions and wondering what was going on. My TBI made it a little hard to process all the information but everyone worked with me very well and got me the loan and that got me out of a tight spot and it refinanced my car so that is included in the monthly payment instead of two separate payments. All my bills are caught up and I was even able to pay for an emergency vet bill that was an unexpected \$600! Thank you guys so much for giving me the loan

Review Title: Poor communication and customer service

Review Description: I called in to remove automatic payments and mentioned I opted into a debt mgmt program, called them back (same day) to request my account be closed and to move the payment date. However, Shelia did not care to mention that given the changes I would be limited to xyz and just did what she was asked and was later told I would not be able to change my payment date due to this which I found extremely frustrating! The person I was speaking to was clearly in training and showed no empathy what so ever. I wouldn't suggest OneMainFinancial for your financial needs.

Super nice seem like they went out of their way to help you in anyway that they could now the people that are working in the office are rude very nasty to you and basically not a store. I will visit ever again I also took my business to the one in Rowlett. They were much nicer, friendlier people to deal with and they totally understood the way I felt y'all need better people in the branch and Terrell the people that you have working. There are very rude to your customers. I am not the only customer that is been complaining about this I have spoke to other peoples walking in the office and said that they hate going in there.

Review Title: Never again

Review Description: It was a very painful process that promised to be very easy. I prequalified, got offers from OMF. I accepted. Click bait. Oh sorry that's not available. You can have this crappy deal instead. What a freaking joke. Stay away from this shady lender. Reply: there is no application to follow up on. I took the lesser evil of your offers. I will make it work. But I stand by what I said. Complete click bait. Oh AND they make it very difficult to pay on principal instead of just paying ahead. How ridiculous. Most lenders want you to get paid off early. OMF's goal appears to be to keep you in debt. I'll jump through their stupid hoops, finish fixing my credit and never deal with OMF again.

Review Title: Quick necessity

Review Description: Rates and promptness were as expected, not a budget friendly move but quick necessity made simple. Online application and uploading of docs was easy enough. The problem is the customer service. I've never met someone so rude and obnoxious but like I said, quick necessity. Based on customer service, I wouldn't go through them again, they need to learn some basic manners. For a quick fix that you don't mind paying an arm and a leg interest for, this did the job.

Review Description: Excellent and fast service. I got approved fast and the money was deposited in my account the next day. I applied for a \$20000.00 loan and that's what I got \$20000.00. In other places you ask for 20 and you get 18 or 17 1/2 because they charge you from the 20 that you borrow and you ended receiving less.

Review Title: Not confident at first...

Review Description: The initial visit to the office was uncomfortable and quite off putting. I was first invited to come sit in an office, but momentarily then turned away and told to instead call them some time. I left and called minutes later after returning home. I began that call by asking if I would be better off going to a different branch and requested an honest answer as I feared from the first impression that this employee did not care to take the time to talk with me about my need and would possibly produce barriers to me successfully acquiring the loan. When I went back for the sit down I was thankful to be doing business with a different female. I believe her name was Melinda. She was very kind and knowledgeable. It was pleasant and painless. So maybe go a little further than first impression.

I spoke with four to five different people explaining the same thing. The process was plagued with server errors during the application process and closing. Worst experience ever dealing with a loan company.

Review Title: Do not trust the offers given

Review Description: Do not trust the offers given, it will tell you you qualify, give you options, they run your credit and last minute you don't qualify. Horrible false advertising. It gave me options for secured loans and non secured loans, I applied for non secured loans, they ran my credit and last minute asked for additional information that's needed for secure loans. I call and they say I only qualified for secure loans, if I want to add a co-signer I have to re start application and they would RUN MY CREDIT AGAIN!. Complete waste of time! I could have gone to a different place! Now I have to wait before I can have my credit ran again or I'll hurt it even more! And my financial emergency just became so much harder. Thanks OneMain..

Review Description: This company has a harassing manager at the Livonia Branch. He is rude and disrespectful. He will not allow a person to talk. I definitely would contact another branch if you're interested in obtaining a loan. I've done business with One Main in the past and I paid off my previous loans years before the due date.

Company Name: OneMain Financial

Review Title: horrendous communication

Review Description: I got an email from OneMain with a "loan offer", and I decided to pursue it because daycare costs are killing us. I started working with Brittany who was very friendly and helped get our application started. On Wednesday she notified me that we were ready to close and on Thursday we started signing documents. Then the website seemingly glitched and wouldn't allow my husband to sign his part. So they came back saying they needed identity verification, so we uploaded more documents, answered more questions, etc. All this time Brittany keeps saying "I'll call you back in the morning", "I'll call you back in a little bit", and hours would pass by with no call or update until I would call and ask. Finally after hours and hours over this week of trying to get this loan to finish closing, I call for an update and am told they decided not to move forward. Brittany didn't even bother to call and tell me. This has been such a horrible, time consuming, anxiety inducing experience (and in the end all for nothing!) and I would absolutely not recommend using this company.
